

Modernity

- ▶ Modernity is a broad term encompassing several concepts, but in particular it refers to a historical period that saw the evolution of **capitalism and industrialization**.
- ▶ The time period that is known for rational and secular thinking is the one that is characterized as modernity. Though modernity is close in meaning to modernism and all things modern, but it is talked mainly in terms of a specific time period that is said to have started in the 15th century and continues till date.
- ▶ Modernity has nothing to do with philosophy, and it restricts itself to social relations, mainly between the capitalists and the working class.
- ▶ The rise and fall of **communism, Marxism**, and all other related intellectual movements are embraced by the concept of modernity. For the purpose of analysis and deep study, the period called modernity is divided into three distinct phases referred to as early modernity (from 1453 to 1789), classical modernity (from 1789 to 1900), and finally late modernity that is said to have started in 1900 and lasted till 1989.
