Payroll To Meet:

A Payroll to Meet David Whitford, 1989 Examines the largest case of corruption in the history of collegiate athletics the thirty year practice of illegal payoffs to football players at Southern Methodist University in Texas **Infractions** Jerry Parkinson, 2019-09-01 Jerry Parkinson spent nearly ten years from 2000 to 2010 as a member of the NCAA's Division I Committee on Infractions participating in over one hundred major infractions cases He came away from that experience and the experience of reading extensive commentary on infractions cases with the conviction that most observers do not understand the NCAA's rules enforcement process despite the amount of public attention many major cases receive Parkinson uses his insider's perspective along with illustrative stories to help readers understand how the NCAA's rules enforcement process really works These stories include a university board of trustees chair committing suicide over an infractions case a pay for play scandal leading directly to the state's governor a head coach falsely portraying a deceased player as a drug dealer to cover up the coach's own misconduct a gambler laundering his money by making the largest booster payments in NCAA history and a coach's sexual abuse of children leading to some of the harshest sanctions ever imposed by the NCAA Based on years of experience and infused with insight Parkinson provides a broad view of the world of NCAA rule breakers and the NCAA rules enforcement process *College Football* John Sayle Watterson, 2020-10-13 The rules of the game have changed in the past hundred years but human nature has not In March 1892 Stanford and California had played the first college football game on the Pacific Coast in San Francisco The pregame activities included a noisy parade down streets bedecked with school colors Tickets sold so fast that the Stanford student manager future president Herbert Hoover and his California counterpart could not keep count of the gold and silver coins When they finally totaled up the proceeds they found that the revenues amounted to 30 000 a fair haul for a game that had to be temporarily postponed because no one had thought to bring a ball from College Football History Spectacle Controversy Chapter Three In this comprehensive history of America's popular pastime John Sayle Watterson shows how college football in more than one hundred years has evolved from a simple game played by college students into a lucrative semiprofessional enterprise With a historian's grasp of the context and a novelist's eye for the telling detail Watterson presents a compelling portrait rich in anecdotes colorful personalities and troubling patterns He tells how the infamous Yale Princeton fiasco of 1881 in which Yale forced a 0 0 tie in a championship game by retaining possession of the ball for the entire game eventually led to the first down rule that would begin to transform Americanized rugby into American football He describes the kicks and punches gouged eyes broken collarbones and flagrant rule violations that nearly led to the sport's demise including such excesses as a Yale player who wore a uniform soaked in blood from a slaughterhouse And he explains the reforms of 1910 which gave official approval to a radical new tactic traditionalists were sure would doom the game as they knew it the forward pass As college football grew in the booming economy of the 1920s Watterson explains the flow of cash added fuel to an already

explosive mix Coaches like Knute Rockne became celebrities in their own right with highly paid speaking engagements and product endorsements At the same time the emergence of the first professional teams led to inevitable scandals involving recruitment and subsidies for student athletes Revelations of illicit aid to athletes in the 1930s led to failed attempts at reform by the fledgling NCAA in the postwar Sanity Code intended to control abuses by permitting limited subsidies to college players but which actually paved the way for the free ride many players receive today Watterson also explains how the growth of TV revenue led to college football programs unprecedented prosperity just as the rise of professional football seemed to relegate college teams to minor league status He explores issues of gender and race from the shocked reactions of spectators to the first female cheerleaders in the 1930s to their successful exploitation by Boone Arledge three decades later He describes the role of African American players from the days when Southern schools demanded all white teams and Northern schools meekly complied through the black armbands and protests of the 60s to one of the game's few successful if limited reforms as black athletes dominate the playing field while often being shortchanged in the classroom Today Watterson observes colleges insatiable hunger for revenues has led to an abuse filled game nearly indistinguishable from the professional model of the NFL After examining the standard solutions for reform he offers proposals of his own including greater involvement by faculty trustees and college presidents Ultimately however Watterson concludes that the history of college football is one in which the rules of the game have changed but those of human nature have not
