Rubinstein, 2009 Even though international peacebuilding has rapidly expanded in the last two decades to respond to more multi faceted and complex conflicts the field has lagged behind in documenting the impact and success of projects To help address this gap the Alliance

for Peacebuilding one of the leading networks in the field has brought together 13 stories of innovative peacebuilding practices from around the world in *Building Peace* While the projects covered are diverse in nature together they demonstrate the significant impact of peacebuilding work Contributors created new institutions to prevent and manage conflicts at the local or national levels helped restore relationships in conflict affected communities and empowered citizens to work for positive change in their societies across ethnic religious and political divides It s clear that there is no quick fix for violence but this volume will go a long way in providing inspiration and practical tools for policymakers academics and practitioners who seek to make significant and valuable contributions towards achieving peace Peacebuilding Donald W. DeMott,Dianne K. Demott,1987 *A Handbook of International Peace Building* John P. Lederach,2003-01-01 *Peace* Oliver P. Richmond,2023-01-24 Very Short Introductions Brilliant Sharp Inspiring The concept of peace has always attracted radical thought action and practices It has been taken to mean merely an absence of overt violence or war but in the contemporary era it is often used interchangeably with peacemaking peacebuilding conflict resolution and statebuilding The modern concept of peace has therefore broadened from the mere absence of violence to something much more complicated In this Very Short Introduction Oliver Richmond explores the evolution of peace in practice and in theory exploring our modern assumptions about peace and the various different interpretations of its applications This second edition has been theoretically and empirically updated and introduces a new framework to understand the overall evolution of the international peace architecture ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *Approaches to Peacebuilding* H. Jeong,2002-08-11 Ho Won Jeong and a cast of experts explore the ways in which the dynamics of post conflict situations can be transformed to sustainable peace Contributors focus on designs and models of peacebuilding functions of peacekeeping capacity building through negotiations reconciliation the role of gender in social reconstruction and policy coordination among different components of peacebuilding The analysis illustrates past and current experiences of peacebuilding and suggests conceptual and policy approaches that can overcome the weaknesses of existing strategies **Contemporary Peacemaking** Roger Mac Ginty,Anthony Wanis-St. John,2022-02-17 This fully updated third edition of *Contemporary Peacemaking* is a state of the art overview of peacemaking in relation to contemporary civil wars It examines best and worst practice in relation to peace processes and peace accords The contributing authors are a mix of leading academics and practitioners with expert knowledge of a wide arrays of cases and techniques The book provides a mix of theory and concept building along with insights into ongoing cases of peace processes and post accord peacebuilding The chapters make clear that peacemaking is a dynamic field with new practices in peacemaking techniques changes to the international peace support architecture and

greater awareness of key issues such as gender and development after peace accords The book is mindful of the intersection between top down and bottom up approaches to peace and how formal and institutionalized peace accords need to be lived and enacted by communities on the ground

**International Peacebuilding** Alpaslan Ozerdem, SungYong Lee, 2015-12-14 International Peacebuilding offers a concise practical and accessible introduction to the growing field of peacebuilding for students and practitioners This new textbook comprises three parts each dealing with a key aspect of peacebuilding Part I defines the core concepts and theoretical discussions that provide the philosophical grounds for contemporary peacebuilding activities Part II divides the procedures of peacebuilding into three phases and examines some of the important features of each phase Part III examines the key areas of the practice of peacebuilding The volume approaches peacebuilding from the viewpoints of individual actors or institutions introducing a range of theoretical discussions with which students can critically examine contemporary peacebuilding practice as well as presenting detailed case studies for key issues highlighted in the text In doing so the book aims to provide more concrete ideas on how peacebuilding programmes are planned and implemented in the field and which major issues should be addressed by peacebuilding practitioners This book will be essential reading for all students of peacebuilding conflict transformation and post conflict reconstruction and recommended reading for students of international organisations international security and IR in general

