**Russian Minority Politics in Post-Soviet Latvia and Kyrgyzstan** Michele E. Commercio, 2011-06-06 The collapse of the Soviet Union suddenly rendered ethnic Russians living in non Russian successor states like Latvia and Kyrgyzstan new minorities subject to dramatic political economic and social upheaval As elites in these new states implemented formal policies and condoned informal practices that privileged non Russians ethnic Russians had to react In Russian Minority Politics in Post Soviet Latvia and Kyrgyzstan Michele E Commercio draws on extensive field research including hundreds of personal interviews to analyze the responses of minority Russians to such policies and practices In particular she focuses on the role played by formal and informal institutions in the crystallization of Russian attitudes preferences and behaviors in these states Commercio asks why there is more out migration and less political mobilization among Russians in Kyrgyzstan a state that adopts policies that placate both Kyrgyz and Russians and less out migration and more political mobilization among Russians in Latvia a state that adopts policies that favor Latvians at the expense of Russians Challenging current thinking she suggests that the answer to this question lies in the power of informal networks After the fall of the Soviet Union the Communist party Komsomol youth organization and KGB networks were transformed into informal networks Russians in Kyrgyzstan were for various reasons isolated from such networks and this isolation restricted their access to the country s private sector making it difficult for them to create effective associations capable of representing their interests This resulted in a high level of Russian exit and the silencing of Russian voices In contrast Russians in Latvia were well connected to such networks which provided them with access to the country s private sector and facilitated the establishment of political parties and nongovernmental organizations that represented their interests This led to a low level of Russian exit and high level of Russian voice Commercio concludes that informal networks have a stronger influence on minority politics than formal institutions

interested general reader      **After Communism: Perspectives on Democracy (p)** Donald R. Kelley, 2003 In this collection top scholars of Soviet and post Soviet studies convene to explore communism's aftermath They consider state building and constitutionalism the transition to market capitalism and democracy across Eastern Europe the political development of Muslim states the complex and differential developments of electoral systems the risks and opportunities of nationalism and new political and economic activities in Russia from corruption to contracts Editor Donald Kelley introduces the volume with a synthesis of the theoretical and empirical findings of the volume and his brief chapter introductions place each contribution in relation to the other essays and to larger debates on democratization      *Humanitarian Aid in Post-Soviet Countries* Laetitia Atlani-Duault, 2008-01-07 Published originally in French this revised and updated English edition presents an original and insightful approach to the problem of humanitarian aid in the Central Asian and Caucasus region      Historical Narratives in the Soviet Union and Post-Soviet Russia T. Sherlock, 2007-04-16 Establishing a causal link between historical discourse and political change this important book describes the role of historical discourse in establishing maintaining or destroying elite and mass political identities in Soviet and post Soviet space      What Happened to the Soviet Union? Christopher I. Xenakis, 2002-09-30 Xenakis examines the responses of Soviet experts in American academia primarily political scientists but also economists and defense scholars who specialized in the USSR to the unfolding evidence of Soviet reform during the 1970s and 1980s and to its ultimate collapse He concludes that American Sovietologists and other political scientists were more responsive to the Cold War consensus to the needs of the State Department Defense and CIA policy makers and to the official Washington line of the moment than to the changing face of the Soviet Union As Xenakis makes clear many of the Cold War ideas and attitudes shared by Sovietologists the notion that the USSR was an evil empire the idea that Soviet society was irredeemably xenophobic and indolent that the Soviet political and economic system could not be fixed or reformed and the view that the best way for Washington to deal with Moscow's influence was to contain the USSR through arms races global and proxy wars were reminiscent of the policies and arguments of the Truman and Eisenhower administrations not to the facts on the ground in the 1970s and 1980s An important work for scholars students and researchers involved with Soviet and Russian studies international political and military affairs intellectual history and the relationship between academia and the government      *Nationalism and the Drive for Sovereignty in Tatarstan 1988-1992* S. Kondrashov, 1999-09-22 This study gives a detailed analysis of the origins and rise of Tatar nationalism one of the strongest national movements in the Russian Federation in the Gorbachev period It explores the nature of the Tatars grievances and examines why and how nationalism grew so strong in Tatarstan The study is based on extensive use of local press in Russian and Tatar and ethno sociological research in the republic The book is intended for specialists in Soviet Russian politics and ethnic relations      **Ukraine** Taras Kuzio, 2002-09-11 *Ukraine State and Nation Building* explores the transformation of Soviet Ukraine into an independent state and examines the new elites and their role in the state building process as well as

other attributes of the modern nation state such as borders symbols myths and national histories Extensive primary sources and interviews with leading members of Ukrainian elites show that state building is an integral part of the transition process and cannot be divorced from democratization and the establishment of a market economy **Power, Networks and**

