Educational Regimes and Anglo-American Democracy Ronald A. Manzer,2003-01-01 Manzer s comparative political study of schools in Australia Canada New Zealand the United Kingdom and the United States focuses on five fundamental problems in the historical development of Anglo American educational regimes the original creation of systems of elementary education in the nineteenth century as publicly provided and publicly governed the transformation of secondary schools in the early twentieth century to match the emerging structure of occupational classes in capitalist industrial economies the planning for secondary schools in the development of the welfare state after the Second World War the accommodation of social diversity in public schools from the 1960s to the 1990s in response to increasingly strong assertions of ethnicity language race and religion not only as criteria for equal treatment but also as foundations of communal identity and more

Children, Education and Geography Lauren Hammond,Mary Biddulph,Simon Catling,John H. McKendrick,2022-11-30 This book examines the intersections between children education and geography With a particular focus on children s geographies and geographies of education the book draws upon cutting edge research to consider how geographical education can be enhanced through increased engagement with these fields The book is underpinned by the position that the lives of children and young people are inherently geographical as are educational institutions systems and processes The volume explores the ways in which the diverse relationships between children education and geography can enrich research and work with and for children and young people Chapters in this book consider how injustices are re produced through

education Chapters also explore how insights generated by thinking in and across geography and education can be used to support and empower young people in both formal education and in their everyday lives Ultimately this book is written for children and young people Not as the readership but as people often marginalised in decision making at a variety of scales in education and who we contend should be at the heart of all educational thinking The book is of value to undergraduate and post graduate students interested in geography education and children s geographies as well as teachers of geography both new and experienced
