Drawing on the work of academics and other experts from across Canada Carleton University's School of Public Policy and Administration's annual book takes a focused and robust look at an era where a political coronation seemed inevitable but high expectations had to be managed downwards almost immediately A less than buoyant fiscal surplus escalating concerns about liberal ethics and corruption and a growing volatility in public opinion are examined as are Canadians increasingly uncertain views about the new Liberal leadership versus the old Liberal Party's ten year hold on power A new Conservative Party and a suddenly feisty New Democratic Party are also a central part of the new 2004-2005 Canadian political and policy milieu

Leadership Mindsets Linda Kaser,Judy Halbert,2009-03-04 The evidence is clear school leaders make a difference to the learning of the pupils they serve And yet not all leaders have the same degree of impact What are the factors that make the difference to student learning Why are some leaders able to raise student achievement in schools in the most challenging circumstances whilst other leaders struggle to simply maintain the status quo Drawing from international case study research over many years from the experience of hundreds of school leaders serving widely diverse communities Judy Halbert and Linda Kaser argue that there are six distinct mindsets that characterize the way successful learning oriented leaders operate and make sense of their professional world These leaders are motivated by intense moral purpose knowledgeable about current models of learning consistently inquiry oriented able to build trusting relationships evidence informed able to move to wise action This book outlines an alternative way of thinking about school leadership It examines research evidence that leaders will find most useful and suggests how they might use this evidence to maximise their learning and the learning of their students Leadership Mindsets has been written specifically for aspiring to newly appointed school leaders who are determined and motivated to create quality and equality for learners in the schools they serve through networks of inquiry learning and support

From Pride to Influence Michael Hart, 2009-04-30 Recent Canadian foreign policy has fixated upon Canada's former status as a middle power within a small club of western democratic states The emergence of a US dominated world and of an integrated North American economy and the decline of multilateral rules and institutions as prime instruments of global governance have left Canadian foreign policy searching for new purpose and direction From Pride to Influence brings Canadian foreign policy into the twenty first century by grounding it in a conception of the national interest that accepts the primacy of the United States in guaranteeing Canadian national security and prosperity It will appeal to the engaged public practitioners analysts and senior undergraduate and graduate classes focused on Canadian foreign policy *The People's House of Commons* David E. Smith, 2007-04-21 Canada's House of Commons has come under considerable attack in recent years Many critics have contended that the House has been unresponsive to public opinion and that its party leaders have too much control while leaving individual MPs essentially powerless The House has also faced challenges by the courts since the introduction of the Charter a powerful bureaucracy equipped with specialized knowledge and new telecommunications systems that are redefining the transfer of information Through an examination of academic judicial political and legal commentary The People's House of Commons explores the role of the House as a public institution While addressing much of the criticism that has been levelled at the House David E Smith considers the competing political models and inherent tensions and their affect on public understanding Smith maintains that court decisions are transforming the political system from one dominated by parties to one that promotes individual participation He argues that reforms such as fixed election dates or stronger parliamentary committees have constitutional significance since their implementation would alter the practice of responsible government which for more than a century has been a party government A definitive work by one of Canada's foremost experts in the field of political science The People's House of Commons explores the ramifications of many of the changes currently being proposed to Canada's political system with particular reference to their affect on prerogative power parliamentary privilege party discipline bicameralism and the role of the opposition *The Art of the State II* Thomas J. The Return of the State Adam Harmes, 2009-12-01 In this provocative book Adam Harmes reveals how only effective political globalization can balance and hold in check the extremes of global corporations Free trade agreements and economic globalization have created a gap between global transnational corporations and governments mired within national boundaries Large corporations are now operating above the law Return of the State takes us into the corporate boardrooms government departments and international organizations where a new global compromise is being forged It argues that political globalization is both necessary and likely revealing what it will involve and what it will mean for corporations civil society and private citizens around the world Return of the State is well researched hard hitting controversial and prescient

Searching for Certainty Darrell Jay Bricker, Edward Greenspon, 2001 The 1990s was a decade of reckoning that compressed our spirits as well as our bank accounts We hunkered down through a prolonged winter of decline before finally at decade s end emerging to breathe in the first stirrings of national recovery The long journey tested our confidence in the country its governments our employers and even ourselves Happily we discovered a new inner strength and the wisdom to take advantage of global trends and to build a new social and cultural Canada in the post Trudeau era from Searching for Certainty Darrell Bricker president of the leading market research firm in Canada and Ed Greenspon political columnist for The Globe and Mail join forces to offer a comprehensive report on the new economic social and cultural Canada the dramatic changes wrought by globalization and technological innovation over the last two decades as well as the more subtle shifts in how we approach work health care and education Using the most up to date and complete data available they analyze economic trends from global trade to the workplace and trace the ways in which Canadian society and culture have been transformed They reveal that Canada has emerged from the late twentieth century a stronger and more dynamic society Far from becoming more American the new mindset is steeped in Canadian traditions of tolerance and community In the aftermath of the 1990s Canada is a society searching more than ever before for certainty not promises for quality of life not quantity of goods One example a decade ago Canadians had never heard of the Internet and

the public equated new technology with job loss By the fall of 2000 70 per cent of adults more than 15 million individuals were connected to the Internet at home or work or school By the end of 2001 four out of five Canadians will probably enjoy access How is the Internet changing our health care our political unity how we shop even our power in relation to governments and corporations Searching for Certainty is a smart and entertaining fact filled account of how the changes over the last two decades affect us now and will determine how we feel and what we want tomorrow Combining demographic statistics with a journalist s keen eye for real life stories Bricker and Greenspon offer valuable insights for business and public policy and practical tips on how to survive and prosper in the new economy *Good Government? Good Citizens?* W.A. Bogart, 2007-10 Examining the altered roles of courts politics and markets over the last two decades this book explores the evolving concept of the citizen in Canada at the beginning of this century 30 Mitch Diamantopoulos, 2009 Journalism matters and this book proves it This insightful eloquent and entertaining anthology paints a compelling portrait of Canada and Canadian journalism in a rapidly changing world It brings together in one volume thirty years of the prestigious James M Minifie Lecture at the University of Regina s School of Journalism Touching on a wide range of topics from war to climate change to our ongoing constitutional crisis these lectures delivered by some of Canada s leading journalists stand as a tribute to press freedom and journalistic imagination in Canada This volume should be required reading not just for journalists but for anyone concerned about the state of the democratic process a process that journalism informs and animates With media industries in crisis and the democratic craft of journalism in peril this collection serves as a chronicle of the re invention of Canada and of Canadian journalism over the last three decades The Minifie Lectures 1981 2010 is an intriguing glimpse into the inner life of the press corps as such it will be an essential guide for journalists and media reform movements alike in the years ahead
