Dingwall, 2003 In this exciting new book Helen Dingwall introduces the history of Scottish medicine from earliest times to the present day Women and Scottish Society, 1700-2000 W.W.J. Knox, 2021-05-03 This book attempts to cover all the important aspects of a woman's life in Scotland examining how and why it changed over the last 300 years It walks us through the day to day existence of Scottish women and in doing so covers areas such as family and household education work and politics religion and sexuality crime and punishment While sensitive to the differences among women regarding colour class and sexuality the book seeks to establish a close and reciprocal relationship between women's history and gender history the first delineating the struggles of women for parity with men in economic legal and political spheres the second as means of unravelling the continuing ways in which power is unequally distributed within the home the workplace and in institutions and in contesting the male centred narratives of the past **Scotland and the Caribbean, c.1740-1833** Michael Morris, 2015-03-12 This book participates in the modern recovery of the memory of the long forgotten relationship between Scotland and the Caribbean Drawing on theoretical paradigms of world literature and transnationalism it argues that Caribbean slavery

profoundly shaped Scotland's economic social and cultural development and draws out the implications for current debates on Scotland's national narratives of identity Eighteenth to nineteenth century Scottish writers are re-examined in this new light Morris explores the ways that discourses of improvement in both Scotland and the Caribbean are mediated by the modes of pastoral and georgic which struggle to explain and contain the labour conditions of agricultural labourers both free and enslaved The ambivalent relationship of Scottish writers including Robert Burns to questions around abolition allows fresh perspectives on the era Furthermore Morris considers the origins of a hybrid Scottish Creole identity through two nineteenth century figures Robert Wedderburn and Mary Seacole The final chapter moves forward to consider the implications for post devolution post referendum Scotland Underpinning this investigation is the conviction that collective memory is a key feature which shapes behaviour and beliefs in the present the recovery of the memory of slavery is performed here in the interests of social justice in the present
