Scripture in the Church James Chukwuma Okoye, 2011 Who should read the Bible What is the biblical word How is Scripture to be interpreted How is it to be prayed and lived How does Scripture call forth the Church's entire life and mission In October 2008 the Synod on the Word of God in the Life and Mission of the Church took place in Rome During the synod the bishops addressed these questions on the significance of the Word in the life and mission of the church Beginning with a helpful explanation of the synod process James Chukwuma Okoye CSSp follows the synod in historical progression highlighting important topics and issues along the way and concluding with an exposition of the post synodal apostolic exhortation *Verbum Domini* which Benedict XVI signed on September 30 2010 Okoye emphasizes that the Synod on the Word of God was not just about Scripture's function in the pastoral life of the church but it was also about tradition and God's continuing self disclosure in history and in the religions and cultures of humankind *The Soul of Theological Anthropology* Joshua R. Farris, 2016-11-25 Recent research in the philosophy of religion anthropology and philosophy of mind has prompted the need for a more integrated comprehensive and systematic theology of human nature This project constructively develops a theological accounting of human persons by drawing from a Cartesian as a term of art model of anthropology which is motivated by a long tradition As was common among patristics medievals and Reformed Scholastics Farris draws from philosophical resources to articulate Christian doctrine as he approaches theological anthropology Exploring a substance dualism model the author highlights relevant theological texts and passages of Scripture arguing that this model accounts for doctrinal essentials concerning theological anthropology While Farris is not explicitly interested in thorough critique of materialist ontology he notes some of the significant problems associated with it Rather the present project is an attempt to revitalize the resources found in Cartesianism by responding to some common worries associated with it The Routledge Companion to the Practice of Christian Theology Mike Higton, Jim Fodor, 2015-03-24 This Companion introduces readers to

the practice of Christian theology covering what theologians do why they do it and what steps readers can take in order to become theological practitioners themselves The volume aims to capture the variety of practices involved in doing theology highlighting the virtues that guide them and the responsibilities that shape them It also shows that the description of these practices virtues and responsibilities is itself theological what Christian theologians do is shaped by the wider practices and beliefs of Christianity Written by a team of leading theologians the Companion provides a unique resource for students and scholars of theology alike

"Sacred Scripture, Soul of Theology" William J. Baer, 1996 *Ecclesial Exegesis* Gregory Vall, 2022-07 Biblical scholarship informed by the faith of the Church and to serve the life of the Church is called ecclesial In 1988 Joseph Ratzinger put forward a proposal of what this should mean which he called Method C in contrast to the patristic medieval approach Method A and the historical critical approach Method B This book examines the warrant for the Method C proposal in the document Dei Verbum of the Second Vatican Council and offers nine studies applying this method that bring to the surface issues such as the relationship between Old Testament and New Testament literal sense and spiritual sense and Scripture and Tradition

Scripture and Theology Tomas Bokedal, Ludger Jansen, Michael Borowski, 2023-08-21 The academic disciplines of Biblical Studies and Systematic Theology were long closely linked to one another However in the modern period they became gradually separated which led to increasing subject specialization but also to a lamentable lacuna within the various branches of Divinity As the lack of dialogue between Biblical Studies and the various theological disciplines increased a minority group of scholars in the past few decades reacted and sought to re establish the time honoured bonds between the disciplines The present volume is part of this intellectual response with contributions from scholars of various professional and denominational backgrounds Together the book's 25 chapters seek to reinvigorate the crucial cross disciplinary dialogue involving biblical narrative historical systematic theological and philosophic theological perspectives The book opens the horizon to contemporary research and fills a lamentable research gap with a number of fresh contributions from scholars in the respective sub disciplines

Body, Soul, and Human Life (Studies in Theological Interpretation) Joel B. Green, 2008-07-01 Are humans composed of a material body and an immaterial soul This view is commonly held by Christians yet it has been undermined by recent developments in neuroscience Exploring what Scripture and theology teach about issues such as being in the divine image the importance of community sin free will salvation and the afterlife Joel Green argues that a dualistic view of the human person is inconsistent with both science and Scripture This wide ranging discussion is sure to provoke much thought and debate Bestselling books have explored the relationship between body mind and soul Now Joel Green provides us with a biblical perspective on these issues
