Peacemaking And Peacekeeping For The New Century:

Peacemaking and Peacekeeping for the New Century Michael W. Doyle, Olara A. Otunnu, Nelson Mandela, 2000-01-01 The UN's record in peace operations is long various distinguished by both accomplishments and failures and most importantly innovative Unfulfilled expectations and escalating violence in Somalia Rwanda and Bosnia forced retrenchment upon UN peace operations but at the same time a new opportunity to enhance capacities review strategies redefine roles and reaffirm responsibilities has opened up Here a dynamic group of leading diplomats academics and journalists combines forces with UN policymakers and leaders including current Secretary General Kofi Annan and former Secretary General Boutros Boutros Ghali to explore how the international community can improve its practice in negotiating and implementing peace They look at what works and what doesn't in UN peacemaking and peacekeeping and then map out alternative futures for UN action in the 21st century

Peacemaking and Peacekeeping for the New Century Olara A. Otunnu, Michael W. Doyle, 1998 Here a dynamic group of leading diplomats academics and journalists combines forces with UN policymakers and leaders including current Secretary General Kofi Annan and former Secretary General Boutros Boutros Ghali to explore how the international community can improve its practice in negotiating and implementing peace

United Nations Peacekeeping in the Post-Cold War Era John Terence O'Neill, Nick Rees, 2005-10-05 This study examines whether peacekeeping fundamentally changed between the Cold War and Post Cold War periods focusing on contrasting case studies of the Congo Cyprus Somalia Angola Sierra Leone and East Timor

Soldiers in Peacemaking Beatrice de Graaf, Frédéric Dessberg, Thomas Vaisset, 2023-08-10 What is the role of a soldier at the end of war when either victory or defeat is inevitable This book delves into that question exploring how the military and soldiers on the ground have contributed to the transition to peace With case studies from 1800 to the present day *Soldiers in Peace making* offers a historical overview of the part military men and women have played in the aftermath of war From UN peacekeeping in Cambodia to military observers in former Yugoslavia the post Cold War US Army and more the essays in this collection map the strategy politics and practicalities involved in the transition from war to postwar Analyzing the legitimacy of each peace and the military's approach to them the chapters explore how soldiers have engaged with politics and political leaders interacted with civil populations and called upon their own expertise to enable the peace making process In exploring the hybrid role of military men and women as diplomats peacemakers negotiators and fighters this book reveals the crucial part they have played as conflicts come to a close

Peacebuilding as Politics Elizabeth M. Cousens, Chetan Kumar, Karin Wermester, 2001 Examines successes and failures of large scale interventions to build peace in El Salvador Cambodia Haiti Somalia and Bosnia and Herzegovina Sheds lights on the unique conditions for and constraints on peacebuilding in each country and examines the quality and coherence of international responses Cousens is director of research at the International Peace Academy Kumar is affiliated with the Office of the Special Representative of the UN Secretary General for Children and Armed Conflict Annotation copyrighted by

Book News Inc Portland OR Peacebuilding in the United Nations Fernando Cavalcante, 2019-05-06 This book traces the trajectory and different meanings of the concept of peacebuilding in the United Nations since the early 1990s. It analyses how that concept gained life in a particular context and the implications of this process for the Organisation's support to societies affected by armed conflict in general and for peace operations in particular. Departing from tenets about the influence of ideas in world politics and engaging with the critique of the liberal peace scholarship, the book provides a theoretically informed narrative of how peacebuilding acquired different meanings while remaining largely motivated, justified, legitimated and informed by a proactive and top-down agenda of promoting liberal democratic institutions, norms and values as a remedy to the challenges faced by societies affected by armed conflict. The book will appeal to scholars, policymakers and practitioners in peacebuilding and post-conflict development.

The United Nations Franz Cede, Lilly Sucharipa-Behrmann, 2001-02-01 The political changes in the world have profoundly altered the United Nations. This new book is one of the first to describe the structure of the world organization in the present context of international relations. The United Nations Law and Practice is a no-nonsense book, concise, informative and up-to-date. In their respective careers as diplomats or academics, all authors combine vast practical and theoretical experience in dealing with the UN.

