Pedagogy Is Politics:

Labeling Glenn M. Hudak, Paul Kihn, 2001 A diverse group of contributors from the fields of education psychology philosophy and cultural studies explore the social phenomenon of labeling The authors question the nature of labeling its contexts and processes looking in particular at its prescriptive and confining effects The assumption that labels are neutral and applied neutrally is rejected as the political nature of labeling is revealed Topics discussed by the contributors include the politics of labeling whiteness as a label for western cultural politics labeling in institutions popular culture and labeling school communities and classrooms and the politics of labeling labeling and race sexual labelings the impact of categorization on our children labeling in the special education system immigrants and limited English proficiency groups Contributors include Michael Apple Peter McLaren Cameron McCarthy and Maxine Greene *Theory/pedagogy/politics* Donald E. Morton, Mas'ud Zavarzadeh, 1991 Theory pedagogy politics the crisis of The Subject in the humanities Mas ud Zavarzadeh and Donald Morton The subject of literary and the subject of cultural studies Antony Easthope Post structuralist feminist practice Chris Weedon Resistance to sexual theory Juliet Flower MacCannell Principle pleasures obsessional pedagogies or accounting from Irving Babbitt to Allan Bloom Katherine Cummings Canonicity and theory toward a post structuralist pedagogy R Radhakrishnan The spirit hand on the index of pedagogy and propaganda Gregory L Ulmer Radical pedagogy as cultural politics beyond the discourse of critique and anti utopianism Henry A Giroux and Peter L McLaren Charisma and authority in literary study and theory study Heather Murray Intellectual work and pedagogical circulation in English Evan Watkins The university and revolutionary practice a letter toward a Leninist pedagogy Adam Katz

Pedagogy is Politics Maria-Regina Kecht, 1992 **Performing Pedagogy** Charles R. Garoian, 1999-09-30 Examines performance art and the powerful implications it holds for teaching in the schools **Multicultural Education, Critical Pedagogy, and the Politics of Difference** Christine E. Sleeter, Peter L. McLaren, 1995-08-03 This book explores and expands upon linkages between multicultural education and critical pedagogy drawing on the shared goal of challenging oppressive social relationships **Performativity, Politics and Education** Peter Roberts, 2022-04-04 This book provides a distinctive perspective on some of the ways in which performativity as an expression of neoliberal and managerialist thinking works in specific policy contexts It pays particular attention to higher education and considers how the logic of performativity reconfigures our sense of what it means to engage in worthwhile research what it means to be well and ultimately what it means to be human Philosophy of education conceived not just as a domain of scholarly activity but as a way of life rubs against the grain of performativity In a performance driven world efficiency measurability and predictability are all important A philosophical life in education is often unpredictable uncertain and inefficient it creates a kind of intellectual restlessness that can never be fully satisfied Performativity Politics and Education From Policy to Philosophy suggests that the current obsession with productivity performance and prosperity is misguided It argues that policies and practices underpinned by the

principle of performativity are dehumanising and offers an alternative approach an orientation to education grounded in a philosophy of hope and underpinned by a commitment to collegiality constructive critique and ongoing dialogue The SAGE Handbook of Qualitative Research Norman K. Denzin (ed), Yvonna S. Lincoln, 2005 A thoroughly revised updated edition this volume includes new chapters on auto ethnography critical race theory queer theory testimonies **Disturbing Pleasures** Henry A. Giroux, 2012-11-12 In *Disturbing Pleasures* Henry Giroux demonstrates how his well known theories of education critical pedagogy and popular culture can be put to use in the classroom and in other cultural settings Adding an entirely new dimension to his thinking about the cultural sites at which pedagogical practice takes place Giroux illustrates how professors school teachers and other cultural workers can appropriate what he refers to as a pedagogy of cultural studies *Postmodernism, Feminism, and Cultural Politics* Henry A. Giroux, 1991-01-01 This book introduces central assumptions that govern postmodern and feminist theory offering educators a language to create new ways of conceiving pedagogy and its relationship to social cultural and intellectual life It challenges some of the major categories and practices that have dominated educational theory and practice in the United States and in other countries since the beginning of the twentieth century Rejecting the apolitical nature of some postmodern discourses and the separatism characteristic of some versions of cultural feminism the contributors take a political stand rooted in concern with cultural and social justice In so doing these essays represent a linguistic shift regarding how we think about ethics foundationalism difference and culture The selections present a concern with developing a language that is critical of master narratives racism sexism and those technologies of power in schools that subjugate infantilize and oppress students The authors also develop a language of possibility that focuses on analyzing how power can be linked productively to knowledge how teachers can construct classroom social relations based on notions of equity and justice how critical pedagogy can contribute to an identity politics that is grounded in democratic relations and how teachers can develop analyses that enable students to become self reflective actors as they transform themselves and the conditions of their social existence **The Politics of Early Childhood Education** Lourdes Diaz Soto, 2000 As the conservative political mood of our nation eliminates programs for the increasing numbers of bilingual children educators are nevertheless expected to teach linguistically and culturally diverse learners with limited background knowledge and resources This edited volume challenges mainstream educators to critically examine how to best meet the needs of bilingual bicultural children in contemporary America **The Theory and Practice of Grading Writing** Frances Zak, Christopher C. Weaver, 1998-02-05 CHOICE 1998 Outstanding Academic Books Grading is one of the thorniest issues writing teachers must deal with yet surprisingly little has been written on this topic As writing teachers move increasingly toward practices that focus on writing as a process they face a growing need to reconsider their systems of grading to determine whether or not these systems support their pedagogies The authors interrogate the grading of individual papers as well as portfolios and the assigning of end of term grades This collection explores the issues and

problems that have emerged as conventional grading practices have lagged behind and been challenged by new theories of language. While the book will be of interest to theorists, Zak and Weaver have also made the book relevant and useful to teachers whose primary interest is the practical consequences of theory in their classrooms. Where theoretical discussion takes place, the language is clear and accessible. Many of the authors write directly from personal experience, telling stories of the classroom or writing of new techniques and approaches they have tried. They speak with the voices of teachers, and the tone and content of their words convey a sense of the immediacy of the topic.

