**A Path to World Peace** Dr. Omkar Prasad

Baidya,2025-03-12 This book focuses on the various approach and ways of achieving the world peace The author in this book explains about various human approaches and intervention that can establish peace throughout the world He also tries to integrate his moral philosophy of life in solving the various problems of human beings that effects world peace He also adds his view about how inner mental peace can affect the world peace and vice versa He has explained the role of good human virtues and spiritual enlightenment in establishment of world peace and in making this earth a better place to live Several good human virtues like nonviolence compassion forgiveness etc can play important role in establishment peace in this planet He has tried to elaborate that moral leadership can bring philanthropic changes in the world and can transform dictatorship into humanitarian democracy which will preserves peace in the world According to the author education plays an important role in shaping a peaceful world Lastly he emphasizes on development of a universal religion which inspite of focusing on the false belief should give importance to spiritual values which can guide us to the path of world peace *The gospel of peace. you will save the world* davide appi,2022-06-14 A BOOK DEDICATED TO HOPE Humanity is at a crossroads between self destruction and change Are you negative and pessimistic Do you feel uneasy about the future Are you unhappy because of your daily problems not to mention wars crises and pollution I will give you many reasons to become positive peaceful and able to achieve peace beyond imagination I will take you on a fantastic journey into your own mind to go beyond it In fact the ordinary mind thinks it can change things but it cannot That is why we never solve our own problems and those of the planet But how do we go beyond the mind to generate real change Meditation is the main tool to change ourselves and the world around us We can stop wars we can stop crime there is no limit to what we can do The Maharishi effect which has been scientifically studied many times shows that with the power of our intention and meditation we can actually do something in terrible situations such as armed conflicts violence and crime And if it works for the most extreme cases this means that even in less tragic situations such as our daily lives we have a much greater margin of intervention in events close to us than we are used to believing A limited number of street lamps are needed to illuminate the streets of an entire

city just as 1% of the population of a city of a nation or of the entire planet who are able to reach a state of deep meditation are enough to bring light and remove the darkness from consciousness A small group of awakened people are enough to irradiate and enlighten all other people who will unconsciously change their way of thinking and acting Does all this sound like science fiction too good to be true Whether you believe you can or believe you can't you are still right Since the Universe is subjective our way of believing the world our beliefs becomes our reality What we are and what we think spreads and reflects throughout the Universe Do you realise the implications of this With our thinking we not only influence ourselves but also the environment we live in our planet and even the entire Universe We are a miniature Universe but a hologram of the Whole and we embody the infinite possibilities of the Universe itself Translator Alessandra Cervetti PUBLISHER TEKTIME
