Scientific Temper And Education

D.Bhaskara Rao

Scientific Temper And Education:

Scientific Temper and Education Hem Lata Singh, 1990-01-01 **Science Education for Teacher Trainees and In-service Teachers** R. M. KALRA, 2008-01-01 This book in the field of science education offers a modern approach to education and construction of the school science curriculum. It lays emphasis on the role of science in transforming the thinking and behaviour pattern of students. The book explains the philosophy of the processes of science teaching with a focus on values as an integral part of the programme examination and evaluation in science education and generalizations regarding the learning processes and their implications for science education. Topics such as methods of science teaching, laboratory facilities, objective based science curriculum development and interdisciplinary and integrated approach to science teaching at the school level are discussed in detail. Besides the topics such as Action Research and Forgotten Silent Majority have also been incorporated to encourage excellence in science education among academics. Key Features: Focuses on innovative methods for science teaching. Discusses science education in the context of globalization. Includes interesting thought provoking questions at the end of each chapter to encourage group discussions. This book is intended for the students undergoing elementary teacher training courses, nursery teacher training courses and courses in B Ed, B A Education and M A Education. It will also be immensely helpful to in-service science teachers for the effective teaching of science. SCIENTIFIC ATTITUDE, SCIENCE INTEREST AND ACHIEVEMENT IN SCIENCE OF SECONDARY SCHOOL STUDENTS Dr. Yendluri Chakradhara Singh, Science has revolutionised the face of the earth with its too many wonderful inventions and discoveries. When seen in depth, science touches all of us and our life at every step. Science influenced the life of even the most primitive human being who thought of safety from the poisonous berry and who stored up some initial ideas about inventing how to make fire, building a hut, sharpening a spear and fishing in the waters. This accumulation of experience distinguishes man from animal which has to rely on instinct. Our life is completely dependent on science and its fruits surround us on all sides. The process of applying science to the needs of the living has moved quickly to a great extent.

Educational Aspirations And Scientific Attitudes Kalluri Durga Rani, 2003 Contents: Educational Aspirations and Scientific Attitudes, The Problem and Its Significance, Related Research, Research Procedure, Analysis of Data, Conclusions, Discussions and Suggestions.

Scientific Attitude D. Bhaskara Rao, 2003 Science educators have included the development of scientific attitude among the general aims of science education since the beginning of the present century. To many science educators, a man with scientific attitude looks for the natural causes of events, is open minded towards the work and opinion of others and towards information related to his problem, forms opinion and conclusions on adequate evidence, evaluates techniques and procedures used and information obtained and is curious concerning the things he observes. Contents: Introduction, Related Literature, Research Design, Data Analysis, Summary, Conclusions and Discussion.