Japan's Security Identity Bhubhindar Singh, 2013 Since the end of the Cold War, there has been a significant change in Japanese security policy as Japan's security identity has shifted from a peace state to an international state. In this book, Bhubhindar Singh argues that from the 1990s onwards, the Japanese security policymaking elite recognized that its earlier approach to security policy, which was influenced by the peace state security identity, was no longer appropriate. Rather, as a member of the international community, Japan had to carve out a responsible role in regional and international security affairs, which required greater emphasis on the role of the military in Japan's security policy. To explore the change in Japan's security identity and its associated security behaviour, this book contrasts the three areas that define and shape Japanese security policy: Japan's conception or definition of national security, the country's contribution in military terms to regional and international affairs, and the changes to the security policy regime responsible for the security policy formulation. Further, it seeks to challenge the dominant realist interpretation of Japanese security policy by adopting an identity-based approach and showing how, whilst realist accounts correctly capture the trajectory of Japanese post-Cold War security policy, they fail to explain the underlying causes of the change in Japanese security behaviour in the post-Cold War period. This book is an important addition to the current literature on Japanese security policy and will be of great use to students and scholars interested in Japanese and Asian politics, as well as security studies and international relations more broadly.

Adaptive Mediation and Conflict Resolution Cedric de Coning, Ako Muto, Rui Saraiva, 2022-03-24 This open access book introduces adaptive mediation as an alternative approach that enables mediators to go beyond liberal peace mediation or other determined design models of mediation in the context of contemporary conflict resolution and peace-making initiatives.

Adaptive mediation is grounded in complexity theory and is specifically designed to cope with highly dynamic conflict situations characterized by uncertainty and a lack of predictability. It is also a facilitated mediation process whereby the content of agreements emerges from the parties to the conflict themselves informed by the context within which the conflict is situated. This book presents the core principles and practices of adaptive mediation in conjunction with empirical evidence from four diverse case studies: Colombia, Mozambique, The Philippines, and Syria, with a view to generate recommendations for how mediators can apply adaptive mediation approaches to resolve and transform contemporary and future armed conflicts.

Peace and Conflict Studies Ho-Won Jeong, 2017-07-05 Ho-Won Jeong explains and assesses major approaches to dealing with ethnic conflict, communal violence, inter-state war, and social injustice. The book analyses not only the sources of violence and conflict but also how to manage and prevent them. As peace is relevant to improvement in human well-being and the future survival of humanity, the volume encompasses a variety of themes ranging from alternative security policies, methods of peaceful settlement, human rights, self-determination, environmental politics, global governance, and non-violence. Reflecting on the current thinking and drawing lessons from the past, the book can be considered as the most authoritative introduction to the field since the end of the Cold War. *Humanitarian Intervention and Conflict Resolution in West Africa*

John M. Kabia, 2016-05-13 The end of the Cold War has been characterized by a wave of violent civil wars that have produced unprecedented humanitarian catastrophe and suffering. Although mostly intra-state, these conflicts have spread across borders and threatened international peace and security. One of the worst affected regions is West Africa, which has been home to some of Africa's most brutal and intractable conflicts for more than a decade. This volume locates the peacekeeping operations of the Economic Community of West African States (ECOWAS) within an expanded post-Cold War conceptualization of humanitarian intervention. It examines the organization's capacity to protect civilians at risk in civil conflicts and to facilitate the processes of peacemaking and post-war peace building. Taking the empirical case of ECOWAS, the book looks at the challenges posed by complex political emergencies (CPEs) to humanitarian intervention and traces the evolution of ECOWAS from an economic integration project to a security organization examining the challenges inherent in such a transition. **Strategies of Peace** Daniel Philpott, Gerard Powers, 2010-03-24

How can a just peace be built in sites of genocide, massive civil war, dictatorship, terrorism, and poverty? In *Strategies of Peace*, the first volume in the *Studies in Strategic Peacebuilding* series, fifteen leading scholars propose an imaginative and provocative approach to peacebuilding. Today the dominant thinking is the liberal peace, which stresses cease-fires, elections, and short-run peace operations carried out by international institutions, western states, and local political elites. But the liberal peace is not enough, the authors argue. A just and sustainable peace requires a far more holistic vision that links together activities, actors, and institutions at all levels. By exploring innovative models for building lasting peace, a United Nations counter-terrorism policy that also promotes good governance, coordination of the international prosecution of war criminals with local efforts to settle civil wars,

increasing the involvement of religious leaders who have a unique ability to elicit peace settlements and many others the authors advance a bold new vision for peacebuilding

Regional Organisations and the Development of Collective Security Ademola Abass, 2004-12 This book examines the development of collective security by regional organisations particularly after the Cold War It analyses the various constitutional developments that have occurred within regional arrangements such as ECOWAS African Union SADC OAS and NATO and critically analyses how these developments have propelled regional organisations to depart from the normative framework of regional arrangement contained in Chapter VIII of the UN Charter Through a comprehensive examination of practice the book evaluates the impact of regional organisations newly asserted powers to authorise enforcement action and determine when situations within member states warrant their intervention It inquires into the legal justifications for these developments both from within the UN Charter and regional treaties and practice and asks whether consensual intervention that is the use of force by regional organisations on the basis of their members consent contravenes or constitutes an exception to the prohibition of the use or threat of force under Article 2 4 of the Charter The book also analyses the regime of complementarity between the UN and regional organisations

