Scribbling Women Short Stories By 19th Century American Women:

Scribbling Women Elaine Showalter, 1997 From the Publisher A new mother longing to write is judged hysterical and confined to her bedroom where she slowly loses herself in horrific fantasy A young girl stirred by two beings a handsome young man and an ethereal white heron is forced to make a choice between them A love affair quashed by convention ignites during a sudden storm These tales of remarkable and ordinary lives in nineteenth century America are told throughout women's voices that call out from the kitchen hearth the solitary room the prison cell Stories by Louisa May Alcott Willa Cather Kate Chopin and Edith Wharton as well as by others less familiar reveal a universe of emotions hidden beneath parochial scenes American writers claimed the short story as their national genre in the nineteenth century and women writers made it the most important outlet for their particular experiences A unique selection with an introduction notes selected criticism and a chronology of the authors lives and times

Scribbling Women Elaine Showalter, 1997 Including pieces by Edith Wharton Kate Chopin Willa Cather Louisa May Alcott and Charlotte Perkins Gilman as well as stories by lesser known writers SCRIBBLING WOMEN offers a sampling of the brilliant accomplishment of women writing in the 19th century America The writers in this collection use psychological insight parable parody sensationalism and satire to explore and undermine the feminine stereo types inflicted upon them

Scribbling Women & the Short Story Form Ellen Burton Harrington, 2008 America is now wholly given over to a d d mob of scribbling women and I should have no chance of success while the public taste is occupied with their trash Taking Hawthorne's famous 1855 complaint about women writers as a starting point for consideration Scribbling Women and the Short Story Form is a collection of fourteen critical essays about the short fiction of British and American women writers This anthology takes a feminist approach examining the liberating possibilities for women writers of the form of the short story a genre often associated with alienation or subversion the writer Frank O Connor describes the form as marginal or outlaw Covering the work of selected women writers from the 1850s through the late twentieth century this collection includes essays on well known authors such as Rebecca Harding Davis Louisa May Alcott Kate Chopin Katherine Anne Porter Flannery O Connor Cynthia Ozick and Ursula K Le Guin alongside essays on Harriett Prescott Spofford Ruth Stewart L T Meade Alice Dunbar Nelson Zitkala Sa Sui Sin Far and Lydia Davis less known authors whose stories offer rich ground for consideration

Twelve Stories by American Women Arielle Zibrak, 2025-03-18 A collection of twelve essential short stories by iconic American women writers that introduces a more diverse canon and emphasizes non white and queer writers to better represent the experiences of all American women and to understand the importance of the short story for women A Penguin Classic When Four Stories by American Women was first published by Penguin Classics in 1990 it understandably reflected the second wave feminist interpretations of that time a period marked by an impressive recovery of what were then considered to be minor American writers Since then the four white women writers included in the volume Rebecca Harding Davis Charlotte Perkins Gilman Sarah Orne Jewett and Edith

Wharton have become canonical figures and scholars have grown to see their work as only a small part of the rich tapestry of American women's lives, values, and political beliefs in the fertile period of late nineteenth century and early twentieth century American literature. Today we not only have a deeper understanding of the significance of these texts and the complicated nature of their authors' ideological orientations, scholars and educators have also expanded the canon of American women writers to more frequently foreground the voices of non-white and queer writers whose work speaks more fully to the experiences and beliefs of all American women. This updated and expanded volume *Twelve Stories by American Women*, edited by Arielle Zibrak, offers a more diverse selection of writers including Frances Ellen Watkins Harper, Marjorie Pryor, Cristina Mena, Zitkala-Sue, and Barbara E. Pope, covering hot button issues such as environmentalism, queerness, and marital status, and provides a new introduction that highlights the developments in the critical understanding of the turn of the century American women writers in all of their complexity.

