Scotland An Oxford Archaeological Guide:

Scotland Anna Ritchie, James Neil Graham Ritchie, 1998 Steeped in history and renowned for the beauty of its landscape Scotland is an ideal location for the archaeological traveller 250 sites *Scotland* Anna Ritchie, 1998 **Reading Between the Lines** Kenneth Brophy, 2015-10-05 Reading Between the Lines The Neolithic Cursus Monuments of Scotland is the first systematic analysis of Scotland's cursus monuments and is written by one of the foremost scholars of the Neolithic in Scotland Drawing on fifteen years of experience of cropmark interpretation as well as his involvement in several excavations of cursus monuments and contemporary sites Kenneth Brophy uncovers some of the secrets of the Neolithic landscape While outlining the physical characteristics of the cursus this book also addresses the limitations of this kind of typological description when applied to monuments which varied so remarkably in terms of materiality and size Moving beyond a morphological account Brophy considers what can be said of this diverse group of sites and how they were actually built and used in prehistory in light of several decades of aerial reconnaissance and excavation in Scotland Through a close study of the differences as well as the similarities between these structures this book offers a nuanced account of cursus monuments finally allowing this important monument type to be better understood and placed alongside others of the period Offering exciting new ways of thinking about these enigmatic yet important monuments Reading Between the Lines The Neolithic Cursus Monuments of Scotland is an essential resource for students and specialists in British prehistory providing an introduction to the Early Neolithic archaeology of lowland Scotland as well as a meditation on broader aspects of monumentality and architecture [An Easy Guide To British History](#) Joan Green, 2011-03-16 A history of the remarkable events that have made the British race and culture over the past 15 000 years The only consecutive history of Britain in print Easy reading and thought provoking for the student history lover and general reader *Strongholds of the Picts* Angus Konstam, 2013-02-20 When the Romans withdrew from Britain the north of the country was ruled by the mysterious ancient British race the Picts Much of what is known about these painted warriors comes from the remains of the fortifications that they left scattered around Scotland Although the Picts are famous as sea raiders they were also subjected to attacks from a number of opponents To their south the Romano British reoccupied the abandoned Roman fortifications and hired Saxon mercenaries to strike against the Picts Meanwhile from the west a new group the Scoti attacked from Ireland This book covers the fortification of the ancient Picts in all their conflicts and discusses the importance of these sites as religious centres and seats of power while using up to date archaeological evidence to help unravel the mystery of this ancient race [The New Cambridge Medieval History: Volume 4, C.1024-c.1198, Part 2](#) Rosamond McKitterick, David Abulafia, C. T. Allmand, 1995 The fourth volume of The New Cambridge Medieval History covers the eleventh and twelfth centuries which comprised perhaps the most dynamic period in the European middle ages This is a history of Europe but the continent is interpreted widely to include the Near East and North Africa The volume is divided into two parts of which this the second

deals with the course of events ecclesiastical and secular and major developments in an age marked by the transformation of the position of the papacy in a process fuelled by a radical reformation of the church the decline of the western and eastern empires the rise of western kingdoms and Italian elites and the development of governmental structures the beginnings of the recovery of Spain from the Moors and the establishment of western settlements in the eastern Mediterranean region in the wake of the crusades

Soulfaring Cintra Pemberton,1999-10 Pilgrimage going to ancient holy sites in search of God has become increasingly popular for people seeking to deepen their relationship with the Holy Sister Cintra Pemberton seeks to enrich the experiences of today's pilgrims by helping them draw on the history of pilgrimage itself as well as by suggesting particularly rich sites to visit Part One of Soulfaring explores the history of pilgrimage beginning in Celtic times and moving through the early Christian period the Middle Ages and even the revival of pilgrimage today Part Two explores fifteen sites in Wales Ireland Scotland and the Isle of Man Each of the descriptions of the various sites includes not only suggestions of what may be seen there but the author's personal meditations on the experience of the Holy in each place

Tourism in Peripheral Areas Frances Brown,Derek D. Hall,Derek R. Hall,2000-08-31 There has been little research on tourism in those European countries or regions which lie outside the continent's main centres of production and population even though tourism may be one of the few economic options open to them This volume aims to fill a gap by presenting a range of case studies including northern Sweden the Orkneys the tip of Norway and northern Cyprus on tourism in the peripheral areas of Europe Taking as a leitmotiv the paradoxes inherent in developing places whose very attraction may lie in their lack of development the case studies investigate and illustrate both the opportunities and the threats that tourism presents to peripheral areas Although they share certain similarities the cases also demonstrate differing approaches to tourism development and varying outcomes over time They suggest solutions for dealing with for example community participation as well as providing practical insights into visitor perceptions of peripheral areas and into ways of marketing such areas in a sensitive manner Together they provide a picture of the needs of peripheral areas and of how far and how best tourism can fulfil those needs
