Peasants, Primitives, and Proletariats David L. Browman, Ronald Schwarz, 2011-06-01 No detailed description available for Peasants Primitives and Proletariats **Contesting Citizenship in Latin America** Deborah J. Yashar, 2005-03-07

Indigenous people in Latin America have mobilized in unprecedented ways demanding recognition equal protection and subnational autonomy These are remarkable developments in a region where ethnic cleavages were once universally described as weak Recently however indigenous activists and elected officials have increasingly shaped national political deliberations Deborah Yashar explains the contemporary and uneven emergence of Latin American indigenous movements addressing both why indigenous identities have become politically salient in the contemporary period and why they have translated into significant political organizations in some places and not others She argues that ethnic politics can best be explained through a comparative historical approach that analyzes three factors changing citizenship regimes social networks and political associational space Her argument provides insight into the fragility and unevenness of Latin America s third wave democracies and has broader implications for the ways in which we theorize the relationship between citizenship states identity and social action **Peasants and Proletarians** Robin Cohen, Peter C. W. Gutkind, Phyllis

Brazier, 2023-07-07 Originally published in 1979 this book examines differing forms of international interracial working class action and the relationship between workers struggles in the periphery and those in advanced capitalist countries It analyses the nature of class alliances forged in the countryside and the urban sprawls of the developing world among workers students and the unemployed The volume draws on theoretical debates and detailed empirical studies dealing with a wide range of countries in Asia Latin America Africa and the Caribbean Each of the sections is preceded by a linking editorial comment and the editors also provide an introductory overview Reviews of the original edition of Peasants and Proletarians This is an important book both for historians and for social scientists It draws attention to a previously underestimated labour force that has grown into a significant indeed indispensable part of the international economic structure Lynda Shaffer Journal of Asian Studies 39 4 1980 This book offers a truly impressive and solid compilation of material on labour in the Third World The sheer range of scholarship concerning many different types of workers over a timescale of nearly 100 years in countries and political situations as various for example as Lagos in the 1890s Jamaica in the 1930s and socialist Algeria or Chile under Allende is sometimes bewildering but never fails to stimulate and absorb the reader Paul Kennedy Journal of Modern African Studies 19 4 1981 Peasants and Proletarians is a very major contribution The editors introduction though brief successfully raises many of these issues and outlines an approach to them The twenty one readings concerned with early forms of resistance rural workers strategies of working class action migrant workers in advanced capitalist states and contemporary struggles offer geographical and intellectual breadth in their exploration of the diversity of Third World experience Joel Samoff ASA Review of Books Vol 6 1980 **Poverty and Peasantry in Peru's Southern Andes, 1963-90**