**Peacebuilding Paradigms** Henry F. Carey, 2020-12-17 Peacebuilding Paradigms focuses on how seven paradigms from the Comparative Politics International Relations and Policy Analysis subfields Realism Liberalism Constructivism Cosmopolitanism Critical Theories Locality and Policy analyze peacebuilding The contributors explore the arguments of each paradigm and then compare and contrast them This book suggests that a hybrid approach that incorporates useful insights from each of these paradigms best explains how and why peacebuilding projects and policies succeed in some cases fail in others and provide lessons learned Rather than merely using a theoretical approach the authors use case studies to demonstrate why a focus on just one paradigm alone as an explanatory model is insufficient This collection directly at how peacebuilding theory affects peacebuilding policies and provides recommendations for best practices for future peacebuilding missions

Connaughton, Jessica Berns, 2019-09-09 The authors of this edited volume present a case for why locally led peacebuilding matters and how it can have measurable and meaningful impact even beyond preventing political violence This book contributes a set of local voices to a global problem how to prevent armed conflict and lead to lasting peace The authors argue that locally led peacebuilding by community based organizations both formal and informal plays a crucial role in preventing violence and cultivating peace one that is complementary to peacebuilding work done by local state and national governments within countries and between nation states Through the case studies presented *Locally Led Peacebuilding* presents evidence for how and why locally led peacebuilding can prevent violence and invites practitioners and scholars to critically examine the implications of locally led initiatives From these examples we all have an opportunity to learn about creating implementing researching and funding locally led peacebuilding      Understanding Quality Peace Madhav Joshi, Peter Wallensteen, 2018-01-29 This book provides an analytical framework for understanding how the concept of quality peace can be used to evaluate post conflict peacebuilding using social science statistics and case studies Including contributions from more than 20 researchers and practitioners it argues that the quality of the peace in a post conflict state relates to the extent to which peace accords are implemented the agreed upon mechanism for the non violent resolution of the conflict and the available social space for civil and political actors To arrive at the concept of quality peace the authors evaluate the existing literature and identify a lack of a satisfactory means of measuring outcomes and consequently how these might be researched comparatively The volume problematizes the quality peace concept as a way to understand the origins of armed conflict as well as problems deriving from the conflict dynamics and the need for social political and economic changes in the post conflict periods The book emphasizes five dimensions as crucial for quality peace in a post accord society Negotiations and agreements not only aim at avoiding the return of war but also seek to 1 promote reconciliation 2 develop mechanisms for resolving future disputes 3 provide for reliable security 4 open economic opportunities for marginalized segments of the population and 5 generate space for civil society These five dimensions together provide for quality peace after war They are studied in the context of internal armed conflicts in which multiple parties have signed a peace agreement This book will be of great interest to students of peace and conflict studies civil wars global governance security studies and International Relations in general      *Peace and Conflict Studies* Charles Webel, Jørgen Johansen, 2012 *Peace and Conflict Studies A Reader* is a comprehensive and intensive introduction to the key works in this growing field Presenting a range of theories methodologies and approaches to understanding peace and to transforming conflict this edited volume contains both classic and cutting edge contemporary analyses The text is divided into six general sections PART I Peace Studies Peace Education and Peace PART II Peace Theories and Peace Movements PART III The Meanings and Nature of Conflict PART IV Conflict Analysis Transformation and Prevention PART V Nonviolent

**Peacebuilding** David Chandler, 2017-04-05 This book is the first to chart the rise and fall of peacebuilding Charting its beginnings as an ad hoc extension of peacekeeping responsibilities and formalisation as a UN supported international project of building liberal states Twenty years later the grounding policy assumptions of peacebuilding that democracy the rule of law and free markets were a universal solution to conflict prone states and societies have been revealed as na ve at best and at worst hubristic and Eurocentric Here Chandler traces the disillusionment with international peacebuilding and the discursive shifts in the self understanding of the peacebuilding project in policy and academic debate He charts the transformation from peacebuilding as an international project based on universalist assumptions to the understanding of peace as a necessarily indigenous process based on plural and non linear understandings of difference Is the end of peacebuilding necessarily a cause for celebration Does this shift result in a realist resignation to the world as it appears Is it necessary to marry idealism with realism as E H Carr once argued if we wish to keep open the possibilities for social change This book seeks to answer these questions making an invaluable reference both for students and practitioners of peacebuilding and for those interested in the broader shifts in the social and political grounding of policy making today
