Deep Healing Emmett E. Miller, M.D.,1996-12-01 Deep Healing brings new hope to every reader It awakens even the most skeptical among us to the miraculous inborn self healing capacities of our mind body Emmett Miller M D practicing as a traditional family doctor for 20 years discovered that when a part of your body is sick the whole body system is out of balance He saw that how his patients thought about and saw life affected and seemed to create whatever their current state of health was He has stated that it is not enough to heal the particular illness without understanding the emotional and psychological basis for the ailment or problem We must heal the entire person not just a specific part Dr Miller has had great success with guided imagery to promote physical health and emotional well being He has even been successful using guided imagery to do minor surgery without any anesthetic again proving the mind body connection and the control of our bodies by our thoughts Through the presentation of stories reflections and case studies Dr Miller presents his wonderful deep healing theories that will instill a new sense of hope and optimism into all who read this book Measuring and Motivating Maintenance Programmers Jerome B. New York Court of Appeals. Records and Briefs. New York (State)., *No Medium* Craig Dworkin, 2015-01-30 Close readings of ostensibly blank works from unprinted pages to silent music that point to a new understanding of media In *No Medium* Craig Dworkin looks at works that are blank erased clear or silent writing critically and substantively about works for which there would seem to be not only nothing to see but nothing to say Examined closely these ostensibly contentless works of art literature and music point to a new understanding of media and the limits of the artistic object Dworkin considers works predicated on blank sheets of paper from a fictional collection of poems in Jean Cocteau's *Orphée* to the actual publication of a ream of typing paper as a book of poetry he compares Robert Rauschenberg's *Erased De Kooning Drawing* to the artist Nick Thurston's erased copy of Maurice Blanchot's *The Space of Literature* in which only Thurston's marginalia were visible and he scrutinizes the sexual politics of photographic representation and the implications of obscured or obliterated subjects of photographs Reexamining the famous case of John Cage's *4'33"* Dworkin links Cage's composition to Rauschenberg's *White Paintings* Ken Friedman's *Zen for Record* and Nam June Paik's *Zen for Film* and other works offering also a guide to further listening that surveys more than 100 scores and recordings of silent music Dworkin argues that we should understand media not as blank base things but as social events and that there is no medium understood in isolation but only and always a plurality of media interpretive activities taking place in socially inscribed space
