## **Pediatric Decision Making Clinical Decision Making:**

Pediatric Decision Making Stephen Berman, 1991-01-01 Here is the new edition of the most comprehensive decision making book in the field Completely revised and updated this popular resource uses an algorithmic structured approach to help readers diagnose and manage common clinical problems from infancy through adolescence Now featuring an alphabetical organization and quick access drug tables for ease of use the 4th Edition offers to the point guidance on a wealth of hot topics including adolescent health care neurosurgical disorders febrile disorders behavioral and developmental disorders and more Berman's Pediatric Decision Making Lalit Bajaj, Simon Hambidge, Ann-Christine Nyquist, Gwendolyn Kerby, 2011-06-30 Berman's Pediatric Decision Making uses an algorithmic structured approach to lead you to the right diagnosis and treatment every time Drs Lalit Baja Simon Hambidge Ann Christine Nyquist and Gwendolyn Kerby use evidence based research and flow charts for each presenting complaint or specific disorder to provide quick access to the information you need for effective decision making With updated drug tables revised algorithms and full text online access at [www.expertconsult.com](http://www.expertconsult.com) this streamlined new edition makes it even easier for you to diagnose and manage common clinical problems from infancy through adolescence Rapidly access guidance on diagnosis and management from algorithms for each clinical disorder Treat the full range of diseases and disorders with comprehensive coverage of diagnosis assessment of severity and clinical management Choose the best treatment for each case thanks to indications for surgical interventions as well as expensive diagnostic procedures Access the fully searchable contents online at [www.expertconsult.com](http://www.expertconsult.com) Stay current on recent developments and make effective decisions for movement disorders physical abuse in children sexual abuse in children eating disorders ADHD and other hot topics Find answers quickly and easily with a new table of contents organized into two sections Presenting Complaints and Specific Disorders that reduces the need to flip between chapters Tap into the diverse perspectives of expert authors from all over the country Get only the information you need in the streamlined new edition with shorter more user friendly flow diagrams and fewer specialized chapters *Clinical Decision Making* Bonita E. Broyles, 2006 Contains 40 pediatric case histories and questions based on real life client situations Every case contains an introductory blueprint of variables that must be considered while evaluating that particular scenario which are pertinent concerning the client nursing protocol and setting of care Examples of these variables include the client's age gender or culture the client with a pre existing condition legal issues or communication skills *Medical Decision-Making on Behalf of Young Children* Imogen Goold, Cressida Auckland, Jonathan Herring, 2020-09-17 In the wake of the Charlie Gard and Alfie Evans cases a wide ranging international conversation was started regarding alternative thresholds for intervention and the different balances that can be made in weighing up the rights and interests of the child the parent's rights and responsibilities and the role of medical professionals and the courts This collection provides a comparative perspective on these issues by bringing together analysis from a range of jurisdictions across Europe North and South America Africa and

Asia Contextualising the differences and similarities and drawing out the cultural and social values that inform the approach in different countries this volume is highly valuable to scholars across jurisdictions not only to inform their own local debate on how best to navigate such cases but also to foster inter jurisdictional debate on the issues The book brings together commentators from the fields of law medical ethics and clinical medicine across the world actively drawing on the view from the clinic as well as philosophical legal and sociological perspectives on the crucial question of who should decide about the fate of a child suffering from a serious illness In doing so the collection offers comprehensive treatment of the key questions around whether the current best interests approach is still appropriate and if not what the alternatives are It engages head on with the concerns seen in both the academic and popular literature that there is a need to reconsider the orthodoxy in this area

*Pediatric Decision-Making Strategies E-Book* Albert J. Pomeranz, Svapna Sabnis, Sharon Busey, Robert Kliegman, 2015-01-08 Designed to accompany Nelson Textbook of Pediatrics and Nelson Essentials of Pediatrics Pediatric Decision Making Strategies is a concise user friendly reference uses a unique algorithmic approach to facilitate diagnosis testing and basic treatment of common pediatric disorders For any given symptom an algorithm guides the reader through the appropriate investigative procedures and lab tests to reach definitive diagnoses An updated format that enhances usability makes this medical reference book a must have for medical students residents and practitioners treating pediatric patients Explore concise focused and updated algorithms that cover the most common pediatric problems Gain imperative knowledge from an expert author team that includes Dr Robert M Kliegman of the Nelson line of textbooks as well as references to related chapters in both Nelson Textbook of Pediatrics and Nelson Essentials of Pediatrics Quickly access important information with a new standard format and trim size for practicality and usability Expert Consult eBook version included with purchase This enhanced eBook experience allows you to search all of the text figures algorithms and references from the book on a variety of devices
