Falconer on the Edge Rachel Dickinson,2009-05-11 In this portrait of a man obsessed Dickinson presents a clear picture of the strange and fascinating lives of modern falconers Ted Floyd editor Birding Falconer Steve Chindgren is a man willing to make extreme sacrifices to continue practicing the sport that has ruled his life This portrait of him and the world he inhabits conveys a sense of falconry s allure the unpredictable nature of the hunt and the soaring exhilaration of success Further exploration unveils the enormous emotional cost to a falconer who establishes an extraordinary tie to his birds When in the space of two days Chindgren loses two birds that he d been training for years he is plunged into a profound depression that is only deepened when Jomo his best bird slows down because of old age In addition to this challenge Chindgren faces the danger to falconry that the modern world presents Grouse habitat is being degraded by mining agriculture and gas industry interests And the number of falconers is dwindling the corps is graying and has few acolytes Falconry is a sport that requires persistence stoicism and sacrifice in this captivating account Dickinson illuminates a fascinating subculture and one of its most hardcore personalities

The Challenger Sale Matthew Dixon,Brent Adamson,2011-11-10 What s the secret to sales success If you re like most business leaders you d say it s fundamentally about relationships and you d be wrong The best salespeople don t just build relationships with customers They challenge them The need to understand what top performing reps are doing that their average performing colleagues are not drove Matthew Dixon Brent Adamson and their colleagues at Corporate Executive Board to investigate the skills behaviors knowledge and attitudes that matter most for high performance And what they discovered may be the biggest shock to conventional sales wisdom in decades Based on an exhaustive study of thousands of sales reps across multiple industries and geographies The Challenger Sale argues that classic relationship building is a losing approach especially when it comes to selling complex large scale business to business solutions The authors study found that every sales rep in the world falls into one of five distinct profiles and while all of these types of reps can deliver average sales performance only one the Challenger delivers consistently high performance Instead of bludgeoning customers with endless facts and features about their company and products Challengers approach customers with unique insights about how they can save or make money They tailor their sales message to the customer s specific needs and objectives Rather than acquiescing to the customer s every demand or objection they are assertive pushing back when necessary and taking control of the sale The things that make Challengers unique are replicable and teachable to the average sales rep Once you understand how to identify the Challengers in your organization you can model their approach and embed it throughout your sales force The authors explain how almost any average performing rep once equipped with the right tools can successfully reframe customers expectations and deliver a distinctive purchase experience that drives higher levels of customer loyalty and ultimately greater growth
