**Dr. Enos Lwamba**

## **Scripture Safari 1:**

**Safari Based Theology** Dr. Enos Lwamba, 2012-12-21 In Safari based Theology Dr Enos Lwamba has developed an approach to theology and mission based on his proposed safari motif for the development of theology and mission Based on his Ph D dissertation The Safari Motif in the Development of Theology in Africa Dr Lwamba argues that God has used a series of divine redemptive safaris in the Bible to reveal Himself progressively to people The author develops his proposed motif around a tri dimensional conception of reality and time and explores a threefold aspect of the safari mwanzo sasa and mwisho which provide keys to the African mindset He explores the various meanings and uses of the safari idea from both a biblical and theological perspective In addition to the literal safaris journey is an analogy of the church and believers are on a divine safari individually and collectively The safari model highlights the absolute necessity of the biblical message and the contextual situation to help Christians live effective and fruitful lives in society now and in future Inspired by both John Mbitis The African Concept of Time and Paul Hieberts The Flaw of the Excluded Middle the author utilizes biblical theological historical and contextual sources to make his point In the philosophical aspect of the safari the author develops his notion of an African conception of time modeled on the cultural safari idea which he relates to development of theology and mission He refutes the western influenced or commercially based notion that safari refers to a game hunting or tourist expedition to Africa Dr Lwamba promotes the argument that the philosophical framework and methodology drawn from the safari approach provides a more effective way of doing theology and mission in Africa and other contextual situations He also draws parallels to the safari concept from such sources as Augustines City of God John Bunyans The Pilgrims Progress and others in a refreshing and original style that the reader will find engaging The motif provides interpretational and practical application tools as it harmonizes the unity of the biblical message Its practical appeal makes Safari Based Theology a must read for Christians and others interested in their daily journey of faith The author contends that just as the idea of logos described the mindset conception of divine truth and aspirations of the Greek mind the concept of safari does the same for the African This book is highly recommended for pastors missionaries and teachers as well as students of Bible and theology culture and missions and other related disciplines

**Dominion over Wildlife?** Stephen M. Vantassel, 2009-04-01 For centuries Christians believed that God granted humanity dominion over the animal kingdom meaning that we had a moral right to kill manage and eat animals including wildlife Recently however environmental and animal rights activists have assaulted this traditional perspective They argue that dominion as expressed in meat eating and hunting has resulted in species extinction and environmental degradation Christian Animal Rights CAR activists suggest that the church must reevaluate its traditional beliefs in light of the fact that God's original creation was free of human on animal violence God they argue did not want man's dominion to be expressed through trapping killing and eating of animals These violent activities only came about after the Fall as God condescended to our hardness of heart CAR activists point to Christ's sacrificial work of reconciliation as a model for modern Christian behavior as Christ sacrificed for us we should avoid eating meat and hunting as ways we can participate in Christ's non violent work of reconciling creation to himself In this book Stephen Vantassel investigates the biblical ethical and scientific arguments employed by the CAR movement concerning human wildlife relations In this regard the book engages in practical theology by addressing several important questions How should Christians treat our wildlife neighbors Has the Church been wrong in its understanding of human dominion Does God want Christians to avoid hunting trapping fishing and adopt a vegetarian lifestyle This book provides answers to these questions by detailing a theology the author calls Shepherdism

**The Publishers' Trade List Annual**, 1989 *Man on the Goat Trail, Man in the Safari Suit* T. Isom Sr., 2017-09-07 The world has always been a battleground the fight started in heaven and came to earth just as the body soul and spirit of man have always been a battleground Most people are unaware that fallen angels contaminated the DNA of man through sexual relations with women So the fight is not only a natural fight but a spiritual fight as well and the soul of man is the prize So if God couldn't avoid the fight in heaven how do you think you can avoid the fight here on earth If you don't learn to fight and understand the fight you become a casualty Recognizing your enemy and knowing his tactics will give you the edge but knowing how to fight who you're fighting and what weapons you need to win the fight are key Genetically you are what you are and you live with the understanding that no two people are alike and no two spirits are identical You can come from the same womb but you will not have the same DNA naturally or spiritually So whether you're the man on the goat trail or the man in the safari suit I believe this book will help you get a little closer to victory
