**The Female Secession** Megan Brandow-Faller, 2020-06-22 Decorative handcrafts are commonly associated with traditional femininity and unthreatening docility. However, the artists connected with interwar Vienna's female Secession created craft-based artworks that may be understood as sites of feminist resistance. In this book, historian Megan Brandow-Faller tells the story of how these artists disrupted long-established boundaries by working to dislodge fixed oppositions between art and craft, decorative and profound, and masculine and feminine in art. Tracing the history of the women's art movement in Secessionist Vienna from its origins in 1897 at the Women's Academy to the Association of Austrian Women Artists and its radical offshoot, the Wiener Frauenkunst, Brandow-Faller tells the compelling story of a movement that reclaimed the stereotypes attached to the idea of Frauenkunst or women's art. She shows how generational struggles and diverging artistic philosophies of art, craft, and design drove the conservative and radical wings of Austria's women's art movement apart and explores the ways female artists and craftswomen reinterpreted and extended the Klimt Group's ideas in the interwar years. Brandow-Faller draws a direct connection to the themes that impelled the better-known explosion of feminist art in 1970s America. In this provocative story of a Viennese modernism that never disavowed its ornamental decorative roots, she gives careful attention to key primary sources, including photographs and reviews of early twentieth-century exhibitions and archival records of school curricula and personnel. Engagingly written and featuring more than eighty representative illustrations, *The Female Secession* recaptures the radical potential of what Fanny Harlfinger Zakucka referred to as works from women's hands. It will appeal to art historians working in the decorative arts and modernism, as well as historians of Secession-era Vienna and gender history.

*Child Creativity and the Visual Arts: From Secessionist Vienna to Postwar America* Megan Brandow-Faller, 2025-07-24 Tracing the dissemination of Secessionist ideas of child creativity from their origination in early 20th-century Vienna through to their eventual commodification in postwar America, this book highlights the central role that visual art has played in child education and in nurturing creativity in elementary and preschool curricula. Taking the reader through the ideas of three artistic visionaries and their students, Franz Cižek and Austrian-American migrant Emmy Zweybrück and Viktor Lowenfeld, this book reveals how these ideas developed in postwar America through a focus on child-centered methods of learning by doing in artistic practice. By centring the visual arts as a vital educational medium, we see how these teachings have been popularized as a means of nurturing creativity in childhood. Across three chapter-length case studies interspersed with three mini-chapters on the reception of each artist-educator's radical teachings in the American education system, *Child Creativity and the Visual Arts* provides new interpretations into the

impact of these three luminaries differing philosophies on a broader program of socio political activism in the USA Drawing on previously untapped archival and primary source materials it blends deep material culture analysis with narrative elements to present a compelling account of the unrecognized influence of migr art pedagogy on progressive international art education In doing so it provides fresh transregional and thematic perspectives on early 1900s Vienna as a hotbed of creative and cultural experimentation and mecca of progressive art education

posters magazine art direction and typography often addressing issues of class race and gender David Raizman's innovative approach intentionally challenges the canon of graphic design history and various traditional understandings of graphic design He re-examines icons of graphic design in light of their local contexts avoiding generalisation to explore underlying attitudes about various social issues He encourages new ways of reading graphic design that take into account a broader context for graphic design activity rather than broad views that discourage the understanding of difference and the means by which graphic design communicates cultural values With a foreword by Steven Heller Art Nouveau Jeremy Howard, 1996 This critical survey of the Art Nouveau movement reveals the diversity of this style across the breadth of the European continent With the inclusion of Eastern Europe and the full range of artistic media the book shows how this movement changed the face of European art and design from Paris to Prague Clearly structured by country it traces the emergence of Art Nouveau highlighting the particular interpretations of the style in each country Countries covered include Belgium Spain Britain Austria Hungary and Russia Each chapter contains sections on political and cultural contexts specific visual characteristics and key artists and designers It analyzes the contribution of both well-known artists and designers such as Gaudi Van de Velde Mackintosh and Mucha and brings to light many others whose contributions have been largely inaccessible With a bibliography and glossary this text should provide a useful introduction to this subject

**Complex Art Conservation and Preservation Problems** Paul-Bernhard Eipper, 2023-09-13 In this book for the first time an examination of Egon Schiele's general painting technique is carried out The main case study for this comprehensive investigation is the painting *Stadtende Huserbogen III* 1918 one of Egon Schiele's last works which is housed at Universalmuseum Joanneum Graz Austria In this book the conservation campaign is detailed uncovering portrait sketches integrated and painted over in the painting unmasking the signature as a forgery and recognising the frame as the original decorative frame The research in the years following the conservation is detailed discussing that among other pigments cadmium sulphide was confirmed in the paint material which will influence subsequent conservation measures for the painting The book's examination continues with the complex interactions between environment and object that were also addressed in recently completed EU projects concluding that continuously gained knowledge about external influences and storage materials used will help to adapt further measures to the painting as it continues to degrade
