Baltimore and Ohio Employees Magazine, 1936 **The Texaco Star**, 1927 **Around Bradford** Sally Ryan Costik, Susan M. Pascal, 2013 When people think of Bradford in any historical sense they think of oil and the remarkable effect that it has had on the community The discovery of black gold in the late 1870s literally erased the earlier image of a backwoods lumber town and firmly established Bradford as a place of millionaires and mansions people and progress This latter image is so strong however that a very important part of the history of Bradford is often overlooked a phenomenon that this volume strives to correct Each photograph is from the collection of the Bradford Landmark Society and many of these pictures have never before been published Covering the era from the late 1850s to the mid 1940s *Around Bradford* focuses on a time that people regard with fondness and hold firmly in their memories We can never hear what those Bradfordians heard and we can never feel what they felt but we can see what they saw through photographs *History of the Counties of McKean, Elk, Cameron and Potter, Pennsylvania* Michael A. Leeson, 1978 *Locomotive Engineers Journal*, 1927 **The Western Pennsylvania Historical Magazine**, 1967 *A Locomotive Engineer's Album* George B. Tait Jr., 2018-12-01 *The Wildcatters* An Informal History of Oil Hunting in America takes a close look at the early histories of the chief oil fields of the United States with special emphasis on the fields

of Pennsylvania West Virginia and Ohio The author himself the son of a successful oilman from Blackford County Indiana describes how oilmen without much if any knowledge of geology migrated westward from Pennsylvania and West Virginia into Ohio Kansas Oklahoma Texas and even into California and how these wildcatters a term for an individual who drills wildcat wells which are exploration oil wells drilled in areas not known to be oil fields would often drill holes that would prove to be successful and bring in new fields Tait explores the very first serious attempt in the United States to develop an oil industry which was in 1859 in Titusville Pennsylvania and how the great Appalachian oil field was developed with exploration rapidly carried into West Virginia and continued into Ohio and Indiana A well drilling in Findlay Ohio in 1884 discovered gas resulting in the opening of the great Lima Indiana oil field and the great interior basin fields in Illinois were developed around 1937 largely through the use of geophysics Samuel W Tait s book provides an impressive historical contribution to the history of oil discovery east of the Mississippi River *More Unusual Railways* John Robert Day, 1960
