An Army of Influence Craig Stockings,Peter Dennis,2021-11-15 A thought provoking analysis of the

Australian Army's capacity to change with a particular focus on the Asia Pacific region **Peace Keeping in Vietnam** Romesh Thakur, 1981 *Media, Mobilization, and Human Rights* Tristan Anne Borer, 2012-11-08 What impact do mass media portrayals of atrocities have on activism? Why do these news stories sometimes mobilize people while at other times they are met with indifference? Do different forms of media have greater or lesser impacts on mobilization? These are just some of the questions addressed in *Media Mobilization and Human Rights* which investigates the assumption that exposure to human rights violations in countries far away causes people to respond with activism. Turning a critical eye on existing scholarship which argues either that viewing and reading about violence can serve as a force for good through increased activism or as a source of evil by objectifying and exploiting the victims of violence, the authors argue that reality is far more complex and that there is nothing inherently positive or negative about exposure to the suffering of others. In exploring this, the book offers an array of case studies from human rights reporting in Mexican newspapers to the impact of media imagery on humanitarian intervention in Somalia, from the influence of celebrity activism to the growing role of social media. By examining a variety of media forms from television and radio to social networking, the interdisciplinary set of authors present radical new ways of thinking about the intersection of media portrayals of human suffering and activist responses to them.

Hugely dynamic in its demographic, economic, technological, and financial development, its changes are as rapid as they are diverse. The SAGE Handbook of Asian Foreign Policy provides the reader with a clear, balanced, and comprehensive overview on Asia's foreign policy and accompanying theoretical trends. Placing the diverse and dynamic substance of Asia's international relations first and bringing together an authoritative assembly of contributors from across the world, this is a reliable introduction to non-Western intellectual traditions in Asia. With chapters on individual countries in the region, it provides a comprehensive account of the range of contemporary Asian practices under conditions of abridged democracy, soft authoritarianism, or complete totalitarianism. Through its analysis, the book argues that civil-military relations in Asia ought to be examined under

the concept of Asian military evolutions It demonstrates that while Asian militaries have tried to incorporate standard Western derived frameworks of civil military relations it has been necessary to adapt such frameworks to suit local circumstances The book reveals how this has in turn led to creative fusions and novel changes in making civil military relations an asset to furthering national security objectives **Journal of the House of Representatives of the United States** United States.
