Elliott, F. Gresham, J.C. Witt, 2013-11-11 What do we know about behavioral analysis and intervention in educational settings Given that educational institutions were among the first to embrace the new technology of behavior change in the late 1950s and early 1960s it is apparent that we have had the opportunity to learn a great deal The evolution of the field of behavior therapy has witnessed a change in the behavior therapist from an adolescent fascination with repeatedly demonstrating the effectiveness of the new technology to a mature recognition of the complex implications of the behavioral paradigm for individuals systems and society Many facts now taken for granted were considered impossibilities a mere two decades ago In her 1986 presidential address to Division 25 of the American Psychological Association Beth Sulzer Azaroff reviewed a number of changes in attitude in education that were strongly influenced by behavior therapy Most educators now agree that a everyone can learn b complex skills can be taught c precise general and durable performance can

be taught and d barriers to learning can be overcome In addition we would add that behavior therapy is being applied to increasingly more complex human problems such as social skill deficits internalizing disorders and dysfunctional systems and organizations

CAPD/CCPD in Children Richard N. Fine, Steven R. Alexander, Bradley A. Warady, 2012-12-06 During the past quarter century there has been a renaissance of interest in the use of peritoneal dialysis as the primary dialytic modality for the treatment of children with end stage renal disease ESRD The development of continuous ambulatory peritoneal dialysis APD has facilitated the provision of prolonged dialysis to infants children and adolescents and has provided pediatric nephrologists worldwide with a real opportunity to administer effective dialysis therapy to all patients afflicted with ESRD It has been more than a decade since the initial publication of CAPD CCPD in Children In the interim a great deal of clinical experience with patients receiving peritoneal dialysis has been accumulated and research efforts have substantially increased our understanding of the technique Therefore we felt that a second edition of CAPD CCPD in Children was propitious to update the advances of the past decade
