Please use the following information below to guide you as you reflect on your clinical day. When writing your reflection choose two of the end-of-program student learning outcomes that you identified during your observation. Please do not use patient identifiers in your reflection.

*Peaceful Journey* Matthew P. Binkewicz, 2005 *Peaceful Journey* examines the spiritual issues facing terminally ill patients and their families. Each chapter introduces the reader to a person with a spiritual issue that needs immediate attention. The book opens with the story of an 85 year old African American woman who wonders if God hears her prayers. Other chapters explore loneliness, isolation, the dignity and value of every human being, honesty and openness, patience and persistence, why pain and suffering exist, the actual death and the soul's journey, and the importance of dreams, visions, and other end of life phenomena. The author graduated from Christ the Savior Russian Orthodox Seminary with a B Th and from the Catholic University of America with a M A in theology. He began working with the terminally ill in 1991 as a theology student. After his ordination to the priesthood in 1994, he began to provide spiritual care for his parishioners as well as hospice patients. He is now the Pastoral Care Coordinator and Bereavement Coordinator at Hospice of the Finger Lakes in Auburn NY. *Palliative Care Nursing* Marianne Matzo, Marianne L. Matzo, Deborah Witt Sherman, 2018-06-28. This 5th edition is an important achievement; it is a symbol of commitment to the field of palliative nursing where we have been and where we are going. Betty Rolling Ferrell PhD MA FAAN FPCN CHPN. From the Foreword: The aging population has only grown since the first edition of this comprehensive and seminal publication nearly 20 years ago. Based on the need to humanize rather than medicalize the illness experience for patients, this text delves into palliative care beyond the specific diseases affecting the patient. Instead, content focuses on the whole person and family. Palliative patients struggle with chronic debilitating and painful conditions and grapple with the fact that life as they knew it has already passed away. Families and friends reciprocally suffer not knowing how to help and therefore become the secondary victims of the disease. This is not the challenge of a lone nurse or a single physician, therapist, or social worker. Rather, palliative and hospice care requires the expertise and unique roles of an interprofessional team to help the patient and family strengthen their resilience, continue to find meaning and purpose in life, and cure what can be cured. *Palliative Care Nursing Fifth Edition* delivers advanced empirical, aesthetic, ethical, and personal knowledge. This new edition brings an increased focus on outcomes, benchmarking progress and goals of care. It expounds upon the importance of the cross disciplinary collaboration introduced in the previous edition. Every chapter in Sections I, II, and III includes content written by a non-nursing member of the interprofessional team. Based on best evidence and clinical practice guidelines, this text presents comprehensive, targeted interventions responsive to the needs of palliative and hospice patients and family. Each chapter contains compassionate, timely, appropriate, and cost-effective care for diverse populations across the illness trajectory. Key Features: The expanded new edition offers current, comprehensive, one-stop source of highly relevant clinical information on palliative care. Life span approach, age appropriate nursing considerations, e.g., geriatric, pediatric, and family. Includes disease specific and symptom specific nursing management chapters. Promotes a holistic and interdisciplinary approach to palliative

care Offers important legal ethical and cultural considerations related to death and dying Case Studies with Case Study Conclusion in each clinical chapter New to The Fifth Edition An expanded chapter on Palliative Care incorporates most up to date scope and standards information on Basic and Advanced HPNA certification self reflection and self care for nurses A chapter on Interprofessional Collaboration Instructor Resources Power points and Test bank **Palliative Care Nursing, Fourth Edition** Marianne Matzo, Deborah Witt Sherman, 2014-06-18 Print CourseSmart **Palliative Care Nursing** Marianne LaPorte Matzo, Deborah Witt Sherman, 2006 cs nurse fund\_surg **Oxford Textbook of Palliative Social Work** Terry Altilio, Shirley Otis-Green, 2011-03-28 This text is the definitive resource for practicing palliative social work clinicians It is designed to meet the needs of professionals who seek to provide culturally sensitive biopsychosocial spiritual care for patients and families living with life threatening illness *Time to Talk about Dying* Fred Grewe, 2018-06-21 This guide provides clergy and chaplains with essential tools for supporting senior adults helping them to feel comfortable about death and dying before they begin to approach life s end Focusing on strengthening relationships with loved ones it applies unique therapeutic methods for promoting a positive experience of ageing **Research Navigator Guide for Social Gerontology** Nancy R.