**Violent Conflict in Central Asia** Idil Tunçer-Kılavuz, 2014-06-27 When the five Central Asian republics gained independence from the Soviet Union in 1991 expectations of violent conflict were widespread Indeed the country of Tajikistan suffered a five year civil war from 1992 to 1997 The factors that the literature on civil wars in general and on the Tajikistan civil war in particular cites as the causes of war were also present in Uzbekistan but this country had a peaceful transition Examining this empirical puzzle by isolating the crucial factors that caused war to break out in Tajikistan but not Uzbekistan this book applies a powerful comparative approach to the broader question of why civil wars occur Based on fieldwork in both countries it challenges many common explanations of civil war both generally and in Tajikistan in particular This includes highlighting the importance of elites power perceptions which have their origins in the interaction of structural process and network related variables Without examining these interactions macro structural explanations alone cannot explain the occurrence of civil war in one country and its absence in another Applying the insights of bargaining theories of war from the literature on international relations to the civil war in Tajikistan this book will be of interest to students of violent conflict civil wars Central Asia and Asian Politics **Video, War and the Diasporic Imagination** Dona

Kolar-Panov, 2003-09-02 Video War and the Diasporic Imagination is an incisive study of the loss and re construction of collective and personal identities in ethnic migrant communities Focusing on the Croatian and Macedonian Communities in Western Australia Dona Kolar Panov documents the social and cultural changes that affected these diasporic groups on the fragmentation of Yugoslavia **International Law in a Multipolar World** Matthew Happold, 2013-03-01 Since the

creation of the United Nations in 1945 international law has sought to configure itself as a universal system Yet despite the best efforts of international institutions scholars and others to assert the universal application of international law its relevance and applicability has been influenced if not directed by political power Today the decline of the West and ascent of China and India pose particular challenges for international law and institutions The international system appears to be moving towards multipolarity with various sites of power competing to exert influence in the world today With contributors from a variety of countries providing perspectives from the disciplines of international law and international relations theory International Law in a Multipolar World addresses the implications that multipolarity poses for the international legal system Contributors including Jean d'Aspremont Jrg Kammerhofer Alexander Orakhelashvili Christian Pippan and Nigel White explore issues such as the use of force governance and democracy regionalism and the relevance of the United Nations in a multipolar world while considering the overarching theme of the relationship between power and law International Law in a Multipolar World is of particular interest to academics and students of public international law international relations theory

and international politics      *Russian Nationalism and the Russian-Ukrainian War* Taras Kuzio, 2022-01-26 This book is the first to provide an in depth understanding of the 2014 crisis Russia's annexation of Crimea and Europe's de facto war between Russia and Ukraine The book provides a historical and contemporary understanding behind President Vladimir Putin Russia's obsession with Ukraine and why Western opprobrium and sanctions have not deterred Russian military aggression The volume provides a wealth of detail about the inability of Russia from the time of the Tsarist Empire throughout the era of the Union of Soviet Socialist Republics USSR and since the dissolution of the latter in 1991 to accept Ukraine as an independent country and Ukrainians as a people distinct and separate from Russians The book highlights the sources of this lack of acceptance in aspects of Russian national identity In the Soviet period Russians principally identified themselves not with the Russian Soviet Federative Republic but rather with the USSR as a whole Attempts in the 1990s to forge a post imperial Russian civic identity grounded in the newly independent Russian Federation were unpopular and notions of a far larger Russian imagined community came to the fore A post Soviet integration of Tsarist Russian great power nationalism and White Russian migr chauvinism had already transformed and hardened Russian denial of the existence of Ukraine and Ukrainians as a people even prior to the 2014 crises in Crimea and the Donbas Bringing an end to both the Russian occupation of Crimea and to the broader Russian Ukrainian conflict can be expected to meet obstacles not only from the Russian de facto President for life Vladimir Putin but also from how Russia perceives its national identity      *Imperial Ends* Alexander J. Motyl, 2001-08-01 Despite their historical importance empires have received scant attention from social scientists Now Alexander J Motyl examines the structure dynamics and continuing relevance of empire and asks Why do empires decline Why do some empires collapse And why do some collapsed empires revive Rejecting choice centered theories of imperial decline Motyl maintains that the very structure of empires promotes decay and that decay in turn facilitates the progressive loss of territory Although most major empires have in fact declined in this manner some such as the Soviet Union have collapsed suddenly and comprehensively Motyl explains how and why collapse occurs why such an outcome is hard to foresee and why some collapsed empires revive While broad ranging historically and empirically *Imperial Ends* focuses on five modern empires the Soviet Romanov Ottoman Habsburg and Wilhelmine Examining the possibility of a revival of the Soviet empire Motyl points out that the expansion of NATO and the European Union along with increasing globalization will isolate Russia and its neighbors promoting their dependence upon one another and perhaps facilitating the rise of the former core With boldly stated conclusions and concise analytical interpretations *Imperial Ends* cohesively illustrates to policymakers and social scientists alike the importance of possible imperial revivals and the rise of future empires      **Eastern Europe, Russia and Central Asia 2003** ,2000      Understanding Ethnic Conflict Raymond Taras, 2015-08-07 *Understanding Ethnic Conflict* provides all the key concepts needed to understand conflict among ethnic groups Including approaches from both comparative politics and international relations this text offers a model of ethnic

