Oregon Search & Rescue Glenn Voelz, 2023-10-16 Oregon's long tradition of volunteer search and rescue dates back to the territorial days when Good Samaritans and mountain men came to aid those in need. On the coast, surfmen of the U.S. Life Saving Service protected mariners traversing the Graveyard of the Pacific. In the early twentieth century, outdoor clubs like the Mazamas, the Skyliners, and the Obsidians served as informal search and rescue units, keeping Oregonians safe in the mountains, rivers, and wilderness areas. After World War II, Oregon's volunteer teams began to professionalize and became some of the most effective units in the country. Join author Glenn Voelz as he recounts the history of Oregon search and rescue.

Search and Rescue Lorna Siggins, 2022-05-10 On 13 March 2017, the Rescue 116 crew of Capt Dara Fitzpatrick, Capt Mark Duffy, Paul Ormsby, and Ciaran Smith took off from Dublin airport just after 2300 hours for a medical evacuation off the west coast. The first indication of disaster came when the crew failed to answer a radio call at 12 46 a.m. At 02 16 hours, sister helicopter Rescue 118 spotted a casualty and debris in the water. There would be no survivors from R116, and extensive searches failed to locate the bodies of two of the four crew. The crash occurred just six months after the loss of another experienced volunteer, Caitriona Lucas, from Doolin Coast Guard in Co. Clare, and 18 years after the loss of four Air Corps crew who were returning from a night rescue in thick fog off the south east coast. In *Search and Rescue*, Lorna Siggins exposes the shocking systemic flaws that led to these tragic deaths but also looks at successful rescues where, despite all the odds, the courage and dedication of members of the Irish Coast Guard and the volunteers who work with them have saved countless lives, including the dramatic rescue of paddleboarders Sara Feeney and Ellen Glynn off the coast of Clare in 2020.

Special Ops: Search and Rescue Operations Carol Hand, 2014-12-15 The heroic combat search and rescue work of the United States Air Force's pararescue jumpers or PJs is something worth knowing about. After all, these courageous PJs are the first in line to find and rescue fallen soldiers and civilians in the most dangerous of war zones, often risking their own lives in the process. In these pages, the basic principles, history, and structure of American combat search and rescue teams is thoroughly covered, with particular focus on true stories of PJ rescue missions and the equipment, vehicles, and weapons they use.
