*Studies on Medieval and Early Modern Women* Christine Meek, Catherine Lawless, 2003 The passive and active of pawns or players is in many ways the kernel of the ongoing debate within the analysis of the role of women in the past The essays by both established and younger scholars and covering a wide time span and geographical area range from examinations of the laws which restrained or enabled women to discussions of women who resisted the authorities from studies of women who stepped outside their prescribed role and behaved in a manner that might be described as manly to analyses of the constructions of gender and womanhood that influenced such prescriptions *The Power of a Woman's Voice in Medieval and Early Modern Literatures* Albrecht Classen, 2012-02-13 The study takes the received view among scholars that women in the Middle Ages were faced with sustained misogyny and that their voices were seldom heard in public and subjects it to a critical analysis The ten chapters deal with various aspects of the question and the voices of a variety of authors both female and male are heard The study opens with an enquiry into violence against women including in texts by male writers Hartmann von Aue Gottfried von Straßburg Wolfram von Eschenbach which indeed describe instances of violence but adopt an extremely critical stance towards them It then proceeds to show how women were able to develop an independent identity in various genres and could present themselves as authorities in the public eye Mystic texts by Hildegard of Bingen Marie de France and Margery Kempe the medieval conduct poem known as *Die Winsbeckin* the *Devout Books of Sisters* composed in convents in South West Germany but also quasi historical documents such as the memoirs of Helene Kottaner or Anna Weckerin's cookery book demonstrate that far more women were in the public gaze than had hitherto been assumed and that they possessed the self confidence to establish their positions with their intellectual and their literary achievements **The Oxford Handbook of Women and Gender in Medieval Europe** Judith M. Bennett, Ruth Mazo Karras, 2013-08-22 The Oxford Handbook of Women and Gender in Medieval Europe provides a comprehensive overview of the gender rules encountered in Europe in the period between approximately 500 and 1500 C E The essays collected in this volume speak to interpretative challenges common to all fields of women's and gender history that is how best to uncover the experiences of ordinary people from archives formed mainly by and about elite males and how to combine social histories of lived experiences with cultural histories of gendered discourses and identities The collection focuses on Western Europe in the Middle Ages but offers some consideration of medieval Islam and Byzantium The Handbook is structured into seven sections Christian Jewish and Muslim thought law in theory and practice domestic life and material culture labour land and economy bodies and sexualities gender and holiness and the interplay of continuity and change throughout the medieval period It contains material from some of the foremost scholars in this field and it not only serves as the major reference text in medieval and gender studies but also provides an agenda for future new research *Women and Gender in Medieval Europe* Margaret Schaus, 2006 Publisher description [A Companion to Tudor Britain](#) Robert Tittler, Norman L.

The Oxford History of British and Irish Catholicism, Volume I James Edward Kelly, John McCafferty, 2023 The first volume of The Oxford History of British Irish Catholicism explores the period 1530 1640 from Henry VIII s break with Rome to the outbreak of the civil wars in Britain and Ireland It analyses the efforts to create Catholic communities after the officially implemented change in religion as well as the start of initiatives that would set the course of British and Irish Catholicism including the beginning of the missionary enterprise and the formation of a network of exile religious institutions such as colleges and convents This work explores every aspect of life for Catholics in both islands as they came to grips with the constant changes in religious policies that characterised this 110 year period Accordingly there are chapters on music on literature in the vernaculars on violence and martyrdom and on the specifics of the female experience Anxiety and the challenges of living in religiously mixed societies gave rise to new forms of creativity in religious life which made the Catholic experience much more than either plain continuity or endless endurance Antipopery or the extent to which Catholics became a symbolic antitype for Protestants became in many respects a kind of philosophy about which political life in England Scotland and colonised Ireland began to revolve At the same time the legal frameworks across both Britain and Ireland which sought to restrict fine or exclude Catholics from public life are given close attention throughout as they were the daily exigencies which shaped identity just as much as devotions liturgy and directives emanating from the Catholic Reformation then ongoing in continental Europe

Lehner, 2017-11-21 Women Enlightenment and Catholicism explores for the first time the uncharted territory of women s religious Enlightenment Each chapter offers a biographical insight into the social and cultural context of female Enlighteners and how Catholic women in Europe used the thought and values of Enlightenment to articulate their beliefs about how to live their faith in the world The collection of portraits within this book offers a closer look into the new understanding of womanhood that emerged from Enlightenment culture and was conceived independently from marital relationships They also highlight the distinctive contributions that women made to political and religious philosophy spirituality and mysticism and the efforts to bring scientific knowledge to the attention of other women Guiding readers through the complex religious intellectual and global connections influenced by the Enlightenment Women Enlightenment and Catholicism brings the achievements of Enlightenment women to the foreground and restores them to their rightful