conflict's internationalization by showing how domestic and international actors influence a country's ethnic and sectarian divisions. Illustrating this model in five original case studies, the unique combination of theory and application in *Understanding Ethnic Conflict* facilitates more critical analysis of contemporary ethnic conflicts and the world's response to them. **The American Bibliography of Slavic and East European Studies** Patt Leonard, Rebecca Routh, 2020-02-27

*Security Community* Sandis Straders, 2020-09-02 This book analyzes the small Baltic States and their integration into the Euro-Atlantic structures from the perspective of the foreign policies of major powers: the United States, Russia, and major European powers and institutions towards the region or each of the Baltic States. While focusing primarily on the Post-Cold War period, it will also cover years of Baltic occupation, areas and matters related to their motivation and means to join the EU and NATO. Smallness, weaknesses, and sensitivities, as well as historic experiences of three Baltic States, made the task to integrate with the Euro-Atlantic community urgent. This will be a valuable source of information for all interested in the Baltic States' foreign policies of major powers, shaping events in the region, the surge of the Euro-Atlantic community, and the Post-Cold War enlargement allowing small Baltic States to remedy their inherent security weaknesses. **Inter-Republican Co-operation**

**of the Russian Republic** Anwara Begum, 2019-01-15 First published in 1997, this book explored Russia's politics at an important phase in the life of the Russian state. Focusing on the different types of cooperative interactions between Russia and the fourteen other republics of the former Soviet Union from mid-1990 to late '91, the book brings out the nature of the Russians' effort to reconfigure its ties with these republics. At a time when the Soviet empire, with an aim to limit the damage to the interests of the Russians, as the author concludes, Russia's inter-republican cooperation was a carefully thought-out policy to undermine the Gorbachev government's effort to control centre-periphery relations and manage the uncontrolled break-up of the Soviet Union. Russia signalled through its cooperative relations with the republics that it was willing to accept the republics as sovereign and view its own interaction with them as inter-state relations. Institutional Legacies of

Communism Karl Cordell, Timofey Agarin, Alexander Osipov, 2013-07-03 Twenty years after the demise of communist policy, this book evaluates the continuing communist legacies in the current minority protection systems and legislations across a number of states in post-communist Europe. The fall of communism and the process of democratisation across post-communist Europe led to considerable change in minority protection with new systems and national political institutions.

either developed or copied In general the new institutions reflected the practices and experiences of western European states and were installed upon advice from European security organisations Yet many ideas legislative frameworks policies and practices remained open to interpretation on the ground With case studies on a diverse set of post communist polities including Slovakia Bosnia Macedonia Ukraine Estonia Croatia the Baltic States and Russia expert contributors consider how the institutional legacies of the communist past impact on policies designed to support minority communities in the new European democracies Providing unique empirical material and comparative analyses of ethnocultural diversity management during and after communism this book will be of interest to students and scholars of international relations European politics political geography post communism ethnic politics nationalism and national identity
