The Community of the Weak Hans-Peter Geiser, 2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways The Community of the Weak presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story

Peacebuilding in Crisis Tobias Debiel, Thomas Held, Ulrich Schneckener, 2016-01-29 The 1990s saw a constant increase in international peace missions predominantly led by the United Nations whose mandates were more and more extended to implement societal and political transformations in post conflict societies However in many cases these missions did not meet the high expectations and did not acquire a sufficient legitimacy on the local level Written by leading experts in the field this edited volume brings together liberal and post liberal approaches to peacebuilding Besides challenging dominant peacebuilding paradigms the book scrutinizes how far key concepts of post liberal peacebuilding offer sound categories and new perspectives to reframe peacebuilding research It thus moves beyond the liberal post liberal divide and systematically integrates further perspectives paving the way for a new era in peacebuilding research which is theory guided but also substantiated in the empirical analysis of peacebuilding practices This book will be essential reading for postgraduate students and scholar practitioners working in the field of peacebuilding

By embedding the subject area into different research perspectives the book will also be relevant for scholars who come from related backgrounds such as democracy promotion transitional justice statebuilding conflict and development research and international relations in general **Indian Education** ,1962 *Security and Conflict Transformation: An Internal Business* Roberto Santamarta-Perez,2014-02-01 Peace and humanitarian operations are affected by internal conflicts possibly in a higher level than other type of organizations due to its natural hazardous settings and the expected stress situations that its members sign for when joining Occasionally these conflicts escalate to unsuspecting grades and eventually disrupt the operations to unwanted degrees To transform intra organizational conflicts this book proposes a methodological set of recommendations at every level to be implemented by security departments in peace and humanitarian operations Its optimal execution would not only avoid the misuse of security by senior officials but fully integrate them into operations mandates achieve better intra organizational conflict transformation expertise and moreover reach ultimate operational goals in peacebuilding and humanitarian aid Additionally the methodology proposed could be conveniently extrapolated to different public and private sector organizational spheres where internal conflict plays a substantive role Practice Resurrection Eugene H. Peterson,2010 There is no question that bringing men and women to new birth in Christ is essential But argues Eugene Peterson isn t it obvious that growth in Christ is equally essential Yet the American church does not treat Christian growth and character formation with equivalent urgency We are generally uneasy with the quiet obscure conditions in which growth takes place Building maturity in Christ is too often relegated to footnote status in the text of our lives In Practice Resurrection Peterson brings the voice of Scripture especially Paul s letter to the Ephesians and the voice of the contemporary Christian congregation together in understanding what is involved in the practice of becoming mature growing up to the stature of Christ
