## **Peasant And The State:**

**The peasant state, an account of Bulgaria in 1894** Edward Dicey, 1894      **State and Peasant in Contemporary China** Jean C. Oi, 1991-08-12 This is a study of peasant state relations and village politics as they have evolved in response to the state's attempts to control the division of the harvest and extract the state defined surplus To provide the reader with a clearer sense of the evolution of peasant state relations over almost a forty year period and to highlight the dramatic changes that have taken place since 1978 I have divided my analysis into two parts Chapters 2 through 7 are on Maoist China and chapters 8 and 9 are on post Mao China The first part examines the state's grain policies and patterns of local politics that emerged during the highly collectivized Maoist period when the state closed free grain markets and established the system of unified purchase and sales *tonggou tongxiao* The second part describes the new methods for the production and division of the harvest after 1978 when the government decollectivized agriculture and abolished its unified procurement program

**Peasants, Lords, and State: Comparing Peasant Conditions in Scandinavia and the Eastern Alpine Region, 1000-1750** , 2020-08-10 Peasants Lords and State Comparing Peasant Conditions in Scandinavia and the Eastern Alpine Region 1000 1750 challenges the once widespread view rooted in the historical thinking of the nineteenth century that Scandinavian and especially Norwegian peasants enjoyed a particular peasant freedom compared to their Continental counterparts Markers of this supposed freedom were believed to be peasants widespread ownership of land extensive control over land and resources and comprehensive judicial influence through the institution of the thing The existence of slaves and unfree people was furthermore considered a marginal phenomenon The contributors compare Scandinavia with the eastern Alpine region two regions comprising fertile plains as well as rugged mountainous areas This offers an opportunity to analyse the effect of topographical factors without neglecting the influence of manorial and territorial power structures over the long time span of c 1000 to 1750 With contributions by Markus Cerman Tore Iversen Michael Mitterauer John Ragnar Myking Josef Riedmann Werner R sener Helge Salvesen and Stefan Sonderegger      Latin American Peasants Tom Brass, 2004-08-02 The essays in this collection examine agrarian transformation in Latin America and the role in this of peasants with particular reference to Bolivia Peru Chile Brazil and Central America Among the issues covered are the impact of globalization and neo liberal economic policies      Indentured to Liberty Peter Keir Taylor, 1994 Taylor reconstructs the world of these peasants and their families      *State and Peasant in Contemporary China* Jean C. Oi, 1989-12-06 This is a study of peasant state relations and village politics as they have evolved in response to the state's attempts to control the division of the harvest and extract the state defined surplus To provide the reader with a clearer sense of the evolution of peasant state relations over almost a forty year period and to highlight the dramatic changes that have taken place since 1978 I have divided my analysis into two parts Chapters 2 through 7 are on Maoist China and chapters 8 and 9 are on post Mao China The first part examines the state's grain policies and patterns of local politics that emerged during the highly collectivized Maoist period when the

state closed free grain markets and established the system of unified purchase and sales *tonggou tongxiao* The second part describes the new methods for the production and division of the harvest after 1978 when the government decollectivized agriculture and abolished its unified procurement program Peasants, Political Police, and the Early Soviet State H. Hudson, 2011-12-15 This book combines social and institutional histories of Russia focusing on the secret police and their evolving relationship with the peasantry Based on an analysis of Cheka OGPU reports it argues that the police did not initially respond to peasant resistance to Bolshevik demands simply with the gun rather they listened to peasant voices **States and Power in Africa** Jeffrey Herbst, 2014-12-21 Theories of international relations assumed to be universally applicable have failed to explain the creation of states in Africa There the interaction of power and space is dramatically different from what occurred in Europe In *States and Power in Africa* Jeffrey Herbst places the African state building process in a truly comparative perspective Herbst's bold contention that the conditions now facing African state builders existed long before European penetration of the continent is sure to provoke controversy for it runs counter to the prevailing assumption that colonialism changed everything This revised edition includes a new preface in which the author links the enormous changes that have taken place in Africa over the past fifteen years to long term state consolidation The final chapter on policy prescriptions has also been revised to reflect the evolution of African and international responses to state failure

*Topography of Politics in Rural China* Xiaoyang Zhu, 2015 Contemporary Chinese rural life is placed in sharp theoretical and practical focus in this book State of the art techniques and perspectives are combined to take the reader into Xiaocun a small village on the east bank of the Dianchi Lake in Kunming City In 2003 the author published the book *Crime and Punishment The Story of Xiaocun* 1931-1997 which dealt with disputes mediation and punishment in the village following the legal anthropology tradition At that time neither the villagers nor the author foresaw the vast changes that were to appear a few years later Their main economic activity then was growing vegetables and flowers urbanisation was tsunami like in its speed and impact Land requisition for urban development was so swift that five years later in 2008 there was no farmland left Instead there were many landmark real estate and development projects Xiaocun has become the centre of an enlarged Kunming City Observers including the Xiaocun residents are unavoidably shocked at the changes to the physical landscape in the wake of its rapid urbanisation This book *Topography of Politics in Rural China The Story of Xiaocun* reports the author's revisits to the village starting in early 2007 In the past few years of research on this village the author deeply felt that the problems that make people passionate are fully exposed through issues surrounding land and housing Well written in narrative this book tells the story of Xiaocun in this new century from the perspective of topography exploring the peasantry and its relations to the state in more fundamental terms Stjepan Radić, the Croat Peasant Party, and the Politics of Mass Mobilization, 1904-1928 Mark Biondich, 2000-01-01 This is a work for political scientists and other specialists in the area **BOOK JACKET** *Chinese Rural Development* William L. Parish, 1985 This text examines the Pacific War the Korean War

and the Vietnam War from the perspective of those who fought the wars and lived through them The relationship between history and memory informs the book and each war is relocated in the historical and cultural experiences of Asian countries

