also in novels and other works of literature Writing against War examines the work of Aldous Huxley Storm Jameson Siegfried Sassoon Rose Macaulay and Virginia Woolf to analyze the effects of their attempts to employ fiction in the service of peace activism It further traces how Huxley Woolf and others sought to reconcile their antiwar beliefs with implacable military violence The British Peace Movement's failure to halt the rise of fascism and the Second World War continues to cast a shadow over contemporary pacifist movements Writing about War will fascinate scholars of peace studies and literature and offers valuable insights for current day peace activists and artists who seek to integrate creativity with activism **OCR**

Chamberlain and the Lost Peace John Charmley, 1999-05-27 An important new reappraisal of the immediate origins of World War II Entertaining and absorbing Chamberlain hardly emerges a hero from these pages but at least there is no excuse left for regarding him as no more than a wimp in a wing collar The Guardian **Handbook of British Literature and Culture of the First World War** Ralf Schneider, Jane Potter, 2021-09-20 The First World War has given rise to a multifaceted cultural production like no other historical event This handbook surveys British literature and film about the war from 1914 until today The continuing interest in World War I highlights the interdependence of war experience the imaginative re-creation of that experience in writing and individual as well as collective memory In the first part of the handbook the major genres of war writing and film are addressed including of course poetry and the novel but also the short story furthermore it is shown how our conception of the Great War is broadened when looked at from the perspective of gender studies and post colonial criticism The chapters in the second part present close readings of important contributions to the literary and filmic representation of World War I in Great Britain All in all the contributions demonstrate how the opposing forces of focusing and canon formation on the one hand and broadening and revision of the canon on the other have characterised British literature and culture of the First World War
