The Emergence of Revolution China, 1937-1945** Chalmers A. Johnson,1962 **Peasants and Revolution in Rural China** Chang Liu,2007-05-14 This book explores rural political change in China from 1850 to 1949 to help us understand China's transformation from a weak decaying agrarian empire to a unified strong nation state during this period Based on local gazetteers contemporary field studies government archives personal memoirs and other primary sources it systematically compares two key macro regions of rural China the North China plain and the Yangzi delta to demonstrate the ways in which the forces of political change shaped by different local conditions operated to transform the country It shows that on the North China plain the village community composed mainly of owner cultivators was the focal point for political mobilization whilst in the Yangzi delta absentee landlordism was exploited by the state for local control and tax extraction However these both set the stage in different ways for the communist mobilization in the first half of the twentieth century *Peasants and Revolution in Rural China* is an important addition to the literature on the history of the Chinese Revolution and will be of interest to anyone seeking to understand the course of Chinese social and political development *The Rise to Power of the Chinese Communist Party* Tony Saich,Benjamin Yang,2016-09-16 This collection of documents covers the rise to power of the Chinese communist movement They show how the Chinese Communist Party interpreted the revolution how it devised policies to meet changing circumstances and how these policies were communicated to party members and public

China's Communist Revolutions Werner Draguhn,David S.G. Goodman,2012-10-12 During its fifty years of existence the People's Republic of China has seen dramatic changes from the proclamation of the independent state through the period of the Communist Revolution the Cultural Revolution the Reform Period These changes are analysed from the political economic and social points of view challenging accepted orthodoxy Throughout the emphasis is on change in the context of contemporary China and as part of the Chinese Communist Party's search for paths to development **China At The Crossroads** F. Gilbert Chan,2019-03-08 Concentrating on a transitional epoch 1927 1949 when China was at the crossroads of revolution this book analyzes the Kuomintang's inherent weaknesses as a revolutionary force and the Communists' success in the quest for new formulas to guide the modernization movement *Patrolling the Revolution* Elizabeth J. Perry,2007-08-24 This pioneering study explores the role of working class militias as vanguard and guardian of the Chinese Revolution The book begins with the origins of urban militias in the late nineteenth century and follows their development to the present day Elizabeth J Perry focuses on the institution of worker militias as a vehicle for analyzing the changing yet

enduring impact of China's revolutionary heritage on subsequent state society relations. She also incorporates a strong comparative perspective examining the influence of revolutionary militias on the political trajectories of the United States, France, the Soviet Union, and Iran. Based on exhaustive archival research, the work raises fascinating questions about the construction of revolutionary citizenship, the distinctions among class, community, and creed, the open-ended character of revolutionary movements, and the path dependency of institutional change. All readers interested in deepening their understanding of the Chinese Revolution and in the nature of revolutionary change more generally will find this an invaluable contribution.

People's War (RLE Modern East and South East Asia) J.L.S. Girling, 2017-09-19. This book, first published in 1969, casts a critical eye over the problem of insurgency. The author sees insurgency not just as a matter of technique, military tactics, or organizational skill, nor as the result of force and fraud, but as people's war: the conditions in which the mass of the people become involved voluntarily or otherwise on either side. He quotes Nasution's statement: "The guerrilla movement is only the result, not the cause, of the problem. People's war brings the peasantry hitherto ignorant, apathetic, or rejected into the political process. For war is the continuation of politics by other means. In Asia, this was essentially a peasant's war arising when peasant grievances, interests, or demands cannot be met under the existing legitimate but urban or landowner-orientated system of rule. It shows little understanding to blame outside intervention when peasant and nationalist unrest leads to revolt. The Chinese Communists did not owe success to Soviet aid; the Vietminh to Chinese assistance; or the Vietcong to North Vietnamese intervention. The conclusion applies to governments as to insurgents: no amount of outside aid can win the war for them if they themselves are incapable and the people on whom they depend for support have no will to fight." This book, based on first-hand experience of the area and on study of original sources, offers: 1. an analysis of people's war in China, Indochina, and Vietnam; 2. a critique of US policy in Laos and Vietnam; and 3. a comparison with counter-measures in Malaya, the Philippines, and Indonesia. It is both original and constructive.

