Scientific Management Of Library Operations

S. P. Agrawal, Pushpa Rani Sharma

Scientific Management Of Library Operations:

Scientific Management of Library Operations Richard M. Dougherty, 1966 **Scientific Management of Library Operations** Richard M. Dougherty, Fred John Heinritz, 1982 Library science textbook on principles of scientific management applied to library operations describes management techniques and tools for use in systems analysis of information processing procedures presents instructions for the preparation of forms block diagrams flow charts etc considers elements of ergonomics work study sampling and library statistics esp Evaluation techniques to determine costs of activities Bibliographies and illustrations Scientific Management of Library Operations Richard M. Dougherty, Fred John Heinritz, 1966 This new and much improved edition should be a standard tool in the working collection of all library managers WILSON LIBRARY BULLETIN **Scientific Management of Library Operations** Leo Schneider, 1966

Library and Information Center Management Barbara B. Moran, Claudia J. Morner, 2017-11-16 This essential single volume textbook supplies a comprehensive introduction to library management that addresses all the functions of management specifically within the ever evolving modern library environment Strategic planning Facilities management Leadership ethics communication and motivation Human resources and staffing Change library development and innovation Marketing Measurement and evaluation Fiscal responsibility and control These are just some of the wide range of responsibilities and necessary skills of contemporary library managers not all of which are typically covered in detail in LIS educational programs Now updated and expanded for its ninth edition *Libraries Unlimited's Library and Information Center Management* is the core management text for library information science programs This latest text adds new information on grant writing as well as more about budgets marketing financial management assessment and evidence based management The authors include various real world examples from international settings to help readers understand and conceptualize the place of the library and information center in our global world Each chapter ends with two helpful sections that present numerous examples and opportunities to apply newly gained information Practice Your Skills and Discussion Questions

Streamlining Library Services Richard M. Dougherty, 2008-02-15 Despite technologies many basic library activities still lend themselves to analysis and improvement Author Richard Dougherty provides numerous examples and easy to apply tools and techniques that can be used to analyze what libraries are doing how they are doing it and how much time is required to do it These tools include block diagrams check sheets flow process charts work flow diagrams flow charts throughput analysis self administered diary studies and work sampling techniques Specific examples from all areas of library operations are presented to illustrate how techniques can be applied to analyze what occurs at critical service areas *Streamlining Library Services* provides detailed information on how to diagnose problem areas using such tools as Pareto and fishbone charts use techniques such as brainstorming and focus groups organize a work flow study and build and present cost studies Special emphasis is placed on activities that should occur after the analysis is concluded including data analysis

as well as reporting study results and making recommendations to management and guidelines are provided for managers and staff as they strive to streamline activities The final two chapters should be of special interest to managers The first chapter is devoted to implementation issues and strategies that must be addressed as new workflows and services are introduced and the latter chapter focuses on organizational change issues and strategies for building staff support toward change
