Peacemaker Or Powder Monkey:

Peacemaker Or Powder-monkey James M. Minifie,1965 *The Nuclear North* Susan Colbourn,Timothy Andrews Sayle,2020-10-01 Since the first atomic weapon was detonated in 1945 Canadians have debated not only the role of nuclear power in their uranium rich land but also their country's role in a nuclear world The Nuclear North investigates critical questions in these ongoing debates Should Canada belong to international alliances that depend on the threat of using nuclear weapons for their own security Should Canadian produced nuclear technologies be exported to potential proliferators Does the country's championing of arms control and disarmament on the global stage matter What about the domestic costs of nuclear technologies and atomic research including their impact on local communities and the environment The contributors to this important collection consider how the atomic age has shaped Canadian policies at home and abroad Their incisive assessment of the country's nuclear history engages with much larger debates about national identity Canadian foreign policy contradictions during the Cold War and Canada's place in the international order Pearson and Canada's Role in Nuclear Disarmament and Arms Control Negotiations, 1945-1957 Joseph Levitt,1993-05-28 In Pearson and Canada's Role in Nuclear Disarmament and Arms Control Negotiations Joseph Levitt traces the history of these negotiations from the Canadian diplomatic perspective He analyses the various proposals and documents the reactions of Pearson and his colleagues Levitt reveals Pearson's own view of the strategic stalemate between the USSR and the United States Pearson did not believe that an open and liberal society such as the United States would ever launch an unprovoked offensive on the USSR he thought instead that the danger of a major military confrontation arose only from the possibility that the Soviet Union might attack Consequently the main thrust of Canadian diplomatic activity in these negotiations was not prevention of an American arms build up but support of a strategy which would compel the USSR to accept an agreement that would benefit the Americans militarily or failing that to hold the Soviets responsible for the impasse in the talks and thus win the all important propaganda war **Friends and Enemies** J.L. Granatstein,2024-03-01 Friends and Enemies presents a collection of essays on Canadian foreign policy written by J L Granatstein one of the leading political and military historians in the country The essays cover a period primarily from the Second World War through to the early 2000s and examine policy under prime ministers Mackenzie King Louis St Laurent John Diefenbaker Lester Pearson and Pierre Trudeau Based on interviews and extensive archival research the essays reveal how Granatstein's views shifted as he reacted to altered conditions in Canada Canadian alliances and the world situation **Learning to Love the Bomb** Sean M. Maloney,2007 In Learning to Love the Bomb Sean M Maloney explores the controversial subject of Canada's acquisition of nuclear weapons during the Cold War Based on newly declassified Canadian and U S documents it examines policy strategy operational and technical matters and weaves these seemingly disparate elements into a compelling story that finally unlocks several Cold War mysteries For example while U S military forces during the 1962 Cuban Missile Crisis were focused on the Caribbean Sea

and the southeastern United States Canadian forces assumed responsibility for defending the northern United States with aircraft armed with nuclear depth charges flying patrols and guarding against missile attack by Soviet submarines This defensive strategy was a closely guarded secret because it conflicted with Canada's image as a peacekeeper and therefore a more passive member of NATO than its ally to the south It is revealed here for the first time The place of nuclear weapons in Canadian history has until now been a highly secret and misunderstood field subject to rumor rhetoric half truths and propaganda Learning to Love the Bomb reveals the truth about Canada's role as a nuclear power Role Quests in the Post-Cold War Era Philippe G. Le Prestre, 1997 Role Quests in the Post Cold War Era examines the question of foreign policy change through a comparative analysis of the Great Powers reactions to the transformations in international relations after the Cold War Contributors describe and explain the efforts of the United States the Soviet Union Russia China Japan Germany France the United Kingdom and Canada to redefine the role they play in an environment that has become internally and externally more uncertain **More Lost Massey Lectures** Barbara Ward, Frank Underhill, Claude Levi-Strauss, Willy Brandt, George Grant, 2008-09-19 The CBC Massey Lectures Canada's preeminent public lecture series are for many of us a highly anticipated annual feast of ideas However some of the finest lectures by some of the greatest minds of modern times have been lost for many years unavailable to the public in any form This is the second volume of recovered lectures a follow on to The Lost Massey Lectures and features Nobel Peace Prize recipient Willy Brandt on the dangerous inequities between developing and industrialized nations in Dangers and Options The Matter of World Survival George Grant on the worsening predicament of the West through an examination of the thought of Friedrich Nietzsche in Time as History Claude Levi Strauss on the nature and role of myth in human history in Myth and Meaning Frank Underhill on the deficiencies of the Canadian constitution in The Image of Confederation and Barbara Ward in the very first Massey Lecture on the origin and predicament of underdeveloped countries in The Rich Nations and the Poor Nations More Lost Massey Lectures includes an introduction by Bernie Lucht who has been the executive producer of CBC Radio's Ideas and the Massey Lectures since 1984

