Giant red shrimp and blue and red shrimp in the central-eastern Mediterranean
Food and Agriculture Organization of the United Nations, 2025-04-07 Giant red shrimp *Aristaeomorpha foliacea* and blue and red shrimp *Aristeus antennatus* are two of the most valuable fishery resources in the Mediterranean and comprise most of the landed value from deep water capture fisheries in the central Mediterranean To support the sustainability of these fisheries the GFCM adopted three multiannual management plans in 2022 for giant red shrimp and blue and red shrimp This publication aims to inform the development of effective long term adaptive management measures within these existing management plans by presenting the results of a collaborative effort to compile comprehensive data information and research concerning the biology ecology and fishery of these species in the central eastern Mediterranean The analyses and data contained within this study highlight the significant progress that has been made towards improving the understanding of giant red shrimp and blue and red shrimp while emphasizing the additional work needed to address gaps in order to strengthen the management of deep water red shrimp fisheries

The Precautionary Principle in the 20th Century
Paul Harremoes, David Gee, Malcom MacGarvin, Andy Stirling, Jane Keys, Brian Wynne, Sofia Guedes Vaz, 2013-10-11 The precautionary principle is widely seen as fundamental to successful policies for sustainability It has been cited in international courts and trade disputes between the USA and the EU and invoked in a growing range of political debates Understanding what it can and cannot achieve is therefore crucial This volume looks back over the last century to examine the role the principle played or could have played in a range of major and avoidable public disasters From detailed investigation of how each disaster unfolded what the impacts were and what measures were adopted the authors draw lessons and establish criteria that could help to minimise the health and environmental risks of future technological economic and policy innovations This is an informative resource for all those from lawyers and policy makers to researchers and students needing to understand or apply the principle