issue of Walsingham's cultural impact the literary historical art historical and sociological significance that Walsingham has had for over six hundred years The collection's essays consider connections between landscape and the sacred the body and sexuality and Walsingham's place in literature music and more broadly especially since the Reformation in the construction of cultural memory The historical range of the essays includes Walsingham's rise to prominence in the later Middle Ages its destruction during the English Reformation and the presence of uncanny echoes and traces in early modern English culture including poems ballads music and some of the plays of Shakespeare Contributions also examine the cultural dynamics of the remarkable revival of Walsingham as a place of pilgrimage and as a cultural icon in the Victorian and modern periods Hitherto scholarship on Walsingham has been almost entirely confined to the history of religion In contrast contributors to this volume include internationally known scholars from literature cultural studies history sociology anthropology and musicology as well as theology

Women, dowries and agency Dana Wessell Lightfoot, 2016-05-16 This book examines labouring status women in late medieval Valencia as they negotiated the fundamentally defining experience of their lives marriage Through the use of notarial records and civil court cases it argues that the socio economic and immigrant status of these women greatly enhanced their ability to exercise agency not only in choosing a spouse and gathering dotal assets but also in controlling this property after they wed Although the prevailing legal code in Valencia appeared to give wives little authority over these assets court records demonstrate that they were still able to negotiate a measure of control In these actions labouring status wives exercised agency by protecting their marital goods from harm using legal statutes to their own advantage In looking at the experiences of labouring status women this monograph shifts the debate regarding women's access to and control of property in the medieval period Exploring a group previously unexamined by scholars it argues that our understanding of women's marital strategies changes challenging the central role of blood and marital kin in these negotiations

*Rulers and Rulership in the Arc of Medieval Europe, 1000-1200* Christian Raffensperger, 2023-08-24 *Rulers and Rulership in the Arc of Medieval Europe* challenges the dominant paradigm of what rulership is and who rulers are by decentering the narrative and providing a broad swath of examples from throughout medieval Europe Within that territory the prevalent idea of monarchy and kingship is overturned in favor of a broad definition of rulership This book will demonstrate to the reader that the way in which medieval Europe has been constructed in both the popular and scholarly imaginations is incorrect Instead of a king we have multiple rulers male and female ruling concurrently Instead of an independent church or a church striving for supremacy under the Gregorian Reform we have a pope and ecclesiastical leaders making deals with secular rulers and an in depth interconnection between the two Finally instead of a strong centralizing polity growing into statehood we see weak rulers working hand in glove with weak subordinates to make the polity as a whole function Medievalists Byzantinists and Slavists typically operate in isolation from one another They do not read each other's books or engage with each other's work This book requires engagement from all of them to point out that

the medieval Europe that they work in is one and the same and demands collaboration to best understand it      **Queenship and Voice in Medieval Northern Europe** W. Layher, 2010-09-27 This book examines female lordship and the power of the political voice in medieval Northern Europe focusing on three prominent foreign born queens of medieval Scandinavia Agnes of Denmark d 1304 Eufemia of Norway d 1312 and Margareta of Denmark Sweden d 1412 who acted as cultural mediators and initiators of political change      **Daughters of London** Kate Kelsey Staples, 2011-03-18 From an examination of medieval London's Husting wills *Daughters of London* offers a new framework for considering urban women's experiences as daughters The wills reveal daughters equipped with economic opportunities through bequests of real estate and movable property      *Out of Love for My Kin* Amy Livingstone, 2011-02-23 In *Out of Love for My Kin* Amy Livingstone examines the personal dimensions of the lives of aristocrats in the Loire region of France during the eleventh and twelfth centuries She argues for a new conceptualization of aristocratic family life based on an ethos of inclusion Inclusivity is evident in the care that medieval aristocrats showed toward their families by putting in place strategies practices and behaviors aimed at providing for a wide range of relatives Indeed this care and in some cases outright affection for family members is recorded in the documents themselves as many a nobleman and woman made pious benefactions out of love for my kin In a book made rich by evidence from charters which provide details about life events including birth death marriage and legal disputes over property Livingstone reveals an aristocratic family dynamic that is quite different from the fictional or prescriptive views offered by literary depictions or ecclesiastical sources or from later historiography For example she finds that there was no single monolithic mode of inheritance that privileged the few and that these families employed a variety of inheritance practices Similarly aristocratic women long imagined to have been excluded from power exerted a strong influence on family life as Livingstone makes clear in her gender conscious analysis of dowries the age of men and women at marriage lordship responsibilities of women and contestations over property The web of relations that bound aristocratic families in this period of French history she finds was a model of family based on affection inclusion and support not domination and exclusion
