Surveillance on Screen

Sébastien Lefait, 2013 The theme of surveillance has become an increasingly common element in movies and television shows perhaps as a response to the sense that the world is now virtually under watch But the recent surge of this filmic device calls for an explanation that transcends the basic assumption that media illustrates the changes of society The persistent and growing presence of surveillance in cinematic productions is not merely a reflection of the advent of surveillance societies but rather an aesthetic adaptation to the evolution of watching patterns In Surveillance on Screen Monitoring Contemporary Films and Television Programs Sébastien Lefait examines this ever increasing phenomenon Drawing on the rapidly developing field of surveillance studies Lefait offers an in depth analysis of television shows and films which complement current theoretical approaches to those subjects This unique combination of surveillance theories with the latest concepts of film television and Internet studies is based on a large and diversified range of popular series and films including the shows 24 Lost and Survivor as well as such films as Minority Report Paranormal Activity The Truman Show and the on screen version of George Orwell's Nineteen Eighty Four Written from a perspective that does not limit itself to a reflection of society approach this book explores both how cinema shapes our experience of surveillance and how surveillance influences our viewing of cinema Lefait follows the various identifiable stages in cinema's experimental use of surveillance studying the impact of technology on both the watcher and the watched In addition to film and media studies this book will be of interest to those engaged in information technology sociology and of course surveillance studies

Looking-Glass Wars: Spies on British Screens since 1960 Alan Burton, 2018-01-31 Looking Glass Wars Spies on British Screens since 1960 is a detailed historical and critical overview of espionage in British film and television in the important period since 1960 From that date the British spy screen was transformed under the influence of the tremendous success of James Bond in the cinema the spy thriller and of the new style spy writing of John le Carr and Len Deighton the espionage story In the 1960s there developed a popular cycle of spy thrillers in the cinema and on television The new study looks in detail at the cycle which in previous work has been largely neglected in favour of the James Bond films The study also brings new attention to espionage on British television and popular secret agent series such as Spy Trap Quiller and The Sandbaggers It also gives attention to the more realistic representation of spying in the film and television adaptations of le Carr and Deighton and other dramas with a more serious intent In addition there is wholly original attention given to nostalgic spy fictions on screen adaptations of

classic stories of espionage which were popular in the late 1970s and through the 1980s and to historical spy fiction dramas which treated real cases of espionage and their characters most notably the notorious Cambridge Spies Detailed attention is also given to the secret state thriller a cycle of paranoid screen dramas in the 1980s which portrayed the intelligence services in a conspiratorial light best understood as a reaction to excessive official secrecy and anxieties about an unregulated security service The study is brought up to date with an examination of screen espionage in Britain since the end of the Cold War The approach is empirical and historical The study examines the production and reception literary and historical contexts of the films and dramas It is the first detailed overview of the British spy screen in its crucial period since the 1960s and provides fresh attention to spy films series and serials never previously considered
