Search For Africa History Culture Politics:

The Search for Africa Basil Davidson, 1994 Comprises essays published between 1953 and 1992 which illuminate the reinstallation of Africa's peoples within the culture of the world The Search for Africa Basil Davidson, 1994 A collection of short essays various aspects of African history culture and modern politics *African Mind, Culture, and Technology* Yamikani Ndasauka, 2024-07-01 This book provides a philosophical investigation of technology in Africa articulating conceptual foundations and analyses rooted in African worldviews and communitarian values It aims to spur discourse and understanding of how technology can be justly shaped for human advancement in Africa Yamikani Ndasauka highlights the need to understand African conceptions of existence ethics and values as foundations for envisioning more humanistic technological applications A historical contextualisation traces the layered origins of African technology philosophy in indigenous innovation resistant adaptation of external systems and creative fusion of endogenous and exogenous knowledge The book develops African frameworks to assess and design technology in accord with human dignity and collective advancement **Africa** Air University (U.S.). Library, 1994 **Special Bibliography Series** , 1957 **The Political Economy of a Plural World** Robert W. Cox, Michael G. Schechter, 2003-08-29 Building on his seminal contributions to the field Robert W Cox engages with the major themes that have characterized his work over the past three decades and the main topics which affect the globalized world at the start of the twentieth century This new volume by one of the world's leading critical thinkers in international political economy addresses such core issues as global civil society power and knowledge the covert world multilateralism and civilizations and world order With an introductory essay by Michael Schechter which addresses current critiques of Coxian theory the author enters into a stimulating dialogue with critics of his work Timely provocative and original this book is a major contribution to international political economy and is essential reading for all students and academics in the field *Cimboa* , 1996 Revista caboverdiana de letras artes e estudos a journal of letters arts and studies **Savage Constructions** Wendy C. Hamblet, 2008-03-26 Savage Constructions composes a critical examination of the popular assumption that violence is an essential quality of certain ethnic or racial populations Wendy Hamblet challenges the supposition all too common in the West that darker skinned peoples are inherently violent To challenge this myth Savage Constructions offers a theory of subjectivity transformed by historical violence It rethinks how African peoples once living in simple neighborly communities more democratic and egalitarian than modern states have come to the condition of abjection misery and fierce aggression in which we find them today This rethinking she argues that Western affluence is built upon slaughter slavery and colonial oppression and suggests that prosperous nations of the West owe a great debt to the societies they trampled en route to their prosperity This work is important because Newly independent nations of Africa are a primary example of a much vaster phenomenon Western powers continue to sack poorer weaker countries through covert intrigue outright war crippling debts and unfair global labor and trade policies The

violences continue because many Westerners still harbor metaphysical assumptions about the supremacy of white Christians over less civilized darker skinned peoples These assumptions depress the possibilities of ethnic minorities within the West continue to influence foreign policy and frustrate global relations and ensure that the overwhelming collateral damage of modern wars is color conscious Savage Constructions will appeal to all levels of scholars and students Across Cultural Borders Eckhardt Fuchs, Benedikt Stuchtey, 2002 This innovative work offers the first comprehensive transcultural history of historiography The contributors transcend a Eurocentric approach not only in terms of the individual historiographies they assess but also in the methodologies they use for comparative analysis Moving beyond the traditional national focus of historiography the book offers a genuinely comparative consideration of the commonalities and differences in writing history Distinguishing among distinct cultural identities the contributors consider the ways and means of intellectual transfers and assess the strength of local historiographical traditions as they are challenged from outside The essays explore the question of the utility and the limits of conceptions of modernism that apply Western theories of development to non Western cultures Warning against the dominant tendency in recent historiographies of non Western societies to define these predominantly in relation to Western thought the authors show the extent to which indigenous traditions have been overlooked The key question is how the triad of industrialization modernization and the historicization process which was decisive in the development of modern academic historiography also is valid beyond Europe Illustrating just how deeply suffused history writing is with European models the book offers a broad theoretical platform for exploring the value and necessity of a world historiography beyond Eurocentrism **Beyond the Political Spider**, 2023-01-10 Beyond the Political Spider Critical Issues in African Humanities by Kwesi Yankah is the first title in the newly established African Humanities Association AHA publication series By integrating his own biography into a critique of the global politics of knowledge production Yankah through a collection of essays interrogates critical issues confronting the Humanities that spawn intellectual hegemonies and muffle African voices Using the example of Ghana he brings under scrutiny amongst others endemic issues of academic freedom gender inequities the unequal global academic order and linguistic imperialism in language policies in governance In the face of these challenges the author deftly navigates the complex terrain of indigenous knowledge and language in the context of democratic politics demonstrating that agency can be liberatory when emphasising indigenous knowledge especially expressed through the idiom of local languages and symbols including Ananse the protean spider folk hero in Ghana and most parts of the pan African world **Unveiling Traditions** Anouar Majid, 2000-11-29 Questions the intellectual assumptions that prevent an understanding of potential Islamic contributions toward a more egalitarian world civilization Making Good the Claim Rufus Burrow, 2016-02-16 The Church of God Reformation Movement founded in 1881 has the distinction of having been founded on the two core principles of holiness and visible unity Standard histories of the group proudly argue that the founder and pioneers exhibited a zeal for interracial unity that began to wane only in the early

