Billy Vera: Harlem to Hollywood Billy Vera, 2000-01-01 Although he s a showbiz lifer Billy Vera is cut from a wholly different cloth than his peers If an artist is measured by their devotion to their craft Harlem to Hollywood may be the purest treatise on the subject ever produced All the better it s also an astounding story Born into a white suburban family Vera fell for black music as a child and started down a winding performer s path that would buoy him the rest of his life In the sixties Vera paid his bills by songwriting for other artists through the day and playing mobbed up clubs at night By 1967 as Newark burned on the other side of the Hudson he and gospel singer Judy Clay the first interracial duet to perform at the Apollo tore the house down with a little ditty he wrote for himself Storybook Children a commercial hit produced by Atlantic Records Through the seventies popular taste shifted drastically As blue eyed soul went out of fashion Vera like many other musicians found himself scrounging for survival gigs but one crucial difference set him apart he abstained from the drugs and drink that fueled and eventually claimed so many of his contemporaries As that decade sputtered to a close a woman by the name of Dolly Parton recorded Vera s I Really Got the Feeling and hit number one on the charts Riding the tide of this unexpected attention Vera hightailed it to Los Angeles formed a new band Billy and the Beaters and charted twice before the close of 1981 with songs from their eponymous album recorded live at the Roxy Five years later one of these minor hits At This Moment was featured in several episodes of NBC s Family Ties The song rocketed up the charts and a 42 year old Vera found himself with his very own number one single Nine visits to Carson and an American Bandstand appearance later Vera tasted many other flavors of success acting both on and off camera producing records and reissuing his own work Today with a star on the Hollywood Walk and Fame and a Grammy in tow he s finally prepared to share his journey did we mention that he s also a photographer and music historian who documented every step of career To sit down with Billy Vera is to take a personalized tour through nearly fifty years of entertainment history Won t you come along for the ride

Thaddeus Lamb P. G. Smith, 2018-01-11 Rev Thaddeus Lamb is in a world of trouble A true believer and a man of God he is having a terrible time protecting his small town family and church from the ravages of social change in the sinful 70s But like the mighty Don Quixote de la Mancha he dares to dream the impossible dream that a man of sufficient faith and fortitude can reverse the march of time This he believes is his mission from God Alas it is a daunting quest Satanic Steve the station manager torments him about his low TV ratings His church is facing bankruptcy His daughter is turning into a liberal feminist before his fundamentalist eyes and then he is sorely tempted by a man on a crusade of his own Roger Wright is a brilliant political strategist who intends nothing less than to reverse the direction of politics in America Hilarious and heartbreaking this meditation on the turbulent decade of Nixon and Carter examines forces that divide our nation today and provides a fictionalized account of the right wing campaign to recruit evangelical ministers into politics **St. Joseph's Catholic School presents Knight Writers 2005-2006**, 2006 **Instructor**, 1994 **The Rhino's Lament** John Lloyd Lwanda, 2007 Newmedia, 1994 **Horn of Darkness** Carol Cunningham, Joel Berger, 2000 The black rhino is nature's tank feared by all animals Even lions will break off a hunt to detour around one And yet the black rhino is on the edge of extinction its numbers dwindling from 100 000 at the turn of the century to less than 2 500 today The reason is that in places like Yemen China Korea Taiwan and Thailand the rhino's horn is more valuable than gold so valuable that people will risk their lives to harvest it To deter rhino poachers African governments have spent millions on helicopters paramilitary operations fences and guard dogs even relocation to protected areas Finally Namibia decided to dehorn its rhino population in a last ditch effort to stop the slaughter In 1991 Carol Cunningham and Joel Berger and their eighteen month old daughter Sonja went to Namibia to weigh the effects of dehorning on rhinos In Horn of Darkness they tell the story of three years in the Namib Desert studying Africa's last sizable population of free roaming black rhinos This is the closest most readers will come to experiencing life in the remaining wilds of Africa Cunningham and Berger writing nine chapters capture what it is like to leave the comforts of civilization to camp for months at a time in a land filled with deadly predators to study an animal that is reclusive unpredictable and highly dangerous The authors describe staking out water holes in the dead of the night creeping to within twenty seven meters of rhinos to photograph them all the while keeping a lookout for hyenas elephants and lions They recount many heart pounding escapes one rhino forces Carol Cunningham up a tree an unseen lion in hot pursuit of hyenas races right past a frozen Joel Berger and capture the adrenaline rush of inching closer to a rhino that might flee or charge at any moment They also give readers a clear sense of the careful patient work involved in studying animals the frustration of long days without finding rhinos or seeing other people coping with heat and thirst the Namib desert is one of the driest on Earth with dirt and insects driving hundreds of kilometers in a Land Rover packed to capacity slowing

amassing records on one hundred individual rhinos over the course of several years And perhaps most important the authors reveal that the data they collected suggests that the de horning project might backfire that in the four years after de horning began calf survival was down the evidence suggests that hyenas might be preying on calves and the horn less mothers couldn't defend their offspring They also describe the dark side of scientific work from the petty jealousy of other scientists outside researchers were often seen as ecological imperialists to the controversy that erupted after the authors published their findings as furious officials of the Namibian conservation program denounced their findings and through delays and other tactics effectively withheld a permit to allow the couple to continue their study Weaving together the historical accounts of other naturalists a vividly detailed look at life in the wild and a behind the scenes glimpse of scientific work and the dark side of the conservation movement Horn of Darkness is destined to be a classic work on the natural world Literature and Technology in Three Elementary Classrooms Sheryl K.