*Intervention & Change in Cambodia* Sorpong Peou, 2000 This book contributes to the ongoing debate on the complex transition in weak states from war to peace and from authoritarianism to liberal democracy The analysis assesses the impact of foreign intervention on Cambodia's state and societal structures during the period 1954-98 Three forms of intervention are discussed competitive cooperative and co-optative None of them contributed to the emergence of what is called a hurting balance of power a necessary if not sufficient condition for democratic compromise and maturation none has the capacity to allow democratization to emerge and mature in the immediate term While competitive intervention perpetuated hegemonic instability cooperative and co-optative intervention seemed to lead the country in the direction of illiberal democracy in which greater hegemonic stability exists and may persist for some time

**State and Peasant in Contemporary China** Jean Chun Oi, 1989 *Crafting the Third World* Joseph LeRoy Love, 1996 This innovative study compares the history of economic ideas and ideologies in Romania and Brazil and more broadly those in East Central Europe and Latin America in the late nineteenth and twentieth centuries Whereas previous histories of the idea of economic development have focused on First World theorists this book considers theorists in two backward countries who made important contributions to the field Latin America is well known to economic historians as the region that gave rise to the Structuralist school and Dependency movement Less well known is the fact that East Central Europe is important as the early training ground and the empirical concern of the first generation of development economists This comparative study examines the ways in which economists and other social scientists in Romania and Brazil confronted the issues of economic backwardness

**Peasants in Power** Philip Verwimp, 2013-06-03 This book shows how Rwanda's development model and the organisation of genocide are two sides of the same coin In the absence of mineral resources the elite organised and managed the labour of peasant producers as efficient as possible In order to stay in power and benefit from it the presidential clan chose a development model that would not change the political status quo When the latter was threatened the elite invoked the preservation of group welfare of the Hutu called for Hutu unity and solidarity and relied on the great mass Rwanda's nyamwinshi for the execution of the genocide A strategy as simple as it is horrific The genocide can be regarded as the ultimate act of self-preservation through annihilation under the veil of self-defense Why did tens of thousands of ordinary people massacre tens of thousands of other ordinary people in Rwanda in 1994 What has agricultural policy and rural ideology to do with it What was the role of the Akazu the presidential clan around president Habyarimana Did the civil war cause the genocide And what insights can a political economy perspective offer Based on more than ten years of research and engaging with competing and complementary arguments of authors such as Peter Uvin Alison Des Forges Scott Strauss Ren Lemarchand Filip Reyntjens Mahmood Mamdani and Andr Guichaoua the author blends economics politics and agrarian studies to provide a new way of

understanding the nexus between development and genocide in Rwanda Students and practitioners of development as well as everyone interested in the causes of violent conflict and genocide in Africa and around the world will find this book compelling to read

**Peasants, Populism and Postmodernism** Dr Tom Brass, 2013-02-01 Tracing the way in which the agrarian myth has emerged and re emerged over the past century in ideology shared by populism postmodernism and the political right the argument in this book is that at the centre of this discourse about the cultural identity of otherness difference lies the concept of and innate peasant ness In a variety of contextually specific discursive forms the old populism of the 1890s and the nationalism and fascism in Europe America and Asia during the 1920s and 1930s were all informed by the agrarian myth The postmodern new populism and the new right both of which emerged after the 1960s and consolidated during the 1990s are also structured discursively by the agrarian myth and with it the ideological reaffirmation of peasant essentialism

**China's Peasants** Sulamith Heins Potter, Jack M. Potter, 1990-03-29 This landmark study of Zengbu a Cantonese community is the first comprehensive analysis of a rural Chinese society by foreign anthropologists since the Revolution in 1949 Jack and Sulamith Potter examine the revolutionary experiences of Zengbu s peasant villagers and document the rapid changeover from Maoist to post Maoist China In particular they seek to explain the persistence of the deep structure of Chinese culture through thirty years of revolutionary praxis The authors assess the continuities and changes in rural China moving from the traditional social organization and cultural life of the pre revolutionary period through the series of large scale efforts to implement planned social change which characterized Maoism land reform collectivization the Great Leap Forward and the Cultural Revolution They examine in detail late Maoist society in 1979 80 and go on to describe and analyse the extraordinary changes of the post Mao years during which Zengbu was decollectivized and traditional customs and religious practices reappeared

Politics and Peasants in Interwar Romania Sorin Radu, Oliver Jens Schmitt, 2017-11-06 The volume discusses the integration of peasants into the nation building project of Greater Romania with a focus on social and cultural practices Thus it addresses one of the key questions of the new political system in post imperial East Central and Southeast Europe It advocates a shift from a multiple top down perspective capital province urban political elites rural voters to an analysis concentrating on regionally diverse rural societies with a special interest in the predominantly ethnic Romanian population

**French Peasant Fascism** Robert O. Paxton, 1997-10-23 French Peasant Fascism is the first account of the Greenshirts a militant right wing peasant movement in 1930s France that sought to transform the Republic into an authoritarian agrarian state Author Robert Paxton examines the Greenshirts in five case studies throwing new light on French rural society and institutions during the Depression and on the emergence of a new rural leadership of authentic farmers Paxton points out that fascism remained weak in the French

countryside because the French state protected landowners more effectively than did those of Weimar Germany and Italy and because French rural notables were so firmly embedded in social and economic power Although the Greenshirts disappeared with the Third Republic they left a double legacy a tradition of peasant direct action which is still exercised today and the idea of France as a peasant nation whose identity and virtues rest upon the persistence of a large peasant sector That self image continues to influence French policy choices today long after the social structure on which it rested has disappeared