Scare Tactics Jeffrey Andrew Weinstock, 2009-08-25 *Scare Tactics* identifies an important but overlooked tradition of supernatural writing by American women. Jeffrey Weinstock analyzes this tradition as an essentially feminist attempt to imagine alternatives to a world of limited possibilities. In the process, he recovers the lives and works of authors who were important during their lifetimes and in the development of the American literary tradition but who are not recognized today for their contributions. Between the end of the Civil War and roughly 1930, hundreds of uncanny tales were published by women in the periodical press and in books. These include stories by familiar figures such as Edith Wharton, Harriet Beecher Stowe, and Charlotte Perkins Gilman, as well as by authors almost wholly unknown to twenty-first century readers such as Josephine Dodge Bacon, Alice Brown, Emma Frances Dawson, and Harriet Prescott Spofford. Focusing on this tradition of female writing offers a corrective to the prevailing belief within American literary scholarship that the uncanny tale exemplified by the literary productions of Irving Poe and Hawthorne was displaced after the Civil War by literary realism. Beyond the simple existence of an unacknowledged tradition of uncanny literature by women, *Scare Tactics* makes a strong case that this body of literature should be read as a specifically feminist literary tradition. Especially intriguing, Weinstock demonstrates, is that women authors repeatedly used Gothic conventions to express discontentment with circumscribed roles for women, creating types of political intervention connected to the broader sphere of women's rights activism. Paying attention to these overlooked authors helps us better understand not only the literary marketplace of their time but also more familiar American Gothicists, from Edgar Allan Poe to Shirley Jackson to Stephen King.

Reclaiming Authorship Susan S. Williams, 2013-06-15 There was in the nineteenth century a distinction made between writers and authors. Susan S. Williams notes the former defined as those who composed primarily from mere experience or observation rather than from the unique genius or imagination of the latter. If women were more often cast as writers than authors by the literary establishment, there also emerged in magazines, advice books, fictional accounts, and letters a specific model of female authorship, one that valorized natural feminine traits such as observation and emphasis on

detail while also representing the distance between amateur writing and professional authorship Attending to biographical and cultural contexts and offering fresh readings of literary works Reclaiming Authorship focuses on the complex ways writers such as Maria S Cummins Louisa May Alcott Elizabeth Keckley Mary Abigail Dodge Elizabeth Stuart Phelps and Constance Fenimore Woolson put this model of female authorship into practice Williams shows how it sometimes intersected with prevailing notions of male authorship and sometimes diverged from them and how it is often precisely those moments of divergence when authorship was reclaimed by women The current trend to examine women writers rather than authors marks a full rotation of the circle and writers can indeed be the more capacious term embracing producers of everything from letters and diaries to published books Yet certain nineteenth century women made particular efforts to claim the title author Williams demonstrates and we miss something of significance by ignoring their efforts *The Nineteenth Century Revis(it)ed* Ina Bergmann,2020-12-29 The Nineteenth Century Revis it ed The New Historical Fiction explores the renaissance of the American historical novel at the turn of the twenty first century The study examines the revision of nineteenth century historical events in cultural products against the background of recent theoretical trends in American studies It combines insights of literary studies with scholarship on popular culture The focus of representation is the long nineteenth century a period from the early republic to World War I as a key epoch of the nation building project of the United States The study explores the constructedness of historical tradition and the cultural resonance of historical events within the discourse on the contemporary novel and the theory formation surrounding it At the center of the discussion are the unprecedented literary output and critical as well as popular success of historical fiction in the USA since 1995 An additional postcolonial and transatlantic perspective is provided by the incorporation of texts by British and Australian authors and especially by the inclusion of insights from neo Victorian studies The book provides a critical comment on current and topical developments in American literature culture and historiography **Edinburgh Companion to the Short Story in English** Paul Delaney,2018-11-27 This collection explores the history and development of the anglophone short story since the beginning of the nineteenth century **Encyclopedia of Feminist Literature** Mary Ellen Snodgrass,2015-04-22 Presents articles on feminist literature including significant authors themes and history **Edith Wharton in Context** Laura Rattray,2012-10-08 This collection of essays examines the various social cultural and historical contexts surrounding Edith Wharton s popular and prolific literary career
