Classical Storytelling and Contemporary Screenwriting Brian Price,2017-12-14 Since we first arrived on the planet we've been telling each other stories whether of that morning's great saber tooth tiger hunt or the latest installment of the Star Wars saga And throughout our history despite differences of geography or culture we've been telling those stories in essentially the same way Why Because there is a RIGHT way to tell a story one built into our very DNA In his seminal work *Poetics* Aristotle identified the patterns and recurring elements that existed in the successful dramas of his time as he explored precisely why we tell stories what makes a good one and how to best tell them In *Classical Storytelling and Contemporary Screenwriting* Brian Price examines Aristotle's conclusions in an entertaining and accessible way and then applies those guiding principles to the most modern of storytelling mediums going from idea to story to structure to outline to final pages and beyond covering every relevant screenwriting topic along the way The result is a fresh new approach to the craft of screenwriting one that's only been around a scant 2 500 years or so ideal for students and aspiring screenwriters who want a comprehensive step by step guide to writing a successful screenplay the way the pros do it