Exploring Nationalisms of China C. X. George Wei, Xiaoyuan Liu, 2002-12-30. China is a site for the evolution, not only of Chinese nationalism, but the nationalism of various non-Han ethnic groups. During the 20th century, these ethnic groups constructed and expressed their own identities and nationalism through interaction with one another and with outside influences. This interdisciplinary anthology contains nine original works that pluralize our understanding of nationalism in China by illustrating the various intellectual strains of China.

s nationalist discourse the dichotomy between the political authorities and grass roots experiences and the nationalizing efforts by various ethnic and political groups along China's inland and maritime frontiers First contributors explore the controversy surrounding the contested issue of China's national and international identity from pre modern times to the present Next the authors examine China's nationalist encounters with foreign influences such as U S Marines in Shandong Soviet experts in Manchuria and recent friction between the United States and the PRC Finally essays expand beyond the ethnographic regions of the Han Chinese and the political domain of the PRC to discuss the odyssey of Taiwan's nationalism in both a political and a cultural sense Many selections are based on newly declassified archival materials

*New Narratives of Urban Space in Republican Chinese Cities*, 2013-03-27 The nine empirical studies in *New Narratives of Urban Space in Republican Chinese Cities* organized under the general framework of urban space examine three critical dimensions of the great urban transformation in Republican China social legal and governance orders Together these narratives suggest a new perception of this historical urbanism While modern economic development was a major drive for Chinese urban transformation this volume highlights the dimension of the multilayered forces that shape urban space by looking into that less quantifiable but equally important cultural realm and by exposing the ways in which these forces created new urban narratives which became themselves shapers of urban space and of our perception of the Republican urbanity

*From Rebel to Ruler* Tony Saich, 2021-07-06 On the centennial of the founding of the Chinese Communist Party the definitive history of how Mao and his successors overcame incredible odds to gain and keep power Mao Zedong and the twelve other young men who founded the Chinese Communist Party in 1921 could hardly have imagined that less than thirty years later they would be rulers On its hundredth anniversary the party remains in command leading a nation primed for global dominance Tony Saich tells the authoritative comprehensive story of the Chinese Communist Party its rise to power against incredible odds its struggle to consolidate rule and overcome self inflicted disasters and its thriving amid other Communist parties collapse Saich argues that the brutal Japanese invasion in the 1930s actually helped the party As the Communists retreated into the countryside they established themselves as the populist grassroots alternative to the Nationalists gaining the support they would need to triumph in the civil war Once in power however the Communists faced the difficult task of learning how to rule Saich examines the devastating economic consequences of Mao's Great Leap Forward and the political chaos of the Cultural Revolution as well as the party's rebound under Deng Xiaoping's reforms Leninist systems are thought to be rigid yet the Chinese Communist Party has proved adaptable *From Rebel to Ruler* shows that the party owes its endurance to its flexibility But is it nimble enough to realize Xi Jinping's China Dream Challenges are multiplying as the growing middle class makes new demands on the state and the ideological retreat from communism draws the party further from its revolutionary roots The legacy of the party may be secure but its future is anything but guaranteed

*The Soldier and the Citizen* Monte R. Bullard, 2016-09-16 A soldier citizen describes the role of the Republic of China's military in the

political socialization of Taiwan's citizens during the first two decades after the loss of the Chinese mainland

**A Bitter Revolution** Rana Mitter, 2004 China is now poised to take a key role on the world stage but in the early twentieth century the situation could not have been more different Rana Mitter goes back to this pivotal moment in Chinese history to uncover the origins of the painful transition from a premodern past into a modern world By the 1920s the seemingly civilized world shaped over the last two thousand years by the legacy of the great philosopher Confucius was falling apart in the face of western imperialism and internal warfare Chinese cities still bore the imprints of its ancient past with narrow lanes and temples to long worshipped gods but these were starting to change with the influx of foreign traders teachers and missionaries all eager to shape China's ancient past into a modern present Mitter takes us through the resulting social turmoil and political promise the devastating war against Japan in the 1940s Communism and the Cultural Revolution of the 1960s and the new era of hope in the 1980s ended by the Tiananmen uprising He reveals the impetus behind the dramatic changes in Chinese culture and politics as being China's New Culture a strain of thought which celebrated youth individualism and the heady mixture of strange and seductive new cultures from places as far apart as America India and Japan
