## **Peace Movement:**

**The British Peace Movement 1870-1914** Paul Laity, 2002-01-03 This is the first detailed scholarly study of the late Victorian and Edwardian peace movement the campaigns of which made a significant impact on political debate especially during the Franco Prussian War 1870 1 the Bulgarian Atrocities campaign 1876 8 Britain's conflict in Egypt 1882 the South African War 1899 1902 and the intensifying international crisis before 1914 The movement's activists included Richard Cobden Herbert Spencer Keir Hardie J A Hobson and Norman Angell Among the first to benefit from the opening of the Peace Society Archive the book focuses on the specialized associations at the heart of the peace movement Paul Laity identifies the existence of different programmes for the achievement of a just permanent peace and offers a new interpretation of the reaction of peace campaigners to war in 1914 At the same time his book makes an important and original contribution to the history of popular politics and political ideas in Britain *The Peace Movements in Europe and the United States* Werner Kaltefleiter, Robert L. Pfaltzgraff, 2019-07-09 In the early 1980s the peace movements in most of the Western countries captured public attention as never before This largely resulted from NATO's decision in 1979 to deploy new medium range missiles in Europe in 1983 if negotiations with the Soviet Union to limit this type of weapon system failed The main purpose of the peace movements in Europe was to put pressure on their respective governments to accept Soviet proposals in negotiations and not to deploy new missiles Many large demonstrations and other happenings were organised for this purpose The Soviet and other Warsaw Pact countries accompanied and supported the activities of the peace movements by propaganda and disinformation campaigns The national peace movements despite their common aims had different historic backgrounds and characteristics This book originally published in 1985 presents an authoritative review of the peace movements in Sweden Denmark Norway the Netherlands Great Britain France Italy Germany and the United States The authors discuss not only the history and organisation of each peace movement but also their international cooperation media coverage and prospects for the future **The Contemporary US Peace Movement** Laura Toussaint, 2008-11-04 As peace activists have faced increased government repression and accusations of being unpatriotic since 9 11 Toussaint examines how current attempts to control dissent impact the peace movement This study offers an analysis of self identified peace activists in terms of their demographic characteristics motivation for activism political opportunities and views of the peace movement It also discusses the processes involved in successfully mobilizing an increasingly diverse constituency and how broad based support can be sustained beyond reacting to crises [The Israeli Peace Movement](#) Tamar S. Hermann, 2009-09-14 This book discusses the predicament of the Israeli peace movement which paradoxically following the launching of the Oslo peace process between Israel and the Palestinians in 1993 experienced a prolonged fatal decline in membership activity political significance and media visibility After presenting the regional and national background to the launching of the peace process and a short history of Israeli peace activism the book focuses on

external and internal processes and interactions experienced by the peace movement after some basic postulates of its agenda were actually although never explicitly embraced by the Rabin government The book concludes that despite its organizational decline and the zero credit given to it by the policy makers in retrospect it appears that the movement contributed significantly to the integration of new ideas for possible solutions to the Middle East conflict in the Israeli mainstream political discourse

**Physicians and the Peace Movement** Nick Lewer, 2013-09-13 First Published in 1992 This book was written in recognition of the many physicians and other health workers who since the formation of the first peace societies in 1815 have dedicated their lives to make the world a more peaceful and just place to live The intention is to introduce the field to illustrate the main issues and avenues that have motivated individuals and groups to work directly for peace The conclusion draws these threads together and considers some ways in which the health professions may contribute to peace work in the future
