Freedman, 2006-12-08 One of a small group of feminist pioneers in the historical profession Estelle B Freedman teaches and writes about women's history with a passion informed by her feminist values Over the past thirty years she has produced a body of work in which scholarship and politics have never been mutually exclusive This collection brings together eleven essays eight previously published and three new that document the evolving relationship between academic feminism and political feminism as Freedman has studied and lived it Following an introduction that presents a map of the personal and

intellectual trajectory of Freedman's work the first section of essays on the origins and strategies of women's activism in U S history reiterates the importance of valuing women in a society that has long devalued their contributions The second section on the maintenance of sexual boundaries explores the malleability of both sexual identities and sexual politics Underlying the collection is an inquiry into the changing meanings of gender sexuality and politics during the nineteenth and twentieth centuries along with a concern for applying the insights of women's history broadly from the classroom to the courthouse

The Handbook of the Political Economy of Financial Crises Martin H. Wolfson, Gerald A. Epstein, 2013-01-07 The Great Financial Crisis that began in 2007 reminds us with devastating force that financial instability and crises are endemic to capitalist economies and that it is only strong and dynamically changing financial regulations that can keep the damage caused by these crises within bounds The international financial system and individual national economies including that of the United States are suffering from the aftermath of the worst financial crisis since the Great Depression Economists are struggling to understand the origins and implications of the crisis The Handbook of the Political Economy of Financial Crises uses a political economy theoretical framework to analyze the crisis After an opening chapter that describes the dimensions of the current crisis the next section provides relevant theoretical frameworks Subsequent sections apply these theoretical frameworks to analyze the background dimensions and implications of the crisis for the world economy Leading scholars push forward our understanding of how and why our international and domestic economies are susceptible to financial breakdown and what can be done to mitigate this problem in the future The methodology throughout applies theoretical concepts in the context of an historical and institutional understanding of the real world By emphasizing the historical and institutional aspects of financial crises the authors advance economic knowledge and provide insights into how we can manage our financial system to improve the lives of ordinary people Designer Politics Margaret Scammell, 2016-07-27

This is the first book to offer a serious examination of the phenomenon of political marketing in Britain It presents an analysis of the increasingly influential role of the image makers and casts a critical eye over the debate concerning the impact of marketing on political conduct and governance Its primary focus is party and government communications in the Thatcher era and beyond up to and including the 1992 general election It argues that Thatcher despite her image as the resolute politician pioneered marketing techniques and concepts which have since become standard practice Designer Politics looks at the historical engines of growth of commercial salesmanship in politics It explores how political culture and conduct have been affected by the phenomenon and to what extent politics and policy have been remoulded to fit the marketing process The author challenges the prevailing pessimism that Britain is hurtling towards American presidential style campaigns and that marketing necessarily demeans and undermines democracy While there are inherent dangers there also comes new potential for a more genuinely popular democracy *Global Variations in the Political and Social Economy of Care* Shahra Razavi, Silke Staab, 2012 1 Introduction global variations in the political and social economy of care worlds apart Shahra
