Mountains Before the Mountaineers Ian Robert Mitchell, 1998 **Mountaineering and British Romanticism** Simon Bainbridge, 2020-04-16 This book examines the relationship between Romantic period writing and the activity that Samuel Taylor Coleridge christened mountaineering in 1802 It argues that mountaineering developed as a pursuit in Britain during the Romantic era earlier than is generally recognised and shows how writers including William and Dorothy Wordsworth Ann Radcliffe Samuel Taylor Coleridge John Keats and Walter Scott were central to the activity s evolution It explores how the desire for physical ascent shaped Romantic period literary culture and investigates how the figure of the mountaineer became crucial to creative identities and literary outputs Illustrated with 25 images from the period the book shows how mountaineering in Britain had its origins in scientific research antiquarian travel and the search for the picturesque and the sublime It considers how writers engaged with mountaineering s power dynamics and investigates issues including the politics of the summit view what Wordsworth terms visual sovereignty the relationships between different types of mountaineers and the role of women in the developing cultures of ascent Placing the work of canonical writers alongside a wide range of other types of mountaineering literature this book reassesses key Romantic period terms and ideas such as vision insight elevation revelation transcendence and the sublime It opens up new ways of understanding the relationship between Romantic period writers and the world that they experienced through their feet and hands as well as their eyes as they moved through the challenging landscapes of the British mountains **The New Mountaineer in Late Victorian**

Britain Alan McNee, 2017-04-18 This book is about the rise of a new ethos in British mountaineering during the late nineteenth century It traces how British attitudes to mountains were transformed by developments both within the new sport of mountaineering and in the wider fin de si cle culture The emergence of the new genre of mountaineering literature which helped to create a self conscious community of climbers with broadly shared values coincided with a range of cultural and scientific trends that also influenced the direction of mountaineering The author discusses the growing preoccupation with the physical basis of aesthetic sensations and with physicality and materiality in general the new interest in the physiology of effort and fatigue and the characteristically Victorian drive to enumerate codify and classify Examining a wide range of texts from memoirs and climbing club journals to hotel visitors books he argues that the figure known as the New Mountaineer
