If I Were God SRASHTI BEHURE,2021-06-30 Humans often under dire situations end up cursing and thrashing the belief in the Almighty A man is thankful of Him and His blessings if they work in his favour and aid him to grow and glow Yet there comes a time when nothing in life seems to be going his way and he feels that God just isn t there for him anymore not standing beside him deaf to all his prayers and blind to all his miseries Isn t that the moment when a man s strongest urge is to become a God himself and make every little affliction and sorrow vanish off the face of his life with just one flick of a finger If I Were God is a compendium of several such moments in the form of short stories poems and essays put into relatable words by our remarkable bunch of writers This collection has been anthologized with toil and dedication by compiler Srashti Behure and Divya Renwa Do read and enjoy the near deja vu instances scribbled in with adoration and kindness

Industrial Peace & Role of Trade Unions In India Dr Bhim Singh,2014-01-01 The economic development of a country is largely dependent upon the industrial growth and development It is in this context that industrial peace acquires significance Disturbed and non conducive industrial environment proportionately affects the industrial growth adversely And therefore

the relationship obtainable in any industry is a matter of great concern Industrial environment is the outcome of the interaction among the actors of industrial relations In this context trade union leaders become a very significant actor as the activities of their followers which build the industrial environment is the outcome of their actions Industrial peace has to be established by all means and that is the need of the hour This cannot be achieved without positive and constructive role of the trade union leaders Trade union leaders have been viewed by authors as agents of adversarialism and it has been pronounced that they cannot imagine themselves making common cause with capital or even recognise that they have shared interest Such impressions have been perceived by assessing the actions of their followers i e the workers It is also argued that the leaders are not at all sensitive about their social responsibilities The actions of workers or the followers of trade union leaders are directly proportional to the faith and confidence the followers have in their leaders It is therefore very apt to assess and gauge the impression carried by the followers about their leaders In the present scenario it is desirable that the leaders and their followers understand each other and their mutual relationship is harmonized to the maximum extent A leader must have the capability to get himself acquainted with the developments taking place and communicate and direct his followers accordingly The followers desire that their leader should rise from the level of fairly good to the level of exceptionally good This maiden attempt of the author Dr Bhim Singh automatically gains significance and importance as he has been able to correlate the followers perceptions about leadership qualities desired by the followers and its linkage with creation of industrial peace
