Pedagogy Printing And Protestantism:

Pedagogy, Printing and Protestantism Carmen Luke, 1989-07-01 Using Foucault's history of discourse this book examines the relationship between the invention of the printing press and the evolution of concepts regarding childhood and schooling. It is an interdisciplinary study of schooling, childhood literacy and protestantism in 16th century Germany. Luke traces the agenda for the rearing and education of the young as outlined by the Protestant reformers and popularized by the advent of printing. Luther's print-based religious campaign led to his call for universal public schooling to promote literacy, a fundamental requirement of the new theology. Luke identifies the development of an emergent discourse on childhood in the reformer's tracts, school ordinances, personal correspondences, conduct and household and medical guides. From a Foucauldian archeological perspective, then, *Pedagogy, Printing and Protestantism* examines the conditions that enabled the emergence of early modern discourse on childhood.

International Handbook of Protestant Education William Jeynes, David W. Robinson, 2012-01-13 Since their earliest days, institutions providing a Protestant education have always been respected and sought after for their rigor and relative freedom from dogma, and despite today's secularism and plurality, they remain so. This international handbook is the ultimate companion to Protestant schooling worldwide. Its 39 chapters form the most comprehensive and wide-ranging treatment of the subject yet available, addressing Protestant education on all six inhabited continents and featuring the perspectives of leading authorities and public figures. The contributions cover in detail not only the facts and features of Protestant schooling in sundry nations but also integrate a range of themes common to them all, themes so vital that they are of central concern to Christians around the world and of whatever denomination. Some of these topics are school choice, globalization, Bible pedagogy, and character education, the fine arts, parental involvement, and the rise of Christianity in previously inaccessible locations such as China. The handbook's stellar list of authors is a Who's Who of authorities on the subject and includes a renowned American evangelical, a former historian of the US House of Representatives, and White House consultants responsible for framing legislation. The many contributors from outside the USA are leading academics conducting seminal research on numerous

Renaissance Humanism in Support of the Gospel in Luther's Early Correspondence Timothy P. Dost, 2017-07-05 Drawing on the early correspondence of Martin Luther Timothy Dost presents a reassessment of the degree to which humanism influenced the thinking of this key reformation figure Studying letters written by Luther between 1507 and 1522 he explores the various ways Luther used humanism and humanist techniques in his writings and the effect of these influences on his developing religious beliefs The letters used in this study many of which have never before been translated into English focus on Luther's thoughts attitudes and application of humanism uncovering the extent to which he used humanist devices to develop his understanding of the gospel Although there have been other studies of Luther and humanism few have been grounded in such a close philological examination of Luther's writings Combining a sound knowledge of recent historiography with a detailed familiarity with Luther's correspondence Dost provides a sophisticated contribution to the field of reformation studies

Infant Baptism in Reformation Geneva Karen E. Spierling, 2017-03-02 This book examines the beliefs practices and arguments surrounding the ritual of infant baptism and the raising of children in Geneva during the period of John Calvin's tenure as leader of the Reformed Church 1536-1564 It focuses particularly on the years from 1541 onward after Calvin's return to Geneva and the formation of the Consistory The work is based on sources housed primarily in the Genevan State Archives including the registers of the Consistory and the City Council While the time period of the study may be limited the approach is broad encompassing issues of theology church ritual and practices the histories of family and children and the power struggles involved in transforming not simply a church institution but the entire community surrounding it The overarching argument presented is that the ordinances and practices surrounding baptism present a framework for relations among child parents godparents church and city The design of the baptismal ceremony including liturgy participants and location provided a blueprint of the reformers vision of a well ordered community To comprehend fully the development and spread of Calvinism it is necessary to understand the context of its

origins and how the ideas of Calvin and his Reformed colleagues were received in Geneva before they were disseminated throughout Europe and the world In a broad sense this project explores the tensions among church leaders city authorities parents relatives and neighbours regarding the upbringing of children in Reformed Geneva More specifically it studies the practice of infant baptism as manifested in the baptism ceremony in Geneva the ongoing practices of Catholic baptism in neighbouring areas and the similarities and tensions between these two rituals
