

RHYMING WORDS

OBJECTIVES:

- To introduce children to rhyming words.
- To be able to identify rhyming words

LESSON PLAN:

Firstly write down these pair of words on a paper or board:

pan- fan	lip-ear	flow-glow	year-hear	look-book
bed-eye	gun-fun	nose-hose	tree- ring	play-tray

Ask the children to read the words out loud. Then, specifically ask for the ending sounds of words of each pair. As they read each pair, lead the question- is the ending sound of both the words same?

Repeat the same for all the pairs. Great job! There is a special term for the words having the same sound at the end- rhyming words.

Yes! the words that have similar or same ending sounds are called as RHYMING WORDS.

Now, let us look at some more rhyming words:

cat - bat- sat - fat - pat
pot - bot - cot - dot - got
pin - fin - tin - bin - win
ban - can - fan - tan - van
joke - woke - poke - yoke
hole - role - sole - pole

The first of the report's five chapters is an introduction. The second chapter begins with a brief description of the major issues in the area of beginning reading and concludes with a summary of important research-based recommendations for instruction. The third chapter outlines the evaluation criteria for a content analysis of the programs and provides operational definitions of evaluation criteria. The chapter concludes with an analysis of the extent to which over 50 instructional programs and approaches reflect research in beginning reading. The fourth chapter presents a cost analysis of each program evaluated and a description of how the cost analysis was determined. The final chapter contains some conclusions and cautions about selecting and designing effective reading instructional programs.

Early Reading Instruction Diane McGuinness,2006-01-20

Early Reading Instruction is a comprehensive analysis of the research evidence from early writing systems to computer models of reading

In this book Diane McGuinness provides an innovative solution to the reading war the century old debate over the efficacy of phonics sound based versus whole word meaning based methods

She has developed a prototype a set of elements that are critical to the success of a reading method

McGuinness shows that all writing systems without exception are based on a sound unit in the language

This fact and other findings by paleographers provides a platform for the prototype

Other elements of the prototype are based on modern research

For example observational studies in the classroom show that time spent on three activities strongly predicts reading success

learning phoneme symbol correspondences practice at blending and segmenting phonemes in words and copying writing words phrases and sentences

Most so called literacy activities have no effect and some like sight word memorization have a strongly negative effect

The National Reading Panel 2000 summarized the research on reading methods

after screening out thousands of studies that failed to meet minimum scientific standards In an in depth analysis of this evidence McGuinness shows that the most successful methods children reading a year or more above age norms include all the elements in the prototype Finally she argues because phonics type methods are consistently shown to be superior to whole word methods in studies dating back to the 1960s it makes no sense to continue this line of research The most urgent question for future research is how to get the most effective phonics programs into the classroom Interventions for Reading Problems Edward J.
