Scorpio Descending:

Scorpio Ascendant Secrets Saket Shah,2020-01-05 There are times when people just can't identify with the attributes of their Sun or Moon sign. In fact, they may feel that they are an antithesis of their zodiac sign. You may also have observed it. Your Leo friend may not seek attention, maybe because he or she has a Capricorn ascendant. Your Sagittarius friend is very possessive, maybe because he or she has a Scorpio Ascendant. It is easy to understand why some people do not correspond to their Sun or Moon signs once you know about what is the rising sign or Ascendant in a horoscope. Ascendant is the degree of the zodiac sign that was highest on the Eastern horizon at the time and place of birth. When seen from Earth, the sky seems to move so the entire zodiac can be observed in a span of 24 hours a day, which means the rising sign changes on the Eastern horizon every 2 hours because there are 12 zodiac signs. People tend to associate their physical, emotional, and spiritual attributes more with the rising sign at times.

Scorpio Alex McDonough,2023-12-29 The Epic Saga of an Alien Trapped in Medieval Times. Wonderful. Intriguingly worked out characters. I'm eager for Scorpio's next adventure. Bruce Coville. 1351. Medieval France. An Alien Makes First Contact. Genocide on his home planet drove Scorpio to take a blind leap into the time vortex, only to land on Earth in the year 1351 in a mediaeval city full of violence and intrigue. He found a friend in the young and beautiful Leah de Bernay, who is herself pursued by enemies; her father has been wrongly accused of murder and thrown into prison. As Scorpio and Leah race to prove her father's innocence, they are chased by the mysterious and vicious Hunters, the deadly assassins who drove Scorpio from his home planet. They know that he travelled through time with the help of a glowing orb of power, and they mean to have it. Pursued at every step by the Hunters, Scorpio and Leah jump through time to Elizabethan London to seek help from Queen Elizabeth's astrologer. But time is running out for them to decipher the secret of the orb if they are to save themselves from the Hunters and Scorpio's home planet from destruction. The first in a richly textured series.