years of the twentieth century This book rejects that claim and argues instead that little to no extant hard evidence supports that view Moreover Making Good the Claim argues that while blacks eagerly joined the group they did so not because whites expended much energy evangelizing among them but because they heard something deeper in the message of holiness and visible unity than God's expectation that members achieve spiritual and church unity Unlike most whites blacks interpreted the message to call for unity along racial lines as well This book challenges members of the Church of God to begin forthwith to make good their historic claim about holiness and visible unity particularly as it applies to interracial unity

Poverty From The Wealth of Nations M. Alam, 2016-02-05 In *Poverty from the Wealth of Nations* the author presents an analysis of the evolution of global disparities that goes beyond the earlier neo Marxist critiques of global capitalism He moves beyond their narrative by inserting two additional asymmetries into the global economy those created by unequal races and unequal states The author analyzes not only the power of markets but the powers that shaped these markets More importantly he marshals cross country evidence to show that loss of sovereignty retarded industrialization human capital formation and economic growth

"I'm Not a Racist, But..." Lawrence Blum, 2015-08-01 Not all racial incidents are racist incidents Lawrence Blum says We need a more varied and nuanced moral vocabulary for talking about the arena of race We should not be faced with a choice of racism or nothing Use of the word racism is pervasive An article about the NAACP s criticism of television networks for casting too few minority actors in lead roles asks Is television a racist institution A white girl in Virginia says it is racist for her African American teacher to wear African attire Blum argues that a growing tendency to castigate as racism everything that goes wrong in the racial domain reduces the term s power to evoke moral outrage In *I m Not a Racist But* Blum develops a historically grounded account of racism as the deeply morally charged notion it has become He addresses the question whether people of color can be racist defines types of racism and identifies debased and inappropriate usages of the term Though racial insensitivity racial anxiety racial ignorance and racial injustice are in his view not racism they are racial ills that should elicit moral concern Blum argues that race itself even when not serving distinct racial malfeasance is a morally destructive idea implying moral distance and unequal worth History and genetic science reveal both the avoidability and the falsity of the idea of race Blum argues that we can give up the idea of race but must recognize that racial groups historical and social experience has been shaped by having been treated as if they were races

Rhetoric and Social Justice in Isaiah Mark Gray, 2006-04-19 Rhetoric ad Social Justice in Isaiah applies a

literary methodology to the book of Isaiah in order critically to explore the nature and sources of the social justice encoded in the world created by the text After a close reading of Isaiah 1 16 17 Gray establishes grounds for a trajectory to Isaiah 58 preparatory to examining if it offers a deepening of the concept of social justice in the Isaianic corpus Gray raises the issue of divine reliability to assess the impact on the theme of social justice of the rhetoric of universal punishment by the divine prophetic voice He evaluates the ways the stark Isaianic dichotomy between reliance on God and anything of human origin is affected by trust in God being destabilized if trust in God is demonstrated to be difficult on account of legitimate doubts about divine justice then the way is opened for retaining an active human role in the search for justice Gray demonstrates the ways that social justice attains primacy in Isaiah the ways that humanity is given a role in pursuing social justice and the ways that Isaiah 58 impinges upon the idea of social justice within the book as a whole