Encyclopedia of Critical Political Science Clyde W. Barrow, 2024-03-14 An indispensable and exemplary reference work, this Encyclopedia adeptly navigates the multidisciplinary field of critical political science, providing a comprehensive overview of the methods, approaches, concepts, scholars, and journals that have come to influence the discipline's development over the last six decades.

The Journal of Education, 1900 **Educational Commons in Theory and Practice** Alexander J. Means, Derek R. Ford, Graham B. Slater, 2017-02-27 In this volume, critical scholars and educational activists explore the intricate dynamics between the enclosure of global commons and radical visions of a common social future that breaks through the logics of privatization, ecological degradation, and dehumanizing social hierarchies in education. In its institutional and informal configurations alike, education has been identified as perhaps the key stake in this struggle. Insisting on the urgency of an education that breaks free of the bonds of enclosure, the essays included in this volume weave together bright threads of radical thought into a vivid tapestry illustrating a critical framework for enacting a global educational commons.

Service-Learning in Higher Education D. Butin, 2005-07-14 Advocates have positioned service learning as a real-world, real-time opportunity for students to encounter academic knowledge in a meaningful and relevant manner. Service learning in higher education settings offers a powerful alternative to traditional models of teaching and learning. Students are encouraged to develop links to local institutions, volunteer their time, and create a special bond between the university and the community in which they live. Service learning has become a very popular alternative to standard courses in higher education and is gaining significant popularity. This book takes a serious look at the unintended consequences and alternative conceptualizations of this mode of learning and explores what it could offer us in the future.

Higher Education Under Fire Michael Berube, Cary Nelson, 2020-07-24 The contributors to this collection explore why and how higher education in America is under attack.

Transformational Politics Stephen Woolpert, Christa Daryl Slaton, Edward W. Schwerin, 1998-08-13 Winner of the 1999 Best Book in Ecological and Transformational Politics, presented by the American Political Science Association's Section on Ecological and Transformational Politics. The discipline of political science has reached a crossroads. The frequency with which terms such as post-liberal, post-modern, post-patriarchal, post-materialist, and post-structural are used in contemporary political discourse testifies to the pervasive conviction that an era has ended. Similarly, phrases such as new world order, new paradigm, new age, and third wave convey the widely shared expectation that what lies ahead politically will be qualitatively

unlike what has gone before Transformational Politics argues that traditional political science is failing to identify and address fundamental political phenomena of our time and proposes an alternative value based political science that not only studies phenomena but also uses knowledge to promote democracy sustainability and social conscience Part I of the book defines transformational political theory as an emerging paradigm and draws on a wide array of theories empowerment feminist democratic communitarian chaos quantum conflict resolution self actualization Part II examines how a transformational perspective guides the study of politics in both research and teaching Part III offers guidance about how to practice the theory and apply the study with a concern for creating a better world *Visual Economies Of/in Motion C.* Richard King, David J. Leonard, 2006 Sport films have been central to American cinema playing an increasingly important role in the communication of a commonsense understanding of race gender class history and social relations Oddly scholars have neglected sport films and their significance Offering a comparative theoretically grounded and interdisciplinary approach *Visual Economies of in Motion* marks a novel and important point of departure in sport studies and cultural studies It brings together a dozen essays on feature films and documentaries to probe the articulation of ideologies and identities play and power and sporting worlds and social fields Amazon com **Teaching LGBTQ Politics** Edward F. Kammerer, Jr., Royal G. Cravens, III, Erin Mayo-Adam, 2025-08-01 An innovative collection of advice resources and ideas for faculty teaching LGBTQ politics Limited resources exist to support faculty teaching LGBTQ politics The first of its kind this edited volume brings together scholars from across the discipline of political science to offer guidance on how to better teach LGBTQ issues Rooted in and focused on the US context the book is divided into three sections The first addresses developing and teaching LGBTQ politics courses at both the undergraduate and graduate levels The second offers suggestions for incorporating LGBTQ topics into other political science courses And the last homes in on various pedagogical concerns that can arise when teaching LGBTQ politics Contributors provide a host of resources including lesson plan templates reading assignments and strategies and takeaways from their own experiences teaching in the field **Applied Linguistics and Politics** Christian W. Chun, 2022-02-24 In the current climate of extreme nationalism and fear mongering a new politics for a socially just world is needed more than ever Featuring internationally renowned scholars *Applied Linguistics and Politics* explores how innovative theories methodologies and pedagogies in applied linguistics can address the political challenges and issues arising in the 21st century Adopting a Gramscian theoretical framework the five parts of this volume focus on the various ways in which the political is discursively and materially realized in its dialogic co constructions within the media the economy culture and identity affect and education Examining the power instantiations of sociolinguistic and semiotic practices in society from a variety of critical perspectives this book questions how applied linguists can respond to and challenge current discourses of issues such as militarism nationalism Islamophobia sexism racism and the free market and suggests future directions for research Making use of a range of methodologies from discourse analysis sociolinguistics

semiotics and political science Applied Linguistics and Politics demonstrates how linguistics can intervene in the political and help mobilize and organize for an economically and socially just society
