Quest For The Golden Circle The Four Corners And The Metropolitan West 1945 197:

Quest for the Golden Circle Arthur R. Gómez, 2000 Until World War II the Four Corners Region where New Mexico Colorado Utah and Arizona meet was a collection of isolated rural towns In the postwar baby boom era however small communities like Farmington New Mexico became bustling municipalities with rapidly expanding economies In *Quest for the Golden Circle* Arthur Gomez traces the development of the Four Corners two industries mining and tourism to discover how each contributed to the economic and urban transformation of this region during the 1950s and 1960s Focusing on four cities Durango Colorado Moab Utah Flagstaff Arizona and Farmington New Mexico Gomez chronicles how these towns played key roles in the West's dramatic postwar expansion Cities such as Denver Albuquerque Phoenix Tucson El Paso and Salt Lake City all grew through use of the abundant petroleum uranium natural gas timber and other natural resources extracted from the Four Corners region But the energy boom in these towns was not to last With the arrival of foreign oil bringing economic growth to a halt in the early 1970s town leaders turned again to the land to stimulate their economy This time the resource was a seemingly inexhaustible one tourism Gomez examines how business minded citizens marketed the area's scenic wonders and established the entire region as a tourist destination Their efforts were further assisted by the selection of stunning federal lands Mesa Verde Grand Canyon and Arches National Parks as treasures protected and promoted by the National Park Service Both mining and tourism however were beset by complex new problems and issues Extensive highways for instance were planned to bisect a Navajo reservation As Gomez illustrates the growing cities in the Four Corners region felt tremendous competing pressures between outside business powers and local needs as their extractive economy boomed and busted and as they then struggled to attract tourism dollars In addition he highlights the prominent roles played by federal agencies like the Atomic Energy Commission and the National Park Service in shaping regional destiny An outstanding analysis of the complexities of postwar development *Quest for the Golden Circle* successfully illuminates the history of one region within the larger story of the modern American West *Hispanics in the Mormon Zion, 1912-1999*

Jorge Iber, 2002-01-09 As immigrants came to the United States from Mexico the term Greater Mexico was coined to specify the area of their greatest concentration America's southwest border was soon heavily populated with Mexico's people culture and language In *Hispanics in the Mormon Zion 1912 1999* however Jorge Iber shows this Greater Mexico was even greater than presumed as he explores the Hispanic population in one of the whitest states in the Union Utah By 1997 Hispanics were a notable part of Utah's population as they could be found in all of the state's major cities working in tourist industrial and service occupations Although these characteristics reflect the population trends in other states Iber centers on those aspects that set Utah's Hispanic comunidad apart from the rest Iber focuses on the significance of why many in the Utah Hispanic comunidad are leaving Catholicism for the Church of Jesus Christ of Latter day Saints LDS He examines how conversion affects the Spanish speaking population and how these Hispanic believers are affecting the Mormon Church Iber also

concentrates on the geographic separation of Hispanics in Utah from their Mexican Latin American New Mexican and Coloradoan roots He examines patterns of Hispanic assimilation and acculturation in a setting which is vastly different from other Western and Southwestern states Hispanics in the Mormon Zion 1912 1999 is an important source for scholars in ethnic studies American studies religion and Western history Drawing on both oral and written histories collected by the University of Utah and many notable organizations including the American G I Forum SOCIO Centro de la Familia the Salt Lake Catholic Diocese and the LDS Church Iber has compiled an interesting and informative study of the experience of Hispanics in Utah which represents another fragment in the expanding mosaic that is the history of the Spanish speaking people of the United States

The Global Interior Megan Black,2018-10-01 Megan Black argues that the U S Department of the Interior known for managing domestic natural resources and operating public parks constantly supports and projects American power abroad In the guise of sharing expertise globally Interior has helped the U S maintain key benefits of empire without the burden of playing the imperialist villain
