After American Studies Jeffrey Herlihy-Mera,2017-07-20 After American Studies is a timely critique of national and transnational approaches to community and their forms of belonging and trans patriotisms Using reports in multicultural psychology and cultural neuroscience to interpret an array of cultural forms including literature art film advertising search engines urban planning museum artifacts visa policy public education and ostensibly non state media the argument fills a gap in contemporary criticism by a focus on what makes cultural canons symbolically effective or not for an individual exposed to them The book makes important points about the limits of transnationalism as a paradigm evidencing how such approaches often reiterate presumptive and essentialized notions of identity that function as new dimensions of exceptionalism In response to the shortcomings in trans national criticism the final chapter initiates a theoretical consideration of a postgeographic and postcultural form of community and of cultural analysis

Re-framing the Transnational Turn in American Studies Winfried Fluck,Donald E. market and its many processes of transatlantic production distribution reception and criticism Rather than dwelling on comparisons or engaging with the notion of influence transatlantic literary studies seek to understand North American British and Irish literature as linked with each other by virtue of multi layered historical and cultural ties and pay special attention to the many refractions and mutual interferences that have characterized these traditions since colonial times This handbook brings together articles that summarize some of the crucial transatlantic concepts debates and topics The contributions contained in this volume examine periods in literary and cultural history literary movements individual authors as well as genres from a transatlantic perspective combining theoretical insight with textual analysis

Discrepant Parallels Gillian Roberts, 2015-05-01 The 49th parallel has long held a symbolic importance to Canadian cultural nationalists as a strong though permeable border. But in contemporary Canadian culture, the border has multiple meanings and imbalances of cultural power occur both across the Canada-US border as well as within Canada. *Discrepant Parallels* examines divergent relationships to and investments in the Canada-US border in a variety of media such as travel writing, fiction, poetry, drama, and television. Tracing cultural production in Canada since the 1980s through the periods of FTA and NAFTA negotiations and into the current post-9/11 context, Gillian Roberts grapples with the border's changing relevance to Canadian nationalist, Indigenous, African Canadian, and Latin American perspectives. Drawing on Kant and Derrida, she theorizes the 49th parallel to account for the imbalance of cultural, political, and economic power between the two countries, as well as the current challenges to dominant definitions of Canadianess. Focusing on a border that is often overshadowed by the contentious US-Mexico divide, *Discrepant Parallels* analyzes the desire to establish Canadian-American sameness and difference from a multitude of perspectives, as well as its implications for how Canada is represented within and outside its national borders.

Aberrations in Black Roderick A. Ferguson, 2013-11-30 A hard-hitting look at the regulation of sexual difference and its role in circumscribing African American culture. The sociology of race relations in America typically describes an intersection of poverty, race, and economic discrimination. But what is missing from the picture? Sexual difference can be as instructive as what is present. In this ambitious work, Roderick A. Ferguson reveals how the discourses of sexuality are used to articulate theories of racial difference in the field of sociology. He shows how canonical sociology—Gunnar Myrdal, Ernest Burgess, Robert Park, Daniel Patrick Moynihan, and William Julius Wilson—has measured African Americans' unsuitability for a liberal capitalist order in terms of their adherence to the norms of a heterosexual and patriarchal nuclear family model. In short, to the extent that African Americans' culture and behavior deviated from those norms, they would not achieve economic and racial equality. *Aberrations in Black* tells the story of canonical sociology's regulation of sexual difference as part of its general regulation of African American culture. Ferguson places this story within other stories: the narrative of capital's emergence and development, the histories of Marxism and revolutionary nationalism, and the novels that depict the gendered and sexual idiosyncrasies of African American culture. Works by Richard Wright, Ralph Ellison, James Baldwin, Audre Lorde, and Toni

Morrison In turn this book tries to present another story one in which people who presumably manifest the dysfunctions of capitalism are reconsidered as indictments of the norms of state capital and social science Ferguson includes the first ever discussion of a new archival discovery a never published chapter of Invisible Man that deals with a gay character in a way that complicates and illuminates Ellison s project Unique in the way it situates critiques of race gender and sexuality within analyses of cultural economic and epistemological formations Ferguson s work introduces a new mode of discourse which Ferguson calls queer of color analysis that helps to lay bare the mutual distortions of racial economic and sexual portrayals within sociology

Beyond Imagined Uniqueness William Glass,2010-08-11

Beyond Imagined Uniqueness Nationalisms in Comparative Perspectives is a collection of essays from a variety of disciplines and theoretical perspectives that explore the contentious issue of nationalism in historical and contemporary settings They adopt an interdisciplinary approach to the topic of nationalism and its permutations and modes of expression The unspoken context of these essays is the trends subsumed under the processes of globalization Though the world may be becoming more integrated economically these essays suggest social cultural and political forces historically rooted keep the nation and national identity alive and well The comparative perspectives offered by the essays appear in two ways one set is the explicit comparisons of nations made by several authors within their essays and between the essays themselves when the authors focus on developments within a single nation A second and indeed more thought provoking set of comparisons come from the way the essays address nationalism in disparate scholarly approaches that include visual culture history sociology and literature Moreover while traditional themes in the study of nationalism are not ignored these essays expand the discussion with case studies of nationalism in Turkey Asia and Eastern Europe Even when nationalism is considered in those areas that have been the central focus of nationalism studies Western Europe and the USA the authors bring unique voices to the conversation as in the use of portraiture as a vehicle of nationalism in Cold War America or children s literature shaping a Swedish American identity or in the idea of a covenant as a source of Dutch nationalism or the role of minority languages in West European societies

Section One of this volume contains essays that examine the terrain of the national imaginary

through language monuments and visual culture Several of the essays in this traverse the cultural sites of representation and commemoration of the nation looking carefully at the politics of memory in places material objects and texts Section Two provides more individual case studies of nations though many of these essays engage significant regional and international tensions especially in a post Cold War world that has often influenced the internal dynamics of nation building Section Three moves the focus away from the nation to immigrant communities especially those in the United States Canada and the Caribbean Diasporas throughout the world have challenged many theories about the nation as crossing borders becomes the norm rather the exception