The African Union's Role in Peacekeeping Isiaka Badmus, 2015-05-27 This study examines the African Union's peacekeeping role in managing African conflicts Based on a qualitative research methodology it analyses AU peace operations in Burundi and Somalia and hybrid peacekeeping in Darfur in order to identify the lessons learned and suggest how future outcomes may be improved

Peace Operations After 11 September 2001 Thierry Tardy, 2004-07-31 This book explores the possible consequences of the events of 11 September 2001 and of the fight against terrorism the way peace operations are perceived and conducted and the way that states international organizations such as NATO or the EU and non state actors consider these operations The 11 September attacks illustrate the widening of the security agenda the persistence of instability and the need to deal with it in both a preventive and a curative way The events have had a major impact on US foreign and defence policies on security policies on the hierarchy of priorities and US views of peace operations around the world This book shows that these different elements mean that the international environment of peace operations is likely to be modified while the local environment has remained largely unchanged

UN Peacekeeping Doctrine in a New Era Cedric de Coning, Chiyuki Aoi, John Karlsrud, 2017-02-20 This edited volume offers a thorough review of peacekeeping theory and reality in contemporary contexts and aligns the two to help inform practice Recent UN peacekeeping operations have challenged the traditional peacekeeping principles of consent impartiality and the minimum use of force The pace and scope of these changes have now reached a tipping point as the new mandates are fundamentally challenging the continued validity of the UN peacekeeping's core principles and identity In response the volume analyses the growing gap between these actual practices and existing UN peacekeeping doctrine exploring how it undermines the effectiveness of UN operations and endangers lives arguing that a common doctrine is a critical starting point for effective

multi national operations In order to determine the degree to which this general principle applies to the current state of UN peacekeeping this book Provides a review of conceptual and doctrinal developments in UN peacekeeping operations through a historical perspective Examines the debate related to peace operations doctrine and concepts among key Member States Focuses on the actual practice of peacekeeping by conducting case studies of several UN peacekeeping missions in order to identify gaps between practice and doctrine Critically analyses gaps between emerging peacekeeping practice and existing doctrine Recommends that the UN moves beyond the peacekeeping principles and doctrine of the past Combining empirical case based studies on UN peace operations with studies on the views and policies of key UN Security Council members that generate these mandates and views of key contributors of UN peacekeepers this volume will be of great use to policy makers UN officials and peace operations practitioners and academics working on peace and conflict security studies international organizations and conflict management

Approaches to Peacebuilding H. Jeong,2002-08-11 Ho Won Jeong and a cast of experts explore the ways in which the dynamics of post conflict situations can be transformed to sustainable peace Contributors focus on designs and models of peacebuilding functions of peacekeeping capacity building through negotiations reconciliation the role of gender in social reconstruction and policy coordination among different components of peacebuilding The analysis illustrates past and current experiences of peacebuilding and suggests conceptual and policy approaches that can overcome the weaknesses of existing strategies

The ethics of armed humanitarian intervention C. A. J. Coady,2002 **International Peacekeeping: The Yearbook of International Peace Operations** Louise Olsson,2009-05-15 This book expands the inquiry of United Nations peace operations to incorporate their effects on the equality of the host state To achieve this a mainstream based analytical framework additionally informed by suggestions from feminist research is formulated and applied to the case of Timor Leste The study makes two contributions Firstly it enhances our ability to trace changes in the power balance between men and women by developing the concept of gender power relations especially introducing security equality understood as the distribution of protection between men and women Secondly when the concept of gender power relations had been developed to enable a more fine grained analysis the project proceeds to systematically explore effects of peace operations on these power relations in the host state The results shows the importance of considering the differences in situation of men and women in order both to avoid doing harm and to obtain a more equal peace

Democratizing Global Governance E. Aksu,J. Camilleri,2002-07-15 Is globalization beyond human control In this thought provoking text the myths and mantras of this apparently irresistible force are challenged and dissembled By examining a number of fundamental questions the contributors put forward a radical reform agenda for global governance Can the global multilateral system be democratic Are security and economic concerns separable Can the development of a global civil society contribute to effective global governance An important and wide ranging study this book will be essential reading for graduates and researchers in international relations