With Friends Like These David Meren, 2012-05-01 One of the most enduring images of Quebec's Quiet Revolution is of Charles de Gaulle proclaiming Vive le Qu bec libre from the balcony of Montreal City Hall The incident laid bare Canada's unity crisis and has since dominated interpretations of the Canada Quebec France triangle David Meren demystifies this cri du balcon by looking beyond de Gaulle to Quebec's evolving relationship with France after the war and the clash of nationalisms that resulted By seeking to understand Quebec Gaullist and Canadian nationalism Meren not only casts doubt on established interpretations of events he also reveals how the challenge of responding to American superpower and influence shaped the triangle *We Gambled Everything* Arne Nielsen, 2012-11-07 Industry insider's candid account of the genesis and evolution of the oil and gas industry in Canada Canadian Policy Toward Khrushchev's Soviet Union Jamie Glazov, 2002 Glazov's new assessment of Western policies toward Khrushchev's Russia is critical to our understanding of

present day Russia since Gorbachev's democratization which led to the disintegration of the Soviet Union in 1991 had its origins in the Khrushchev thaw

George Grant Hugh Donald Forbes, 2007-01-01 George Grant 1918-1988 is the most engaging and provocative writer to have dealt with Canadian politics in the last fifty years His *Lament for a Nation* 1965 is an undisputed classic of our nation's political literature An instant best seller on account of its practical political argument it has endured as an interpretation of Canadian history and a justification for nationalism in this country Along with Grant's other books it has also helped to clarify what is meant by the malaise of modernity said to characterize our time and thus has served to introduce more than a generation of students to the basic questions of political philosophy This study aims to guide the reader toward a clearer understanding of Grant's thought Focusing on his six short books and some of his most revealing articles and addresses it serves as both an introduction to and an overview of George Grant's career and his many contributions to the fields of political science philosophy religion and Canadian studies Hugh Donald Forbes relates Grant's work to that of three disparate and controversial European thinkers Martin Heidegger Leo Strauss and Simone Weil exploring Grant outside of the strictly Canadian framework in which he is normally situated This volume offers fresh perspective on the work of an important political philosopher It will prove invaluable reading for students new to the subject as well as for those interested in a comprehensive study of an outstanding Canadian thinker

Creating Canada's Peacekeeping Past Colin McCullough, 2016-07-28 *Peacekeeping* Despite efforts to relegate it to the past what was once a central pillar in Canada's national identity has been making a comeback in recent years *Creating Canada's Peacekeeping Past* illuminates how participation in the United Nations peacekeeping efforts from 1956 to 1997 became central to national self identification in both English and French Canada Delving into four decades worth of political rhetoric newspaper coverage textbooks and more Colin McCullough outlines continuity and change in the production and reception of messages about peacekeeping He demonstrates that those who produced messages about peacekeeping often overlooked the particularities of individual missions preferring to link their cultural products to political discourses about national identity Engaging in debates about Canada's international standing as well as its broader national character this book is a welcome addition to the history of Canada's changing national identity

Reassessing the Rogue Tory Janice Cavell, Ryan M. Touhey, 2018-11-15 The years when John Diefenbaker's Progressive Conservatives were in office were among the most tumultuous in Canadian history Coming to power on a surge of optimistic nationalism in 1957 the Rogue Tory had stirred up more controversy than any previous prime minister by the time he was defeated in 1963 This was nowhere more apparent than in his handling of international affairs This book reassesses foreign policy in the Diefenbaker era to determine whether its failures can be mainly attributed to the prime minister's personality traits particularly his indecisiveness or to broader shifts in world affairs Written by leading scholars who mine new sources of archival research the chapters examine the full range of international issues that

confronted Diefenbaker and his ministers and probe the factors that led to success or failure decision or indecision on specific issues Rather than dismissing Diefenbaker as a Rogue Tory on the world stage this fascinating reconsideration of the Diefenbaker years challenges readers to push beyond the conventional and reassess his record with fresh eyes

began to develop a peacetime defence relationship Initial co operation was limited to the construction of minor installations and the creation of joint plans But in 1950 both countries began to develop an air defence system to protect North America from the Soviet threat Securing the Continental Skies uses archival sources that have become available since the end of the Cold War to offer new insights into the development of the North American air defence system during the 1940s and 1950s Matthew Trudgen analyzes the negotiations behind several recommendations from the Permanent Joint Board on Defence three early warning radar lines and the North American Air Defence Command NORAD He argues that in Canada air defence policy was shaped by different conceptions of the national interest among the Cabinet the Department of External Affairs the Royal Canadian Air Force and the departments of Transport Defence Production and Northern Affairs and Natural Resources In the United States air defence policy reflected differing assessments of the importance of continental defence by the Truman and Eisenhower administrations Ultimately North America s air defences were the outcome of a variety of factors including Canadian political considerations and emerging nationalism the state of Canada s electronics industry the relationship between both countries air forces and American nuclear strategy Securing the Continental Skies challenges assumptions about Canadian foreign relations in the 1940s and 1950s and offers a new assessment of military co operation between Canada and the United States

Avoiding Armageddon Andrew Richter, 2011-11-01 The advent of nuclear weapons in the 1940s brought enormous changes to doctrines regarding the use of force in resolving disputes American strategists have been widely credited with most of these Canadians most have assumed did not conduct their own strategic analysis Avoiding Armageddon soundly debunks this notion Drawing on previously classified government records Richter reveals that Canadian defence officials did come to independent strategic understandings of the most critical issues of the nuclear age Canadian appreciation of deterrence arms control and strategic stability differed conceptually from the US models Similarly Canadian thinking on the controversial issues of air defence and the domestic acquisition of nuclear weapons was primarily influenced by decidedly Canadian interests Avoiding Armageddon is a work with far reaching implications It illustrates Canada s considerable latitude for independent defence thinking while providing key historical information that helps make sense of the contemporary Canadian defence debate
