Searching For The New Liberalism Perspectives Policies Prospects:

Searching for the New Liberalism Howard Aster, Tom Axworthy, 2003 It is clear today during the early years of the 21st century that the search for fundamental political ideas for vital and viable political discourse is taking many people from the Pope to Tony Blair back to the discourse on liberalism The papers in this volume are intended to extend the Canadian discourse on liberalism further and to provide a first and incomplete map in the search for the new liberalism From the introduction by Howard Aster *Constitutional Democracy Under Stress* Peter L. Biro, Peter L. Biro, 2022-12-31

Constitutional democracy is not just any old form of democracy It has a peculiar logic and is premised upon some exacting criteria and principles including good laws and institutions predicated on specific fundamental core values and principles But it is when fully ingrained in the public sensibility a sort of civic serum necessary to inoculate free citizens against the ravages of anti democratic populism authoritarianism racism nativism discrimination xenophobia corruption self dealing and much worse The need for civic inoculation of that sort is urgent today globally The essays in this volume probe the sources and malaise now confronting Constitutional Democracy However they go much further Many of the essays are indeed road maps for a realistic and cultivated response to our present condition The clues for a rehabilitated democracy are found here analytically but also prescriptively **Applied Political Theory and Canadian Politics** David McGrane, Neil

Hibbert, 2019-03-14 Bringing together political theorists and specialists in Canadian politics Applied Political Theory and Canadian Politics combines conceptual frameworks from political theory and empirical evidence to offer fresh perspectives on political events in contemporary Canada Examining complex and timely subjects such as equality social justice democracy citizenship and ethnic diversity contributors present current and archival research supplemented with insights drawn from political theory to give readers a deep and nuanced understanding of increasingly pressing issues in Canadian society For scholars and students seeking a work of political theory that is tangible focused and connected to the real world of everyday politics Applied Political Theory and Canadian Politics will be an important resource combining philosophical insights and empirical evidence to enhance our understanding of contemporary Canadian politics **Professionalism and Public**

When Politics Comes Before Patients Shawn Whatley, MD, 2020-11-18 How Successive Governments Have Weakened the Foundation of All Canadian s Social and Economic Security At some point you will find yourself lying in a hospital bed There is a good chance that your bed will be a firm rubber pad held secure between two rails and parked along a corridor in a busy emergency department Moans of Nurse will echo from the beds ahead of you in line Those pleas will fall largely on deaf ears Your hospital is underfunded and understaffed Welcome to the current reality of Medicare in the 21st century Using searing analogies and first hand accounts Dr Whatley makes the argument that the current Medicare system is unsustainable and unless critical choices and changes are made soon the publicly funded single payer system in Canada will implode Successive governments regardless of political stripe know all too well that Canada s system of health care is one of the defining characteristics of being a Canadian and any changes deemed harmful will have them thrown out of power Thus decades of cuts around the margins centralized control federal provincial infighting and government oversight has left doctors and hospitals with little input on how your health dollars are allocated and spent Citizens are being left to languish in pain for months sometimes years because the current cost and delivery system is programmed for the benefit of governments staying in power That was not what was intended Medicare should be about delivering high quality and timely healthcare value for Canadians This is not an easy fix Treatment starts with a serious look at the disease and Dr Whatley pulls no punches But what sounds like a radical new approach is neither new nor radical He is not arguing for the end of Medicare per se but is making the case to let medical professionals those providing the services become equal partners in its design implementation and delivery

Publicity and the Canadian State Kirsten Kozolanka, 2014-02-24 Publicity pervades our political and public culture but little has been written that critically examines the basis of the modern Canadian publicity state This collection is the first to focus on the central themes in the state s relationship with publicity practices and the permanent campaign the constant search by politicians and their strategists for popular consent Central to this political popularity contest are publicity tools borrowed from private enterprise turning political parties into sound bites and party members into consumers Publicity and the Canadian State is the first sustained

study of the contemporary practices of political communication focusing holistically on the tools of the publicity state and their ideological underpinnings advertising public opinion research marketing branding image consulting and media and information management as well as related topics such as election law and finance privacy think tank lobbying and non election communication campaigns Bringing together contemporary Canadian analysis by scholars in a number of fields this collection will be a welcome new resource for academics public relations and policy professionals and government communicators at all levels

South Korea's New Southern Policy Lam Peng Er, 2023-04-17 This book examines the first regional strategy of South Korea toward Southeast Asia and India. At issue is how a middle power, a G20 country with the tenth largest economy in the world, seeks to play a larger and more comprehensive role in regions beyond the Korean peninsula. Hitherto, South Korean foreign policy has focused on nuclearizing North Korea, alliance maintenance with the United States, tricky relations with its most important economic partner, China, and difficult ties with Japan, marred by historical and territorial disputes. The Moon Administration has sought to diversify South Korean foreign policy by elevating ASEAN and India to the same strategic level as the United States, China, Russia, and Japan. To be sure, the latter countries continue to be most significant to the Korean peninsula. However, this book offers different country and regional perspectives on Seoul's first regional grand strategy to play a role commensurate with its status as a middle power.

Seeking Sustainability G. J. Paton, 2010-11-23 This book is born of the need for a critique of current approaches to environmental policy and governance and the search for alternative sustainability frameworks.

Struggling for Social Citizenship Michael J. Prince, 2016-05-01 The Canada Pension Plan disability benefit is a monthly payment available to disabled citizens who have contributed to the CPP and are unable to work regularly at any job. Covering the program's origins, early implementation, liberalization of benefits, and more recent restraint and reorientation of this program, *Struggling for Social Citizenship* is the first detailed examination of the single largest public contributory disability plan in the country. Focusing on broad policy trends and program developments and highlighting the role of cabinet ministers, members of Parliament, public servants, policy advisors, and other political actors, Michael Prince examines the pension reform agendas and records of the Pearson, Trudeau, Mulroney, Chrétien, Martin, and Harper prime ministerial eras. Shedding light on the immediate world of applicants and clients of the CPP disability benefit, this study reviews academic literature and government documents, features interviews with officials, and provides an analysis of administrative data regarding trends in expenditures, caseloads, decisions, and appeals related to CPP disability benefits. *Struggling for Social Citizenship* looks into the ways in which disability has been defined in programs and distinguished from ability in given periods, how these distinctions have operated, been administered, contested, and regulated, as well as how, through income programs, disability is a social construct and administrative category. Weaving together literature on social policy, political science, and disability studies, *Struggling for Social Citizenship* produces an innovative evaluation of Canadian citizenship and social rights.
