Scottish Castle And Fortifications:

Scottish Castles and Fortifications Christopher J. Tabraham, C. J. Tabraham, 1986 These easy to read books are a perfect introduction to the history of Scotland Full of little known facts and color illustrations these books help bring history to life The Stationery Office *Scottish Castles and Fortifications* Richard Dargie, 2004-01-01 **Scottish Castles** Adrian Pettifer, 2024-10 Gazetteer of over 500 hundred surviving Scottish Castles Discover the castles of Scotland from early motte and bailey earthworks and impressive walled enclosures to the many tower houses that dot the landscape Castles were built in increasing numbers from the 14th to the 17th century as residences for the Scottish nobility Some are still proudly occupied others are well maintained ruins many others slowly decay in fields and farmyards Here Adrian Pettifer provides a brief account of every Scottish castle to survive in a reasonable state of preservation including such iconic sites as Edinburgh Glamis and Cawdor Each of the more than five hundred main entries provides a brief history and description of a castle followed by advice on accessibility sources for further reading and cross references to related sites An introduction supplies the historical background while a glossary covers all aspects of Scottish castles in some detail Ordnance Survey references are given in the index

The Kingdom of the Isles R. Andrew McDonald, 2008-08-01 This study explores the history of the western seaboard of Scotland the Hebrides Argyll and the Isle of Man in a formative but often neglected era the central middle ages from the mighty Somerled to his descendant John MacDonald the first Lord of the Isles c 1336 Drawing on a variety of sources this very readable narrative deals with three major and closely interrelated themes first the existence of the Isles and coastal mainland as a kingdom from c 1100 to 1266 second the rulers of the region Somerled and his descendants the MacDougalls MacDonalds and MacRuairis and third the often complex relations among the Isles Scotland Norway and England A fully rounded history emerges which transcends national viewpoints While political history predominates the changing nature of society in the isles is emphasised throughout and separate chapters address the church and monasticism as well as the monuments the castles monasteries churches and chapels that form an enduring legacy

Scotland's Castles Janet Brennan-Inglis, 2014-07-07 Scotland's Castles is a beautifully illustrated celebration and account of the renaissance of Scottish castles that has taken place since 1950 Over 100 ruined and derelict buildings from tiny towers to rambling baronial mansions have been restored as homes hotels and holiday lets These restorations have mainly been carried out by new owners without any connections to the land or the family history of the buildings which they bought as ruins Their struggles and triumphs including interviews and first person accounts form the core of the book set in the context of the enormous social political and economic changes of the late twentieth century Castles and Fortifications in Ireland, 1485-1945 Paul M. Kerrigan, 1995 Castles fortifications in Ireland **Late Medieval Castles** Robert Liddiard, 2016 A collection of the most significant articles in castle studies with contributions from scholars in history archaeology historic buildings and landscape archaeology The castles of the late medieval period represent some of the finest medieval

monuments in Britain with an almost infinite capacity to fascinate and draw controversy They are also a source of considerable academic debate The contents of this volume represent key works in castle scholarship Topics discussed include castle warfare fortress customs architectural design and symbolism spatial planning and the depiction of castles in medieval romance The contributions also serve to highlight the diversity of approaches to the medieval castle ranging from the study of documentary and literary sources analysis of fragmentary architectural remains and the recording of field archaeology The result is a survey that offers an in depth analysis of castle building from the thirteenth to the fifteenth centuries and places castles within their broader social architectural and political contexts Robert Liddiard is Professor of History University of East Anglia Contributors Nicola Coldstream Charles Coulson Philip Dixon Graham Fairclough P A Faulkner John Goodall Beryl Lott Charles McKean T E McNeill Richard K Morris Michael Prestwich Christopher Taylor Muriel A Whitaker