R.F. Watters,1994-06-18 This study views the peasantry in the context of the historical experience of conquest and domination Since the 1950s the community of Chilca has become more mobilized and confident and increasingly affected by capitalism urbanization the Peruvian Revolution and agrarian reform **Old Colony Mennonites in Argentina and Bolivia** Lorenzo Cañas Bottos,2008-01-31 This volume challenges received images of Old Colony Mennonites as living in the past or perfect examples of community Through the concept of the imagination of the future this book presents an analysis of their historical transformations as the result of attempting to apply in practice their Christian ideals of building a community of believers in the world while remaining separate from it It argues that while they contributed to the territorialisation of the states that hosted them through their migrations from sixteenth century Europe to late twentieth century Latin America they systematically rejected being incorporated into the nation through the building of a community of agricultural settlements that maintain ties across international borders It explores how these imaginations are maintained and transformed through the analysis of schisms conflict and border management together with a biographical approach to conversion narratives and the religious experience *Global Land Grabbing and Political Reactions 'from Below'* Marc Edelman,Ruth Hall,Saturnino M. Borras Jr.,Ian Scoones,Ben White,Wendy Wolford,2017-08-15 When the 2007 2008 food and financial crises triggered a global wave of land grabbing scholars activists and policy practitioners assumed that this would be met with massive peasant resistance As empirical evidence accumulated however it became clear that political reactions from below to land grabbing were quite varied and complex Violent resistance outright expulsions everyday weapons of the weak and demands for better terms of incorporation into land deals were among the outcomes that emerged Readers of this collection will encounter a multinational group of scholars who use the tools of social movements theory and critical agrarian studies to examine cases from Argentina Mexico Guatemala Nicaragua Colombia Ethiopia Madagascar Mozambique Uganda Mali Ukraine India and Laos as well as the Rio 20 Sustainable Development Conference Initiatives from below in response to land deals have involved local and transnational alliances and the use of legal and extra legal methods and have brought victories and defeats This book was first published as a special issue of The Journal of Peasant Studies *Language, Coffee, and Migration on an Andean-Amazonian Frontier* Nicholas Q. Emlen,2020-03-24 Extraordinary change is under way in the Alto Urubamba Valley a vital and turbulent corner of the Andean Amazonian borderland of southern Peru Here tens of thousands of Quechua speaking farmers from the rural Andes have migrated to the territory of the Indigenous Amazonian Matsigenka people in search of land for coffee cultivation This migration has created a new multilingual multiethnic agrarian society The rich tasting Peruvian coffee in your cup is the distillate of an intensely dynamic Amazonian frontier where native Matsigenkas state agents and migrants from the rural highlands are carving the forest into farms Language Coffee and Migration on an Andean Amazonian Frontier shows how people of different backgrounds married together and blended the Quechua Matsigenka and Spanish languages in their day to day lives This frontier relationship took place against a backdrop of

deforestation cocaine trafficking and destructive natural gas extraction Nicholas Q Emlen s rich account which takes us to remote Amazonian villages dusty frontier towns roadside bargaining sessions and coffee traders homes offers a new view of settlement frontiers as they are negotiated in linguistic interactions and social relationships This interethnic encounter was not a clash between distinct groups but rather an integrated network of people who adopted various stances toward each other as they spoke The book brings together a fine grained analysis of multilingualism with urgent issues in Latin America today including land rights poverty drug trafficking and the devastation of the world s largest forest It offers a timely on the ground perspective on the agricultural colonization of the Amazon which has triggered an environmental emergency threatening the future of the planet

The Life and Times of Grandfather Alonso, Culture and History in the Upper Amazon Blanca Muratorio,1991 In Blanca Muratorio s book we are introduced to Rucuyaya Alonso an elderly Quichua Indian of the Upper Ecuadorean Amazon Alonso is a hunter but like most Quichuas he has done other work as well bearing loads panning gold tapping rubber trees and working for Shell Oil He tells of his work his hunting his marriage his fights his fears and his dreams His story covers about a century because he incorporates the oral tradition of his father and grandfather along with his own memories Through his life story we learn about the social and economic life of that region Chapters of Alonso s life history and oral tradition alternate with chapters detailing the history of the world around him the domination of missionaries the white settlers expropriation of land the debt system workers were subjected to the rubber boom the world wide crisis of the 1930s and the booms and busts of the international oil market Muratorio explains the larger social economic and ideological bases of white domination over native peoples in Amazonia She shows how through everyday actions and thoughts the Quichua Indians resisted attacks against their social identity their ethnic dignity and their symbolic systems They were far from submissive as they have often been portrayed

Visionary Art of the Americas Juan David Cadena Botero,2023-11-28 Unlike their European predecessors many Latin American and North American authors turned to hallucinatory substances as elements of their own hemispheric heritage The twentieth century narratives analyzed in Visionary Art of the Americas Hemispheric Transculturations Hallucinogens Politics Aesthetics and Mass Consumer Culture in the United States Mexico and Colombia acquire their true depth only within a much wider realm of visionary traditions spanning Asia Africa and the Americas Socially and culturally marginalized alongside users hallucinogens simultaneously a colonial anathema and a sacred pre Columbian ritual have gained increased mainstream acceptance The various films and texts analyzed in this book attest to the true heterogeneity of hallucinogenic experience in the Americas at a time when scholarly attention to hallucination and visions as a survival adaptation of organic intelligence is crucial to understand its differences from A I
