Peacekeeping Peacemaking Or War:

Peacemaking, Peacekeeping, and Coalition Warfare Fariborz Levaye Mokhtari,1994 **Peacemaking, Peacekeeping and Coalition Warfare** Fariborz L. Mokhtari,1994 **Making War and Building Peace** Michael W. Doyle,Nicholas Sambanis,2011-04-22 Making War and Building Peace examines how well United Nations peacekeeping missions work after civil war Statistically analyzing all civil wars since 1945 the book compares peace processes that had UN involvement to those that didn't Michael Doyle and Nicholas Sambanis argue that each mission must be designed to fit the conflict with the right authority and adequate resources UN missions can be effective by supporting new actors committed to the peace building governing institutions and monitoring and policing implementation of peace settlements But the UN is not good at intervening in ongoing wars If the conflict is controlled by spoilers or if the parties are not ready to make peace the UN cannot play an effective enforcement role It can however offer its technical expertise in multidimensional peacekeeping operations that follow enforcement missions undertaken by states or regional organizations such as NATO Finding that UN missions are most effective in the first few years after the end of war and that economic development is the best way to decrease the risk of new fighting in the long run the authors also argue that the UN's role in launching development projects after civil war should be expanded *Understanding War and Peace* Dan Reiter,2023-07-20 Undergraduate multi author textbook by leading conflict scholars focusing on the roots of global conflicts and the various means used to resolve them

A Systems-Based Approach to Policymaking Kenyon B. de Greene, 2012-12-06 This book is based on a number of systems concepts of which the following are emphasized here oThe interacting systems of society and the environment are dynamic and evolutionary oEvolution of these systems carries them through stages of differential stability and instability continuity and discontinuity oAssociated with evolution and instability is structural change that is essentially irreversible oThe present is a stage of world transformation that may not have been equaled for decades or even centuries oPolicies and decisions must match the times in the present case the stage of world transformation The time 11 59 59 PM approximately on December 31 2000 has an important symbolic meaning It marks the end of a minute the end of an hour the end of a day the end of a year the end of a decade the end of a century and the end of a millennium The time and date provide a convenient yardstick against which we can evaluate the evolution of our thinking and the adequacy of our assumptions mental models paradigms and policies Will the beginning turn out to be appropriately different from the end We hope that this book is helpful in such evaluation This is a new paradigm book which both presents and advances the new way of thinking about the systems of science technology society economics politics and the environment and actively calls for the replacement of the worn out cognitive sociotechnical paradigm
