Dursun-Özkanca, 2021-05-27 This Security Sector Reform SSR Paper offers a universal and analytical perspective on the linkages between Security Sector Governance SSG SSR SSG R and Sustainable Development Goal 16 SDG 16 focusing on conflict and post conflict settings as well as transitional and consolidated democracies Against the background of development and security literatures traditionally maintaining separate and compartmentalized presence in both academic and policymaking circles it maintains that the contemporary security and development related challenges are inextricably linked requiring effective measures with an accurate understanding of the nature of these challenges In that sense SDG 16 is surely a good step in the right direction After comparing and contrasting SSG R and SDG 16 this SSR Paper argues that human security lies at the heart of the nexus between the 2030 Agenda of the United Nations UN and SSG R To do so it first provides a brief overview of the scholarly and policymaking literature on the development security nexus to set the background for the adoption of The Agenda 2030 Next it reviews the literature on SSG R and SDGs and how each concept evolved over time It then identifies the puzzle this study seeks to address by comparing and contrasting SSG R with SDG 16 After making a case that human security lies at the heart of the nexus between the UN's 2030 Agenda and SSG R this book analyses the strengths and weaknesses of human security as a bridge between SSG R and SDG 16 and makes policy

recommendations on how SSG R bolstered by human security may help achieve better results on the SDG 16 targets It specifically emphasizes the importance of transparency oversight and accountability on the one hand and participative approach and local ownership on the other It concludes by arguing that a simultaneous emphasis on security and development is sorely needed for addressing the issues under the purview of SDG 16

how the principles and practices of international criminal law and sustainable development can contribute to one another's elaboration, interpretation and implementation. Chapters in the book discuss the potential and limitations of international criminalization as a means for protecting the basic foundations of sustainable development, the role of existing international crimes in penalizing serious forms of economic, social, environmental and cultural harm, the indirect linkages that have developed between sustainable development and various mechanisms of criminal accountability and redress, and innovative proposals to broaden the scope of international criminal justice. With its rigorous and innovative arguments, this book forms a unique and urgent contribution to current debates on the future of global justice and sustainability. **Conflict, Security and Justice**

Eleanor Gordon, 2019-04-26. This path-breaking new textbook provides a broad overview of the core concepts, actors and activities involved in building security and justice after conflict, as well as challenges and lessons learned in this field. Drawing attention to the principles which guide or should guide this kind of work, as well as using practical examples throughout, the book covers a uniquely wide range of issues in peacebuilding, from transitional justice and disarmament to security sector reform and human rights. It concludes by considering both the regional and more far-reaching impacts of conflict, including such global phenomena as terrorism, piracy and organised crime. With a decade of experience working in post-conflict zones for the UN and other organisations, and a further 10 years in academia and as a consultant for various international organisations, the author's unparalleled expertise on the topic and her accessible writing style make this book the essential guide to postgraduate and upper-level undergraduate courses on peace and conflict studies. The text is also important supplemental reading for those studying war, peace, development, security or IR in a wider context, and for practitioners and policy makers in the field of peacebuilding. **Justice, Home Affairs and Security. European and international institutional and policy development**

G. Vermeulen, W. De Bondt, 2017-02-15. This book offers an insight into the historical, institutional and topical development of the EU policy in the areas of justice, home affairs and security, well embedded in a broader international context. The main part of the book dedicated to the EU is therefore preceded by a part on relevant cooperation on the Benelux and Schengen levels, and followed by a part on cooperation in the areas concerned on Council of Europe, NATO, OSCE, G8, OECD and UN levels. Without a proper understanding of those cooperation levels, the development and functioning of the EU would be hard to fully grasp. Before addressing the actual policy dimension, all parts start with a historical introduction and a sketch of institutional structures and functioning. For students and professionals in criminology, law and political science, and every one interested in European and international criminal policy making, this book will prove relevant or insightful. **Conflict, Peace, Security and Development**
